Sheriff Linville, G. C. Fulton and Mr. Elsworth returned yesterday from a hunting trip at Clatsop, and judging by their bulging hunting coats, they were quite successful. Ducks and geese are plentiful at the lake, and the prevailing high winds make them easy prey.

Young Americans were sailing model yachts in the bay yesterday. They

had two boats and the larger was named Columbia. The other boy absolutely refused to call his the Shamrock and adopted the name of Yankee Doodle Dewey. The Columbia however came out ahead.

Albert W. Larsen and Frances J. Morrison were united in marriage yesterday morning. Police Judge and Auditor H. E. Nelson officiated. Editor Gibson and John Jorgensen were the subscribing witnesses. The Montana volunteers came into Portland last night on the train from San Francisco. General Summers and a committee of citizens met them at the depot, and they were escorted to the Armory, where they were feasted and toasted. There were deafening cheers and wild rejoicing when the train came into the depot and during the time there was a soldier in sight.

H. Danziger, the popular clothier of this city, presents an inviting ad to the reading public this morning. Fortunately for all Astorians who believe in dealing at home, Mr. Danziger has in stock a line of men's and boys' suits and overcoats that for excellence challenge comparison with the leading houses of San Francisco. One doesn't have to go shopping abroad to be pleased in this particular line of merchandise. The San Francisco Store meets every emergency.

Miss Sigoe Palmberg, recently arriving from the East, desires to announce to the ladies of Astoria that she has opened dressmaking parlors on Ninth street, near Commercial, next door to Dellinger's printing office. Miss Palmberg has had thorough experience in cutting and fitting ladies' garments of all kinds, particularly tailor-made suits and cloaks of the latest and most fashionable designs.

Portland has been offered a collection of mounted birds that would be very difficult to duplicate and that is worth thousands of dollars, upon the sole condition that the city provides suitable cases. With a singular lack of appreciation, the council hesitates and seems indisposed to make the small appropriation needed. It is suggested that the donor would find a more cordial and worthy recipient in the State Agricultural college.

The bark Comliebank cleared at Portland Thursday with 120,039 bushels of wheat, worth \$2,570. She draws 22 feet and 6 inches of water. The Oregonian says that coming down the river "she will be diverted from the channel and gently pushed over one or two of the sand bars" in order to rid her bottom of marine growth. If the Oregonian's marine reporter is a wit, the expression "diverted" might be regarded as conscious humor.

An Astorian reporter was in an Astoria grocery store yesterday when a boy stepped in and asked for two dozen eggs. "Portland eggs?" inquired the clerk. "Yes," the boy answered, and he walked out with "Portland" eggs. Probably it does little good to keep hammering at such a subject. Perhaps the newspaper man would not make a radical improvement were he a farmer or a groceryman, but it certainly seems within the range of possibilities for Clatsop county to produce eggs enough for at least the home consumption.

"My Friend from India," which appears at Fisher's opera house next Thursday evening, is a guarantee of at least one excellent presentation by a famous company of popular comedians. The comedy itself is exceedingly bright, interesting and novel and so lively in action that there is never an idle moment in which the auditor can escape the charm of the play-house for the hum-drum affairs of every-day life. "My Friend from India" was constructed to amuse, not in a vulgar way, but appeals to the humorous side of our composition, and as a distraction from worldly cares has admirably succeeded. Walter Perkins, who heads the company this year, as he has ever since the original production some three years ago, still shines as the barber who is "My Friend from India," and lends to that character all the delightful personality of that quaintness which has made him one of our foremost exponents of comedy characterization. Seat sale opens on Tuesday morning.

An amusing incident, and one that is illustrative of the various winds to the minute that can be produced in Astoria, occurred at the corner of Twelfth and Commercial streets last evening. Two gentlemen were engaged in conversation in front of Miller's stand at the corner mentioned when a gust of wind whisked the hat off one of the individuals and carried it across the street against S. Danziger's store. Not having another hat about him, and believing that Mr. Danziger did not wish to add this one to his stock, the man began to cross the street to regain his property. When half-way over, not seeing the hat ahead of him, he turned, and to his surprise observed it closely following, turning swiftly upon its brim. When he attempted to pick it up it started down the street, west, and then, without any perceptible stop, changed its course east and sailed directly into his hand. So here were four winds from different directions in less time than a man could cross the street.

AMONG THE MILLS.

Lumber Movements on the Lower River Continue at High Pressure.

The movement in lumber continues at high pressure. The output of the lower Columbia mills is something enormous, but they seem no nearer to clearing up filed orders than they were a month ago.

Notwithstanding the ceaseless activity of the saws the demand grows rather than diminishes and, what is more, there is every indication that the heavy call from foreign and domestic consumers will continue to pour in for a long time yet.

In times like these, the mills can pick their customers and cater only to the best trade.

TO BUSINESS MEN.

A New Idea, to Be Introduced by the Morning Astorian.

The Morning Astorian will soon introduce a new and interesting feature in newspaper advertising, known as the Bargain Columns, which is meeting with great popularity with advertisers all over the country. The idea is new and novel, and has features that will induce people to constantly read it.

The Bargain Columns will be made a special feature of the Astorian, daily and semi-weekly, for three months at small cost. The advertisements will be uniform in size, frequently changed for patrons, and written for them in attractive style. The many other features of the Bargain Columns will be fully explained by our representative, and every contract made by him will be carried out by the Morning Astorian.

HORRORS OF PHILIPPINE WAR.

Tales come to us of the sufferings endured by our brave soldiers in the Philippines. The papers ring with them, sympathy is freely given. And yet there are people in our midst of whom we hear nothing, who are just as brave. They are suffering silently and fighting bravely with the greatest enemy of mankind—Dyspepsia and all its terrible ills. There is relief for them if they will take Hostetter's Stomach Bitters faithfully. It will cure dyspepsia, constipation, biliousness, malaria, fever and ague and liver and kidney troubles. It tones up the whole system. Get it from any druggist and see that a private Revenue Stamp covers the neck of the bottle.
