LADYSMITH AND MANILA.

The Interest Taken by Astoria People in the Two Wars Now Waging.

The two big Anglo-Saxon nations are engaged in conflicts at arms, far away from the central government. Astorians are not lacking in patriotism—they are "as loyal as they make 'em"—yet the news that this city eagerly awaits is not news from Manila, but intelligence from Ladysmith.

This does not betoken a lack of interest in the affairs of our own country and the welfare of American troops, but rather testifies to the supreme confidence in the valor of American soldiery and in the ability of the administration. There is not the slightest fear of reverses, and we have grown accustomed to the feeling that "all is well on the Luzon."

There is an element of uncertainty in the English-Boer war that holds the interest. The burghers are of a hearty, vigorous and shrewd race, bold and quick and handy with the rifle. They are no mean foe for the valiant Britisher. Any hour may bring news of a great battle that will perhaps be far-reaching in its effects, extending over the whole world and down into coming generations.

The eyes of the world are on the conflict in South Africa, and Astoria finds herself absorbed in the progress of the contest. So when there come rumors of an important engagement, the Astorian office is called upon for information almost hourly. News comes altogether too slowly from far-off Africa. The interest manifested here gives one a faint idea of what the tension must be in London.
