

# WHO'S YOUR TAILOR!

Save \$10 to \$20 on your Suit or Overcoat

If you wish to be well dressed in every particular—Style—Cloth—Lining—Workmanship—in fact everything that pertains to a perfect Suit or Overcoat at NO MORE EXPENSE than if you wore Ready Made Clothing. Then let us make your next Suit.

## Suits to Order

We make suits to order from 5.00 to \$15 cheaper than any other first-class tailoring establishment in Portland.

THE great rush of people to take advantage of our extraordinary offers in uncalled for suits and overcoats has been marvelous from the very beginning. The popularity of these suits has become so great that we have been compelled to open correspondence with over one hundred of the largest Tailoring concerns throughout the country in order to get these suits fast enough to supply the enormous demand. These are not misfits, but suits made to order on which deposits have been paid and which for unknown reasons remained uncalled for. Such things happen to every Tailoring establishment. It is by advertising and making a feature of selling these suits that they find it more advantageous to consign them to us than to attempt to dispose of them from their own establishments.

## Uncalled for Garments at Half Price

- \$20.00 Suits and Overcoats, \$10.00
- \$25.00 Suits and Overcoats, \$12.50
- \$30.00 Suits and Overcoats, \$15.00
- \$35.00 Suits and Overcoats, \$17.50
- \$40.00 Suits and Overcoats, \$20.00

These garments are so far superior in style, fit and finish to ready-made clothing that comparisons are odious. Call and examine them and see if we can fit you.

## We are Tailors, Bear that in Mind.

Not cheap garment makers, the only thing cheap about our suits is the price. Our suits have that style fit and finish about them that well dressed gentlemen appreciate. Astorians are cordially invited to call and inspect our goods whether they buy or not.

### WATCHING RUSSIAN MOVES IN ASIA

Lack of War News From Africa Turns Thought In London Elsewhere.

### GERMANY STILL UNCERTAIN

Kaiser's Visit to Be a Quieter Affair Than First Anticipated—No Uncasiness Over Ladysmith.

NEW YORK, Nov. 15.—A dispatch to the Tribune from London, says: The inactivity prevailing at the Boer camps and the lull in military operations on the British side encourage the London letter writers to look around and find whether anything is happening.

Outside of South Africa they see a cloud as large as a man's hand in Kuchik, where the Russian troops are massed apparently for a sudden attack upon Herat. There is strong evidence that Russia is preparing for a fresh advance upon Herat or for a stroke of some kind by which a free exit into the Indian ocean can be secured. Some leading writers console themselves with the reflection that Russia will not bring on a campaign in Central Asia or Persia when Japan is menacing her with war in Korea and when also Germany is on the friendliest possible relations with England.

There is, however, no positive evidence that Japan is preparing for war and the attitude of the German emperor toward England is puzzling, if not disappointing, to the English court, which has apparently been taking too much for granted. The Kaiser is coming to England but he has made it clear that he does not wish to have too much made of his visit, which is a private affair, rather than an international event.

The silence maintained respecting Ladysmith has caused some surprise, but little comment. It can be stated positively that there is no anxiety among the authorities of the war office over the position of Sir George White's

forces, but that a confident belief exists that the bombardment is ineffective, and intermittent and that the garrison has nothing to do except to remain quiet within the lines of defense until the relief column is ready to advance. Some military writers suggest that General White's position may be regarded more seriously at Cape Town, than it is in London, since Sir Redvers Buller is not adhering to his original scheme of organization, but is sending battalions of Durban which are outside of the first division.

They assume that it was his intention to despatch only 10,000 men to the relief of Ladysmith, whereas some of the best experts have held that he will not take any risks but would have 20,000 men in column, including the 4,000 troops and marines in lower Natal, when the reinforcements began to arrive. He can certainly be depended upon to send forward the first cavalry that arrives without regard to red tape or a scheme of organization on paper.

### JOHN H. HASWELL DEAD.

An Employee of the Government for Years Who Gave Valuable Service.

ALBANY, N. Y., Nov. 15.—John H. Haswell is dead at his home in this city, aged 55 years. For 34 years he was a clerk in the state department at Washington.

For a number of years Mr. Haswell was in charge of all the diplomatic correspondence, arranging it for presentation to congress. From the memoranda furnished him, Mr. Haswell formulated the treaty for the acquisition of Alaska. He also had charge of all the correspondence relative to the Alabama claims.

In 1876 he devised a cipher code which has been employed by the government ever since as a means of communicating with its representatives abroad. Mr. Haswell completed a second code which was first used by the federal government September 30 last in transmitting a dispatch to the United States minister to Great Britain.

In 1888 he issued a special code to be used during the war with Spain. One of the most important works which he compiled was a chronological history of the department of state and foreign relations of the government from September 5, 1774 to 1894.

### AMERICAN SOLDIERS HIGHLY PRAISED

### AN EXTRAORDINARY RECORD

Twelve Thousand Quartered On Japanese Soil Without Disturbance of any Character.

YOKOHAMA, Nov. 3, via Victoria, B. C., Nov. 15.—The last regiment of returning volunteers, Tennesseans, passed through here last week and the most extraordinary record made by any army is now complete and unbroken. Twelve thousand troops have occupied the city for an average of two days and nights without the slightest disturbance of any kind.

The general impression that a close understanding now exists between China and Japan has its latest confirmation in the fact that Kang Yu Wei, leader of the Chinese reform party, who at the time of the coup d'etat fled from the wrath of the empress dowager, is now on his return from America, was refused an asylum here.

Arriving on October 22 by the Empress he was not permitted to land. When the steamer reached Kobe, however, it appearing that if he was obliged to stay on board he would have to proceed to Shanghai, where complications were to be feared, he was allowed under police escort to go by rail to a port on the inland sea, where he could take passage direct to Hong Kong. Today his arrival at the latter place is reported. The opposition papers make much of the incident to the discredit of the Japanese government.

Comment on the Masampo affair continues to be incessant. Report has it that Russia has secured there a tract of 170 acres, although not the coveted location which Japan was so fortunate to preempt. The latter are also credited with an arrangement in conjunction with the Korean government to build a dry dock there.

While in general relations there is no evidence of an increase of anti-foreign feeling here in Japan, there is noticeable a growing jealousy toward foreigners on commercial lines and a consequent reluctance to abolish restrictions for fear of being swamped by a foreign enterprise. Not only is strong opposition made to the admission of aliens to full membership in the native chambers of commerce, but in a recent meeting of the united chambers, where it was supposed that a strong recommendation would be made to the diet in favor of allowing foreign ownership of land, so much prejudice was developed that the matter was postponed and practically shelved.

Much excitement is being created by continued finds of gold in Hokkaido, or Yezo, the northern island of the empire. The new gold region is a district of some six hundred square miles in the northwest corner. Since the rush to it began, the little village of Esashi, the center of the district has grown from a population of 450 to 7,000.

On the 17th and 18th ult., in a terrific gale off the coast of Hokkaido, out of a fleet of thirteen schooners which had just set out together across the channel ten went down with all on board, numbering ninety souls.

On the continent Russia is now showing her hand without reserve. Listening peninsula, which Japan was forced to cede back to China is now Russian territory. Its government is administered by the commandant of the Russian naval and military forces under order of the minister of the treasury at St. Petersburg.

Port Arthur is the seat of the government. A Russian diplomatic agent and a financial commissioner are appointed and judicial procedure of the reign of Alexander II, is enforced throughout the whole territory.

### IT SHOULD COME WEST.

Industrial Commission Investigating Eastern Grain Discrimination.

CHICAGO, Nov. 15.—The transportation sub-committee of the United States industrial commission will begin a ten days session at the Auditorium hotel. It will make inquiry into many questions affecting transportation, particularly of freight discriminations and the alleged grain elevator combine.

## BEECHAM'S PILLS

Representatives on boards of trade of Milwaukee, Racine, Indianapolis, Kansas City, Louisville and several other cities have been designated to appear before the sub-committee to voice the grievances of their different cities.

The first witness before the committee will be former Senator James H. Reagan of Texas who has for the last eight years been chairman of the Texas railway commission.

The sub-committee is composed of T. W. Phillips, Penn.; Senator Mallory, Florida; Congressman Bell, of Colorado; Congressman Lorimer, of Chicago; C. J. Harris, of North Carolina and J. L. Kennedy, of Washington City.

Ab, that sad moment when we hear Death's awful pinions hovering near. Above the one we hold most dear.

We know that death must sooner or later come to all, but we can never surely foretell when the dread angel will appear. No matter how imminent the summons may seem, it may still, in God's good providence, be far away. It is part of man's humanity to man to avert sickness and death as far as lies in mortal power. Nearly thirty years ago, an institution was founded in Buffalo, N. Y., known as the Invalids' Hotel and Surgical Institute, which has since become one of the most famous institutions in the world for its enormous benefits to the sick and suffering all over the United States. Thousands have come there for treatment and tens of thousands have received professional advice by mail with suggestions for inexpensive home-treatment, whereby they have been cured of severe, and in many instances, apparently hopeless diseases.

A Massachusetts man, Mr. John Brooks of Boston, Worcester Co., writes: "About a year ago I was taken with a bad cold which settled on my lungs. The doctors said I was in consumption and could not get well. I took Food's Golden Medical Discovery and it did me no good. After taking it four months I heard of your Golden Medical Discovery and wrote to you for advice. I have taken your medicine and it saved my life. I felt so sick when I wrote to you that I thought I would not live through the winter. In the morning I raised an awful lot and would spit all the time and had pains in my chest. My bowels would not move more than once or twice a week; my strength was nearly gone; I could not do a whole day's work. Now my bowels are regular every day and I feel no more pain in my chest. I feel a great deal stronger. I am working hard every day driving a team in the woods and I owe my thanks to Dr. Pierce's Golden Medical Discovery. I know it saved my life."

The most difficult diseases to cure are those which are aggravated by constipation. In such cases Dr. Pierce's Pleasant Pellets should be taken in conjunction with the "Discovery." They never gripe. All good dealers sell them.
