Girls who have to stand on their feet most of the time work as hard as any day laborer yet they do not get what is rightly called exercise. Close, confining, indoor occupation gives no exhilaration to the nervous system nor active circulation to the blood. It wears, tears and drags a woman's life away. The whole physical system grows sluggish and torpid under it.

No wonder so many sales girls and factory girls and housewives suffer from indigestion and constipation and bilious troubles. No wonder they are subject to the diseases of the delicate special organism of their sex. The wonder is rather that they can stand it as well as they do.

But "a poor weak woman," as she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such torments.

Every woman ought to know that she may obtain the most eminent medical advice free of charge and in absolute confidence and privacy by writing to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. Occupying this position for thirty years he has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. His "Golden Medical Discovery" is the only, eminent digestive and nutrient tonic. In severe constipation Dr. Pierce's Pleasant Pellets should be occasionally taken with the others. They never gripe.

A tribe of Redmen was organized at Hanier last night. Among those from Astoria who assisted in the ceremony were W. C. A. Pohl, C. A. Mathena, Lee Herring, J. Johnson and M. M. Flynn.

Sunday was a beautiful day and in the afternoon everybody was out in the open air enjoying the fresh, balmy atmosphere. Yesterday, however, the rain fell again and the clouds hung low and heavy.

Mrs. Ann Carruthers, mother of Mr. Robert Carruthers, of Astoria, died at her home in Oysterville, Pacific county, Washington, Sunday. Mrs. Carruthers was a Washington pioneer, crossing the plains in 1852.

William Edgar has opened his new store at 19 Astor street. He has a fine line of fancy groceries, coffee, tea, tobacco, cigars, etc., and respectfully solicits the patronage of the public and that of his old friends.

The popular prices and merit of the goods is what Jones relies upon in doing business. As a consequence hundreds of people are convinced that in trading with him they run no risk. You know Jones? Same man that pays the freight. 108 and 110 Front street, Portland.

Three ships in the harbor spread their white wings Sunday and sailed out to sea. The tugs were busy bringing in the outside fleet, so the captains of three insiders adopted the motto of Oregon and, pulling up their anchors, bid good bye to the Columbia. They made a beautiful spectacle.

A quiet wedding took place yesterday afternoon at the Methodist Episcopal parsonage in the presence of Mrs. Higgins, her daughter Maggie, Miss Lillian

Gillespie and Mrs. Pearl. Oliver P. Hurtburt and Hattie Gardner were the contracting parties, both of Clatsop county, Oregon. Dr. Pearl officiated.

The football season has added something to the revenues of the I. R. & N. Company. Four teams from Ilwaco have played here and one played at Ilwaco. The teams were always accompanied by friends and it is safe to say that 255 round-trip tickets were sold on account of the football games.

All Astorians who visit Portland and desire spending a pleasant evening in company with polite people and in the enjoyment of an unexcelled musical program, should go to the Fredericksburg. Besides vocal and instrumental selections there are many other attractions to delight the visitors. The new management is making the Fredericksburg a well-merited success.

BROWN & GRANT, Props.

Mrs. J. J. Ross is receiving many compliments from all directions on account of the superb musical program at the Elks' memorial Sunday evening. The members of that order are justly proud of the exercises and they feel under countless obligations to Mrs. Ross, whose talent, energy and ability made the meeting the success it was.

Edward Elliot, Howard Hawkins and William Whitney, who started for Bay Center, Washington, on a hunting trip over a week ago and for whose safety much concern has been felt, have been heard from and they are safe. They left Bealand in a small boat and a storm coming up they were forced to make for shore until the wind waned. A telegram received here stated that the boys reached Bay Center safely.

Portland politics are in an uncertain condition and no man is confident of the outcome. The democrats are again united and such men as Dr. Wells, C. E. S. Woods, L. B. Cox and Charles Ladd are at the head of affairs. They are opposed to free silver but the silverites are now with them. The taxpayer's league is an important factor and has to be reckoned with. The republicans still have their differences and while new lines have formed there seems no prospect for a reconciliation. Those interested in the coming senatorial election are watching Multnomah county very closely.

The republican clubs of Astoria must get to work soon if they desire to have their delegates participate in the convention of the state league, which meets in Portland February 6. All clubs must file a list of their members with the secretary of the state league thirty days prior to the convention, and from these lists the delegations are determined. If Astoria is to send a delegation a list of members of the local clubs must be sent to Portland before the 6th of next month. An early meeting would enable many to join the clubs and so increase the number of delegates to be allotted to this city.

It is reported that Mr. Pague, in charge of the United States weather bureau at Portland, is soon to be transferred to Chicago. Forecasting the weather on this coast has difficulties that do not present themselves in other parts of the country and despite the good humored criticisms that usually follow Mr. Pague's calculations when some free-lance influence of the elements upsets them, the merit of Mr. Pague's work is generally appreciated. Mr. Pague is an active and public spirited citizen, and in everything he undertakes he takes with him an irrepressible enthusiasm that does no difficulties too heavy to overcome.

One week from tomorrow the voters of Astoria will choose municipal officials for the ensuing year. There is little in the situation to inspire much interest, and in fact very little interest is being manifested. There has been an attempt made to create dissatisfaction in the republican ranks, and apparently there was some foundation for the effort, but the republicans affected gave it no support and the movement like the black book episode died in its infancy. Looking toward the future and beyond the mere holding of local offices, the republicans of Astoria will make the coming city election an expression of approval of republican principles.

There is a rate war on between the A. & C. R. R. Co. and the steamer lines. This is not the very latest of news, but it has been so long since any mention has been made of the war that the present condition of transportation affairs is getting to be regarded as normal. It is a peculiar struggle and bids fair to be a record breaker, if nothing else breaks. People have grown so accustomed to the present rates that there will doubtless will be a howl when the tariffs go up again. The business men of this city, though time has lulled the edge of their grievance,

will still manage to capsize up a rejoicing smile when the announcement is made that "the difference between the railroad and the boats have been adjusted."

THE ELKS' MEMORIAL. Impressive Exercises at the Lodge Room Sunday Night.

Standing room was at a premium at the memorial exercises of Quinlin Lodge No. 190, B. P. O. E., Sunday night and the excellently arranged program was splendidly rendered.

The address of Mr. J. E. Young was a happy eulogy, devoid of bathos, and in earnest felicitous terms recited the virtues and worth of the members of the lodge who have died during the year just passed. J. M. Hughes read with good effect Thanatopsis. During the reading the lights were lowered, the orchestra played a soft accompaniment and a clock bell struck eleven strokes.

The music was of the highest order and was in the hands of the best singers and players of Astoria and Portland. Mrs. J. E. Ross had charge of this part of the program and the result spoke volumes for her artistic ideas and her ability.

The octette chorus was well balanced and the anthems were sung with the inspiring effect that masterly compositions rightly interpreted always have. The ladies' quartette sang Lux Benigna in a new setting.

The solos were exquisite. Mrs. Ross' remarkable voice in Dana's plaintive, "Pie as a Bird," Miss Holson's brilliant rendition of "Ave Maria," and Heri Arston Schott's powerful and highly cultivated baritone made an excellent impression. Miss Laura Fox, pianist and the orchestra contributed an important share to the success of the impressive and pleasing memorial exercises.

Shipping and Marine. It is rumored that the governments will soon ask for tenders for the contract to get the lightship afloat.

The steamer Columbia, after taking on some freight here, left for San Francisco about noon yesterday.

The Veracruce came down from above the Toque Sunday, but the Crown of Germany was unable to get across the hub.

Yesterday the schooner Ida McKay was towed to sea, but no vessels were seen outside. It was very thick outside.

On Sunday the steam schooner Elmore and W. H. Harrison got out at last after their detention of nearly four weeks.

The Criffel reports the Hulton Hall, from Hongkong, and the Scottish Isles, from Rio Janeiro, outside. The Criffel left yesterday for Portland.

The bark Criffel was towed in Sunday with all well on board after her long passage. One of the apprentices had the misfortune to fall from the mainmast gallant yard when off Cape Horn, and strange to say, after falling over 100 feet, lives to tell the story, and except for some soreness, seems none the worse for his fall.

The ships Fulwood and Artic were assisted out Sunday by the tugs, their canvas set, but the ships Kate Thomas and Royal Forth, the latter being the largest ship that ever came down the river, sailed out under their own canvas and without assistance from the tugs. The other ships which have been at anchor so long would doubtless have also sailed out had there been pilots to take them.

THE MODERN MOTHER. Has found that her little ones are improved more by the pleasant Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other. A SURE CURE FOR COUGH. Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many households of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Charles Rogers.

No man should be allowed upon this earth to tarry; Unless he has the nerve to ask Some anxious maid to marry.
