OPENING WAS A GRAND SUCCESS

REPUBLICANS AT SEASIDE

County Campaign Opens Under Most Encouraging Auspices—Remnants Given a Hard Dose to Swallow.

The republican rally at Seaside last night, which was the opening of the county campaign, was successful beyond the expectation of the most enthusiastic partisan.

Promptly at 7 o'clock, a special train, consisting of an engine and two cars, left Astoria for Seaside. Had there been four coaches in the train they would have been filled. At it was, the two coaches were crowded almost to suffocation, even the platforms being crowded by enthusiastic republicans.

The run of the special train from this city to Seaside was without incident except that stops were made at nearly every way station, where crowds were found waiting to go and help "swell the rally." At Seaside, the visitors were met by the voters of the town, en masse, and escorted to the Logan hall. It was soon discovered, however, that the hall was by far too small, and the largest room in the place, at Grimes' hotel, was secured to accommodate the multitude.

As soon as the meeting had been finally assembled, the speakers of the evening, Hon. C. W. Fulton, Harrison Allen, republican candidate for district attorney, Prof. John C. McCue and others took the platform and gave their hearers many irrefutable reasons why the candidates of the republican party, the only recognized party in Clatsop county with candidates in the field, should be supported by the taxpayers who hoped to cut down the taxes of the county.

The party arrived in this city at midnight, full of praise for the reception received.

According to a Seattle steamboat man who is actively engaged in catering to the Nome rush trade, there have been ten thousand applicants in Seattle for transportation to the new gold fields at the mouth of the Yukon, while perhaps an equal number will sail from San Francisco, and there will be many undoubtedly who will go down the river, via Skagway. Among the latest additions to the San Francisco Nome fleet are the steamers *Carolina* and *Charles Nelson*, just arrived from Honolulu; the *South Portland*, the *Cleveland*, and the *Alaska*. Perhaps the smallest craft that will attempt the long voyage through the breaking ice left Victoria, B. C., yesterday, on her hazardous trip. This is the little steam launch *Tusler*, built at the Moran Iron Works, Seattle, for service in connection with F. M. York's Cape Nome lighterage business. She started out from the Sound on Thursday, but something went wrong with her feed pipe and she ran into Victoria to make good.

Charles Smalley was committed to the state insane asylum at Salem by County Judge Gray and a lunacy commission yesterday afternoon upon com-

plaint of Joe Falangas of Clifton. Smalley is a mere youth, although he states that he has a wife in Baker City. He declares that he came from Illinois to California in 1888 and from the Golden State drifted into Oregon. Several days ago he walked into Clifton, barefooted and disheveled, and asked for assistance. Joe Falangas supplied the youth with shoes and food but soon found that he was insane and lost no time in notifying the authorities.

Notwithstanding her repairs and new paint, the hard luck of the steamer *Ilwaco* hangs to her. The *Ilwaco* left here on Tuesday last with a new barge, worth \$3,000, in tow. Off Grays harbor the *Ilwaco* encountered a storm that compelled her to cut loose from the barge and run for a safe harbor, which she made after a hard struggle. The new barge is a derelict but will undoubtedly be picked up by some vessel unless it was driven ashore.

A river fish patrol will be established next week by Fish Commissioner Reed. Patrol boats will be placed on the river and all fishermen without a license and those with a license who have not complied with the law and painted a number on their boats will be arrested and fined. The fish commissioner says that it is due to the fishermen who have complied with the law, as well as to the law itself, that the fishermen obey the regulations.

FATAL COLORS.

It has been proven that soldiers are hit during battle according to the color of their dress, in the following order—red is the most fatal. Austrian gray is the least fatal. The proportions are red twelve, rifle green seven, brown six, Austrian blue-gray five. There is one other color, not mentioned, more fatal—and that is the pallor of weakness. If it has commenced to paint its deathly hue upon your cheek, and the stomach weakens and life seems not worth living, go to the drugist and obtain a bottle of Hostetter's Stomach Bitters. It will give you life and energy. It does this by making the stomach strong and the blood pure. It is unequalled for such disorders as indigestion, dyspepsia, or malaria, fever and ague.

IMPROVED SERVICE AND EQUIPMENT.

The new schedule of the O. R. & N., which went into effect April 22nd, shortened the time to Chicago 12 hours, and gives a double daily service between Portland and Chicago. Train No. 2, leaving Portland at 9:15 a. m. is known as the "Chicago-Portland Special." Its equipment is new throughout, making it fully the equal of any train now in service from the Pacific coast to the East. The "Overland Express" leaves Portland at 6:29 p. m. and furnishes complete service both via Huntington and Spokane to the East, together with the best of service to all local points on the O. R. & N. lines.

A NEW TRAIN.

The Chicago, Milwaukee & St. Paul Railway Co. will place in service April 25th a New Train between St. Paul and St. Louis, called the "Flying Dutchman." The train will have through sleeping cars and be first-class throughout. Ask any ticket agent for particulars or address C. J. EDDY, General Agent, Portland, Oregon.

"CHURCH INFLUENCE SPHERE"

Larger Element of Non-Church People in New York Than Any Community in the Country.

NEW YORK, May 14.—About half the population of the boroughs of Manhattan and the Bronx is outside of the "sphere of church influence," according to a chart prepared by the New York City Baptist Mission Society. The 103 Catholic churches have 542,164 members. The membership of the other denominations is as follows:

First, Episcopal, 121 churches; 65,990 members.
Second, Presbyterian, 70 churches; 27,766 members.
Third, Lutheran, 33 churches; 21,157 members.
Fourth, Methodist, 67 churches; 15,511 members.
Fifth, Baptist, 50 churches; 16,510 members.
Sixth, Miscellaneous, 37 churches; 15,155 members.
Seventh, Hebrew, 46 churches; 10,882 members.
Eighth, Congregational, 14 churches, 3,015 members.

With a membership in the 103 Catholic churches, therefore, of 542,164, a membership in all the other 439 churches of 189,000, and 260,015 persons added as being within the "sphere of influence" of these latter churches, the number of persons within the "sphere of church influence" according to these figures of 1,983,181, leaves 916,809 persons outside of church influence.

"In no other American city," says William H. Brerly, corresponding secretary of the Baptist Mission Society, "may so large a per cent of the population be classed as habitual non-churchgoers; nowhere else is so large a proportion of the children out of the Sunday school. I believe the time will come when the columns of the secular New York press will be largely used by the Christian churches to supplement their effort in trying to reach and elevate the submerged million."

SOLFILINE.

Solfiline! Solfiline! If you are sick and tired of rubbers, which protect your feet from wet or cold, and wish to save continual rolling of your shoes; if you wish to prolong the life of same at least fifty per cent. If you wish to save greasing your belts in your manufacture, go to Peterson & Brown, at Astoria, and try a case of Solfiline on your shoes and harness. Buy your shoes only of those who have that scientific remedy. Take no other.

Cuticura SOAP

For the Complexion

To purify and beautify the skin and prevent pimples, blotches, black heads, redness, roughness, yellow, dry, mothy skin, chapping, tan, sunburn, and many other forms of skin blemishes. Cuticura soap is for a moment to be compared with Cuticura Soap, because no other soap reaches the cause, viz., the clogged, irritated, or inflamed condition of the pores.

For Red Rough Hands

Soak the hands, on retiring, in strong, hot water of Cuticura Soap. Thoroughly dry, and anoint freely with Cuticura Ointment, the great skin cure and preserver of emollients. Wear during the night old, loose kid gloves. For red, rough, chapped hands, dry, fissured, itching, and feverish palms, shapeless nails with painful finger cracks, this one night treatment is simply wonderful.

For Hair and Scalp

SHAMPOO with CUTICURA SOAP, rinse with warm water, dry and apply a light dressing of Cuticura, purest of emollients, gently rubbed into the scalp. This simple, refreshing, and inexpensive treatment will soothe irritated and itching surfaces, stimulate the hair follicles, clear the scalp and hair of crusts, scales, and dandruff, supply the roots with energy and nourishment, and make the hair grow, when all else fails.

For Sanative Uses

Its remarkable emollient, cleansing, purifying properties, derived from CUTICURA, the great skin cure, warrant the use of CUTICURA SOAP, in the form of baths for annoying irritations, inflammations, and chafings, for too free or offensive perspiration, and also in the form of internal washes and solutions for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially to mothers. The use of CUTICURA Ointment with CUTICURA SOAP will also be of advantage in the severest cases.

Complete External and Internal Treatment of Every Humor. CUTICURA Consists of CUTICURA SOAP (1 lb. box), CUTICURA Ointment (1/2 lb. jar), CUTICURA Tablets (1/2 lb. box), CUTICURA Syrup (1/2 lb. bottle), CUTICURA Lotion (1/2 lb. bottle), CUTICURA Cream (1/2
