Water Commission Decides Against the People.

Matter Brought to a Head by a Resolution-Van Dusen and Elmore True to the Principle of Justice and Economy.

The water commission met last even-8 o'clock to receive the report of the ing to consider the feasibility of taking electric lighting scheme as he did of special committee appointed at the steps toward putting in an electric light plant for Astoria. After the ordinary routine business a communication from Mr. Schernsckau, chairman of the

city council, was read, in which he referred the commission to sundry ling in the water system, he said, instatistics and reports on the subject of municipal lighting systems printed in 25 per cent, saving the taxpayers not copies of "City Government," handed jess than \$25,900 per annum. He be in with his communitation. The pa- lieved that the commission was estabpers were examined by the members lished to serve the people and that of the commission, some of whom found them, to their minds, favorable municipality, so as to save them monto municipal ownership, others to the ey in this business. The commission contrary.

Communications from various electrical engineers, desiring to submit bids taxpayers to the consumers. If the Works" was a masterly effort. Mr. and specifications for a lighting plant city is ever going into this business, were also read and put on file.

Judge Bowlby stated that he had the presentwritten personally to several citles having municipal plants, and had as new sentiment could be found on each yet heard from only one in reply-Alemeda, California, and the returns from it were incomplete and unsatisfactory. He stated that he and Mr. Weich had figured that a plant of to put in the water works.

100 arc lamps and 1.600 incandescent the convention which will elect a God- lights would cost the city \$30,00 at the outset. The annual expense would amount to \$12,339 distributed as folnounced in many rooms, and slates lows: Interest at 6 per cent and depreciation at 8 per cent, \$4,200; salarles, etc., \$3,750; fuel, \$4,380.

Samuel Elmore introduced and moved the adoption of the following resolution:

Whereas, the City of Astoria, for reasons not within the province of this be shut off at any time and the powconvenience of street lights;

And, Whereas, the City Council has appealed to this commission for the utilization of the unused power at the Misses Glenn and Wayne, who have lowing gentlemen appointed for the public water works in the generation Shore Mills Company could not enter been visiting friends here, have re- purpose of selecting a committee to of electricity for street light purposes; into competition with the commis-Mrs. J. numission compelled to put in the wa ter system but in its wisdom has thought proper to do so. He insisted **IS IGNORED** that the commission do something o give up the electric lighting business for good and quit child's play. He suggested that the commission might allow the resolution to fail and the West Shore Mills Company to raise their charge to \$16,00 per light. He would not blame Mr. Trullinger for trying to get all he could out of it A long as he had the monopoly. The bluff on him had been worked long enough, he said, and it is useless to try to keep his rate down by threat ening to put in a plant, when the ommission does not mean business Mr. Van Dusen made a manly and straight-forward plea for the adoption of the resolutions. He thought of the the water plant when it was put in He saw money being drained from the people of Astoria for insurance because of lack of proper water sup ply. He believed then that the leaks ways and means committee of the of the town ought to be slopped now just as he believed it then. Since putsurance rates had been lowered 20 to the people could be best served by the could certainly run the lighting sys-

tem so as to give a reduction to the there will never be a better time than

Mr. Elmore stated that little town? in the Valley were paying 25 and 30 cents each for lights, and he could not see why we should pay \$1.25. We are, he declared, just as much bound to put in the electric plant as we wer

Judge Bowlby stated that the commission was not originally appointed to put in an electric lighting plant, but that this power had only been con ferred later. The commission would not have exclusive power. It must depend upon the council to pay for the street lights and might have trouble with that body. To this Mr. Elmore replied that the street lights could

to private parties instead. These would be operate dby the water power held sion on account of their expense for
