It is Incontrovertible!
The Editor of the "Christian Million," under the heading of General Notes, on August 20, 1897, wrote:
"A good article will stand upon its own merits, and we may rely upon it that nothing will continue long which does not, in a more or less degree, harmonize with the statements which are published concerning it."
Mr. Hall Caine,
Author of "The Deemster," "The Manxman," "The Christian," etc., when speaking on "Criticism," recently said:
"Whenever a thing that is advertised greatly is good it goes and goes permanently; when it is bad, it only goes for a while; the public finds it out."
The Proprietor of
BEECHAM'S PILLS
has said over and over again:
"it is a fallacy to imagine that anything will not just because it is advertised. How many nostrums have been started with glare and amplified out in gloom? The fact is, a man is not easily gulled a second time, and every dissatisfied purchaser does ten times more harm than one satisfied does good. Assuredly the sale of more than 6,000,000 boxes of BEECHAM'S PILLS per annum, after a public trial of half-a-century, is conclusive testimony of their popularity, superiority and proverbial worth."
Beecham's Pills have for many years been the popular family medicine wherever the English language is spoken, and they are sold without a trial. In bottles, 25 cents and 50 cents each, at all drug stores.

Arrangements are being made for a great bicycle parade on the Fourth of July. The committee has issued a call for a meeting of all wheelmen to meet at the office of the general committee at 7:30 p. m. on Monday next, and it is hoped that all those interested in that parade will attend.

Only one deed was recorded in the county court house yesterday; that of George H. Hise and wife to James H. Hise and wife, for the period of their natural lives—granting 80 acres of land described as follows: The north half of the southeast quarter of section 21, township 6 north, range 6 west. The amount paid therefor was \$200.

What might have resulted in a serious conflict was averted narrowly yesterday morning when representatives of the Fishermen's Union put a stop to the driving of piles for fish traps in Blind channel, near Knappa. The contractors very sensibly stopped work when they saw that the fishermen meant business, and the matter is now in abeyance.

Through the courtesy of J. H. Lotherop, general agent of the Union Pacific R. R. at Portland, we have received a copy of their eighth annual booklet, "Outdoor Sports and Pastimes," a veritable encyclopedia of all field sports, containing full and latest rules for general athletics—baseball, bicycle racing, cricket, croquet, curling, football, golf, hockey, lacrosse, lawn tennis, polo, quoits and racquets. It can be had free upon application at the company's office, 135 Third street, Portland, or will be sent upon receipt of a two-cent stamp.

The Vancouver baseball team will arrive in the city on the noon train today and meet the Astoria team at A. F. C. Park, this afternoon. The local team was out yesterday for practice and played fast ball. The visitors realize that they are going against a very strong team and, though they expect to win, they know they have to play good ball to do so. On the other hand, Captain Fletcher is equally confident of success, and will be disappointed if Vancouver's scap does not dangle from his belt. Today's game will be called promptly at 2:30 o'clock, rain or shine, and enthusiasts should be present at that hour. A number of Vancouverites will accompany the visiting team.

A telegram from Hoquiam says: "While the tug Samson, having in tow a barge loaded with stone for the Grays harbor jetty, was crossing the bar Tuesday, the wire hawser became entangled in the propelling wheel, disabling the tug. Both tug and barge dropped anchor. The tow line was finally cut, and the tug was towed in this morning by the tug Traveler. After the wheel was freed the tug Samson attempted to take a lifeboat from the life saving station to the barge with the hope of bringing the men off the barge, but owing to rough weather the lifeboat was lost. The men are in no immediate danger, as the barge is in good anchorage and will be brought into the harbor as soon as the sea moderates."

The captain of the Samson, when interviewed by an Astorian representative last evening, stated that there was nothing in the above report. "The man who wrote that item," said he, "is a fool."

There was a warm time in the city auditor's office yesterday afternoon from 2 to 3 o'clock. At the former hour the committee on streets met to consider bids for the improvement of Thirty-eighth street. As the committee was gathering a few prospective bidders also stepped into the office. At one and a half minutes before 2 o'clock, W. A. Goodin placed a bid upon the auditor's desk. C. W. Fulton, representing S. Normie, then deposited another there. Seeing this Mr. Goodin picked up his bid and produced another, and presumably lower one, in its stead. It then lacked a half minute of the hour. The committee, thinking this a rather unfair action upon the part of Mr. Goodin, refused to consider either of his bids and returned them unopened. Three bids remained—that of S. Normie, \$2,511.65; N. Clinton, \$2,839.90; J. Wirt, \$2,983.80. The contract was awarded to Mr. Normie. Mr. Goodin, through his attorney, Harmon Allen, declared that both of his bids were lower than that of Mr. Normie, and that the ordinance compelled the committee to accept the lowest bid, and threatened to bring injunction proceedings to prevent the city from employing Mr. Goodin.

Don't doubt the veteran who tells you he was always where the bullets were thickest; perhaps he was hiding under the ammunition wagon.

COMING FROM THE DALLES.

Large Excursion Party Will Arrive in Astoria for the Fourth.

Yesterday the Fourth of July committee received some sample posters and circulars from the Young Men's Christian Association of The Dalles, setting forth in glowing terms the attractions which their Fourth of July excursion to Astoria offers. The circular includes an attractive description of Columbia river scenery and an account of the many features of interest which will be provided. It is expected that a band from The Dalles will accompany this excursion. The following is an extract from their descriptive circular:
"The steamers of the D. P. & A. N. Co. will leave the Regulator wharf at 7 a. m. on the morning of the 3d of July, 1900, arriving at Portland at 3 in the afternoon, giving four hours time in Portland. The excursionists will leave Portland at 6:55 p. m. on the Astoria & Columbia River R. R., on the evening of the 3d, arriving in Astoria at 10:30 the same night, where we shall be met by a special committee of Astorians appointed to make special arrangements for the convenience of the Y. M. C. A. excursionists."
A communication has also been received from the Lewis and Clark, stating that four girls from there are preparing to compete in the girls' boat race. Dan Welch has been appointed chairman of the committee in charge of this race. In accordance with the suggestion of Lieutenant Cloke, Governor Geer and Captain Mead, of the Philadelphia, will be invited to review the parade.

FISHERMEN'S LOSSES.

Rot and Decay of Boats and Nets Impairs Profits.

Avenarius Carbolinum treatment prevents this and saves hard earned, much needed dollars.
"The loss from rot and decay of boats and tackle cuts a mighty big hole in our hard earned profits every year," said an intelligent fisherman to a representative of the Astorian while discussing the advantages and disadvantages of his calling, and the truthfulness of his statement is vouched for by every fisherman and canner on the river.
Salt water and the swarms of ocean vermin, such as barnacles and teredo, are no respecters of wood or cordage and the destruction wrought by them means the price of many chinooks and steel heads, which otherwise would be placed on the profit side of the ledger.
For years our fishermen have borne their burden uncomplainingly. They should do so no longer. A remedy for their ills has been found in the celebrated wood and cordage preservative, Avenarius Carbolinum, as is proved by testimonials from the leading fishing grounds of Europe and the Atlantic coast states. Water cannot penetrate articles treated with this preparation and, the cause being removed, rot and decay of ship bottoms and gill-nets is effectually stopped.
Avenarius Carbolinum impregnates wood with a continuing effect, so to speak, and ship bottoms thoroughly coated are impregnable for years against the assaults of marine enemies. The compound penetrates to the ship's vitals thus rendering it far superior to copper paint, a mere surface coating easily rubbed off and at best a weak protector. Nets and sails require occasional treatment each season by the simple process of dipping. Thus treated, they remain soft and pliable retaining their usefulness for years instead of being prematurely relegated to the "gill-net graveyard," as an Eastern fisherman aptly termed the outlying Astoria docks last winter when inspecting the wreckage. If a word to the wise is sufficient, our fishermen will profit by the experience of other sections and by using a few gallons of Avenarius Carbolinum, save a big leakage in their pocket-books.

Editor's Note.—It has been ascertained in the interest of fishermen desirous of trying Avenarius Carbolinum that this preparation can be bought in Astoria at Fisher Bros., Foard & Stokes and H. F. Allen and Son.

FOR COMPLETE ENUMERATION.

Those Not on the Roll May Leave Names at Astorian Office.

Considerable criticism has been emanating from irresponsible sources concerning alleged carelessness on the part of the census enumerators of this city, the charge being made that many persons have been overlooked. These statements are untrue for no better force of enumerators could be employed than those who have been serving in this city and county. The absurdity of the charge is made manifest when it is understood that each enumerator is paid according to the number of names secured by him. Besides, it should be and is the natural ambition of all those engaged in the service to make the showing of population for Astoria as large as possible.

PARIS FAIR.

The American exhibit at the Paris exposition will be an open volume, whose lessons of skillful directed endeavor and unflinching energy may be read by all. Our government building is completed, and no effort has been spared to make it worthy to represent our nation. It was by the same American perseverance that Hostetter's Stomach Bitters, the famous dyspepsia cure, was first produced. Since that time—fifty years ago—it has never failed to cure constipation, indigestion, biliousness, liver and kidney troubles, and it will make rich red blood. It is an excellent tonic, and is a regulator for the bowels that cannot be equalled. All druggists sell it. Do not be talked into taking "something just as good." There is nothing to equal it.

PERSONALLY CONDUCTED WEEKLY EXCURSIONS.

An experienced excursion conductor whose duties are to look after the wants and welfare of passengers will be in charge of Tourist sleeping car to Chicago via Union Pacific. This car leaves Portland on "The Portland-Chicago Special" at 9:15 a. m., making close connections at Chicago with similar service to Boston and New York. Elderly people and ladies traveling alone or with children will find this service very convenient and satisfactory.
For tickets, berth reservations and full information, call on
G. W. LOUNSBERRY,
General Agent, O. R. & N. Co.
Or
