EXPORT OF WAR MUNITIONS.

NEW YORK, July 28 .- A special to the Tribune from Washington says: In view of the circular of the secretary of the treasury to customs officers tribute the sum of \$2,000 for the pur on the Pacific coast in regard to the ex- pose of reimbursing the Chinese minisportation of arres and munitions of war | ter at Washington for the expense and to Asiatic countries, the following of- trouble entailed in negotiating with the ficial statement obtained from the treasury bureau of statistics today will of an order of the treasury department be of general interest.

arms, gun powder and cartridges and the exclusion act, when, as a matter explosives from the United States to of fact, that official had nothing what-China, Hong Kong and Japan, the six ever to do with the matter, it being menths ending December 31, 1899:

Fire arms-To China, \$8,400, Hong Kong, \$27,978, and to Japan, \$21,376. Cartridges and explosives-To Hong Kong, \$4,696, and to Japan, \$23,538,

No gunpowder has been exported from the United States to China, Hong Kong or Japan since 1897. China took nearly twice as many fire arms from the United States in the last six months of 1899 as she did in the preceding fiscal year and about four times as many as she did in 1896 or 1898. Hong Kong took nearly as many in the last six months of 1899 as it did in the twelve month sended June 30, 1899, and nearly three times as many as it did in 1897.

It is strongly suspected that a good many of the firearms exported to Hong Kong found their way into the hands of the Filipino insurgents. The total export of fire arms and munitions of war to Asiatic countries from the United States cut a small figure as compared with similar exports from Europe to the same countries. For example, in the last annual report of Consul Ragsdale, of Tien Tsin, dated October 11, 1899, the following statement is

" Within the last three months German firms have sold to the Chinese government some 290,000 stands of fire arms, with accompanying munitions of war. The prices paid and patterns furnished have not been made public, followed by the Meade next Wednesbut it is reported that theeguns are very inferior in quality. SUMMER RESORTS.

"To the mountains our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human mathine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but nual outing should provide not only radical change of air and surround-ings, but also such stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air.
