HONG KONG STUBBORN.

Refuses to Stop Sale of Arms to Boxers and Filipinos.

NEW YORK, Aug. 10.—A dispatch from London to the Journal and Advertiser says: All efforts on the part of British and foreign governments to stop the supply of war material to the Chinese are destined to prove of no avail as long as the chamber of commerce council of Hong Kong maintain their selfish resistance to the execution of the restrictive measures decreed by the powers prohibiting the export of war material to China.

An immense trade is done at Hong Kong in the sale of both arms and ammunition to both the Chinese and Filipino insurgents. Indeed the latter as well as the Chinese draw all their supplies of this kind from Hong Kong, where the merchants are trying to resist any interference with their business.

Hong Kong has no custom house and has, therefore, no means of checking the imports or exports if the shippers do not choose to make purely voluntary declaration at the harbor office. The chamber of commerce and the legislative council of Hong Kong are resolved to fight the government tooth and nail in the matter, declaring that it will constitute a blow at the traditional "freedom of the Port of Hong Kong" and have engaged Queen's Counsel Francis, the chief of the colonial bar, to champion their views in the matter.

CANADIANS DISGUSTED.

Have Had Enough of British Military Service and Will Hereafter Mind Their Own Business.

LONDON, Aug. 10.—Various complaints are published in morning papers from the Canadians invalided in South Africa, regarding the lack of arrangements for their comfort and the delay in sending them home. The Morning Leader says: "The Canadian invalids who sailed from Liverpool for Montreal, yesterday, by the Allen liner Parisian, expressed their disappointment at the neglect of the military authorities in Liverpool. They say having experienced the life of the British soldier under British officers, they have resolved to stay at home and mind their own business in the future. Moreover, they promised to lay the facts before the Canadian ministers on board the Parisian."

RAILROAD WILL BE BUILT.

Two and a Quarter Millions to be Spent on a Line to Klamath Falls.

ASHLAND, Ore., Aug. 10.—In a series of conferences just concluded here between the officers of the corporation known as the Oregon Railroad Company and the Midland Construction Company of Chicago, a decision was reached to begin the construction of the road at an early date.

Leaving the Oregon and California Southern Pacific line just north of the Klamath river, it traverses a heavy timbered belt north of that stream and by a fairly direct route reaches Klamath Falls, in the Oregon Lake region, at a distance of 83 miles.

The engineers say that the cost of constructing the road is \$2,250,000. It is bonded at \$3,000,000.

MILITARY PRISON FULL.

Desperate Characters Will be Released From Alcatraz Five at a Time.

SAN FRANCISCO, Aug. 10.—The military prison on Alcatraz island has been overcrowded for some time past and the constant arrival of soldiers with long sentences to serve has caused the issuance of an order directing the commandant to release five per cent of the prisoners who have served any great portion of their sentences. This is in addition to those recommended by the board of clemency some days ago.

The commandant at Alcatraz has decided to release five men each day in order to prevent the discharge on this city of so many men, many of whom are desperate characters. Major Oliver Edward has assumed the duties of chief commissary of the department of California.

MONEY A DRUG ON THE MARKET.

Danger in the Fact That Banks Accept Most Anything as Collateral.

NEW YORK, Aug. 10.—The Herald prints the following: "Russell Sage is not satisfied by any means with the present easy money rates. 'There is danger of very heavy losses under the present condition,' he said, 'because of the kind of collateral banks are now accepting. The banks are compelled to accept it in order to loan

WHO ARE MOST FAMOUS?

Committee Has a Difficult Task in Selecting One Hundred Names.

NEW YORK, Aug. 10.—The names of distinguished men or women whose admiring are anxious to secure a niche for them in the Pantheon, or Hall of Fame, are still coming, and the list now includes over 3,000 names. The senate of the New York University, to whom the names are sent from all over the country, has just submitted to each of the judges a list of 234 names. Others are accumulating for disposition later.

The work of the judges is no sinecure, for they are expected to select just 100 who shall occupy the places of honor. Of the thousands of names sent in during the past few months 100 were culled by the senate as a whole, and a second 100 names were submitted by the individuals of note and seconded by members of the senate. Each of the other 34 names was submitted by one or more of the judges, they having been invited to contribute their choice.

John S. Billings, one of the resident judges, said in an interview: "Not much is expected to be done in that direction until about the middle of September when the work of the judges and all those directly interested in this great undertaking will be pushed with vigor. I have not even looked at the revised list of names as yet, and am not yet prepared to make any comment."

The final vote is expected to be submitted by the committee of judges by October 1, so that the month of September must necessarily be a busy one for those chosen to make the initial selection. It is not yet settled whether there shall be a meeting of all the judges, who represent every section of the country, but it is generally believed that such a meeting will be held just before the final vote is taken.

NO NEUTRAL TERRITORY.

Chinese Consuls Must Get Off the Earth in Case of a Declaration of War.

NEW YORK, Aug. 10.—Chinese Consul Tehow Tse Chi and his staff are still holding forth at the consulate in this city, but the consular advisers here do not believe they are not expected now. Mr. Tehow says in an interview: "We want to stay and do our duty, but in case of war diplomatic and consular officials leave their offices to go to a neutral country to return home. There is no neutral country to which we can go, for the whole world is against China. I cannot return to Peking and will not."

"There are 25,000 Chinese in my general charge. What is going to become of the consular business, the volume of which is great? There is no other government's consulate to which to transfer it. Then since it is apparent that I should stay here and maintain my staff and offices, and since that is very costly, how am I to do it without a government? I can neither stay nor go away. There is the satisfaction, however, of knowing that my colleagues at Chicago, San Francisco and Vancouver are in the same predicament. Minister Wu Ting Fang is in no position to offer me aid, for he may soon be in as bad a state as I am."

DUKE GETS AMERICAN GIRL.

Duke of Manchester Will Marry Miss Helena Zimmerman.

NEW YORK, Aug. 10.—A special to the Herald from Newport, R. I., says: Mrs. Antonia Yzenaga, grandmother of the Duke of Manchester, has written to his friends in Newport that the duke is engaged to be married to Miss Helena Zimmerman, a wealthy young woman of Cincinnati, O. No information is given as to when the wedding will take place.

This announcement follows a report that was circulated several weeks ago. At the time Miss Zimmerman was staying at Narragansett Pier, and after her engagement to the duke had been printed in several papers, she authorized a positive denial in the Herald of the whole story. It was the fact of this denial that gave the news contained in Mrs. Yzenaga's letter an especial interest here.

NEW YORK, Aug. 10.—A dispatch to the Herald from Che Foo says: It is reported that the Russians have destroyed the native city of New Chwang.

NEW YORK, Aug. 10.—A dispatch to the Herald from Che Foo, Tuesday, via Shanghai, Thursday, says: Intelligence of an authentic character has been received that the legations at Pekin were quiet a week ago.

NEW YORK, Aug. 10.—A dispatch to the Herald from Hong Kong says: Three thousand Indian troops are leaving Hong Kong to reinforce Vice Admiral Seymour at Shanghai for the defense of the Yangtze region.

It is reported here that 3000 black flags have already left Canton going northward and that more are following.

NEW YORK, Aug. 10.—A dispatch to the Herald from London says: The nomination of Count Von Walderssee to the command of the expeditionary forces in China has been favorably received here, and though it is scarcely correct to say that the official consent of the allied governments has been obtained to the appointment on Wednesday, there is no doubt that it will be cordially accepted by the British cabinet. The subject was no doubt discussed at a special meeting of the defense committee of the cabinet held yesterday afternoon under the presidency of Lord Salisbury.

Wolsley met in London admit that since Lord Roberts and Lord Wolsley are out of the question, no more distinguished soldier could be found for the command in the far East than Count Von Walderssee. In addition to his personal distinction, the count possesses the necessary qualifications for holding the grade of field marshal so that he will be superior in rank to any of the officers commanding the various national contingents.

It has been suggested that the German emperor should force the hands of some of the other powers who threatened to establish over the generalissimo question, by suddenly informing them that he intended to send out a Prussian field marshal to assume direction of the general detachment. As this officer

would necessarily take precedence of every general in the field, it was an easy transaction to place him nominally at the head of the entire allied force, but the precise authority which Count Von Walderssee is to wield is still the subject of discussion. It will be difficult, if not impossible, to give him precisely the status of a commander-in-chief of a national army. He will be rather the president of a council of generals than an autocratic leader, subject to no control except that of his political superiors at home.

It is a situation requiring immense tact and temper, but there is general confidence that the count will prove equal to the emergency. He has little trouble in coming to an understanding with both the English and American officers. Though German, he esteems and appreciates the two Anglo-Saxon peoples. His marriage to a talented American woman and his former close acquaintance with the Emperor Frederick long ago placed him in touch with some of the most influential personages in London and New York. At one time, indeed, he was a little too strongly in sympathy with what was known as the English faction at the Berlin court to please the Kaiser, but for some years he has been on confidential terms with his imperial master, who has the highest opinion of

Millions of People Use Cuticura Soap Exclusively for preserving, purifying, and beautifying the skin, for clearing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands.

Millions of Women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations, and chafings, too free or offensive perspiration, in the form of washes for ulcerative weaknesses, for many sanative antiseptic purposes which readily suggest themselves to women, especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of perspiration can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. This is combined in ONE SOAP at ONE PRICE, viz., Twenty-Four CENTS, the best skin and complexion soap and the best toilet and baby soap in the world.

Special attention is called to the use of CUTICURA Ointment in connection with CUTICURA SOAP, its "One Night Treatment of the Hands," or "Single Treatment of the Hair," or use after Athletics, cycling, golf, tennis, riding, sparring or any sport, each in connection with the use of CUTICURA SOAP, is sufficient evidence of this.

his strategical ability. The appointment, however, has not relieved the gloom which hangs over political circles in England. It is felt that it does not portend a brief and easy campaign in China. The publication of the allies' losses at Peking tells in the same way. There is an increasing apprehension that large reinforcements will still be required for the far East. This is peculiarly annoying to the British war office, which has its hands full in South Africa.
