For President
WILLIAM M'KINLEY,
Of Ohio.

For Vice-President
THEODORE ROOSEVELT,
Of New York.

If the proposition of the Pioneer Woolen Mills, of Dallas, found in another column, be bona fide and if their plant be as represented, which we see no reason to doubt, it is one to which Astoria should give every possible encouragement. The establishment of just such industries as this which Mr. Carter represents is what develops and gives stability to a community. Whether the subsidy he asks be too much or not is a question that the committee appointed by President Van Dusen at the meeting of the Chamber of Commerce last night are well qualified to decide, and the matter can safely be left to them for favorable or adverse criticism.

THE SALMON SITUATION.

The Trade Register, of Seattle, in its last number makes some interesting comments on the salmon situation both at Puget Sound and the Columbia River, as well as in Alaska.

Speaking of the price paid for raw fish, it quotes silversides at seven cents apiece, which is the standard price fixed at Puget Sound and along the Washington coast for the coming fall season.

Apparently all Puget Sound canneries, says the Register, have had a remarkably good run of sockeyes since last report, particularly the Pacific American and the Alaska Packers, who have been able more than others to take advantage of the peculiarity of the run. The salmon this season are said to run in schools, and not in a body, as usual, and are very wild, keeping largely in deep water, and when touching shore getting into deep water again quickly. Early this week they were reported to have touched principally at Cherry Point and Birch Point, and near Point Roberts. They were expected to make a grand dash for the Fraser river towards the end of this week, when a good catch could, of course, be made by all packers.

At date of going to press 150,000 cases to 170,000 cases have doubtless been packed on Puget Sound. In this figure, however, much allowance must be made for halves, 4-dozen cases of which have been figured as full statistical cases, whereas a full statistical case of halves contains eight dozen, and estimates of past packs have been figured on this latter basis. None of the packers look for more than half last year's pack, but estimates have been put higher since last report. To August 12 of last year 450,000 cases of sockeyes were packed, and in the Trade Register's report of August 25, 1899, the season was announced as practically over.

Fraser river reports repeat that salmon are wild, in schools, and courting deep water. One report puts the pack there to August 4 after over thirty days of fishing at 30,000 cases, forty-five canneries being in operation. The season closes by law August 25, and there is a 48-hour close-time each week, from Friday midnight to Sunday midnight following. Some packers say they may get 250,000 cases or they may get 500,000 cases. One packer says at best 250,000 cases only can be packed against 510,000 cases last year. At August 8 last year 150,000 cases of sockeyes had been packed, or 75,000 cases short of the 1898 pack at that date. The pack there this season is mostly halves and ovals. Packers are holding firm on the market.

S. S. McFarron is reported stating that the difference between the fishermen's union on the Fraser river and the Japanese and other independents is causing considerable loss of fish, and fully $30,000 worth of web has been maliciously destroyed. He says the pack might have been up to last year but cannot now reach over 35 or 40 per cent of it.

A good run is reported on the Skeena, and may slightly exceed last year's pack of 108,000 cases. The Rivers inlet run is only fair, and will not quite reach, according to Trade Register advices, last year's pack of 71,000 cases. All southeastern Alaska will have a comparatively good pack. The red fish run as a rule in this district from July 5 to about August 5, and exact figures should be down soon. About 200,000 cases heavier than last year is expected to be the entire Alaska pack if the southwestern district holds up to the southeastern.

J. K. Armsby is reported to have been at San Francisco this week conferring with the Alaska Packers' Association, and it is said immediately on his return to Chicago prices on the new pack of Alaska salmon will be named, August 13 being the date of the expected announcement.

Pickled Alaska salmon is being quoted by brokers to jobbers in this market at $8.50@$9.

WHAT DOES MELLEN INTEND?

In connection with President Mellen's letter in Saturday's Oregonian, reprinted in Sunday's Astorian, the message of the railroad magnate to the citizens of Tacoma deserves serious consideration. He is quoted as follows:

"The wheat warehouses to be completed here within the next thirty days are a class of facilities long demanded in this section, but which we have been heretofore unable to furnish on account of more pressing demands in other directions. We have met the situation in no small way, as I believe every citizen of Tacoma will admit, and have provided facilities which I think are greater than any of the same character in any other city in this country, if not in the world. They will secure to this port a business heretofore handled under many disadvantages, and, while we shall not in any way discriminate in rates between this and other places of export reached by our line, we feel the facilities offered here will prove so attractive that much business will seek an outlet here as a result, that has heretofore gone elsewhere.

"The facilities offered here are bound to greatly increase the importance of Tacoma, and, as a result, we have been approached by responsible parties looking to the establishment of large flouring mills here, they being attracted by the prospective advantages of Tacoma's becoming the most promising wheat market on the coast.

"The investments of the company in the city of Tacoma have been greater during the year 1900 than have ever been made in any one year by any railroad in any city on the Pacific coast, and we have yet under consideration the erection of new coal bunkers involving further large expenditures, our coal business at this point having increased to an unprecedented extent and being far in excess of our present facilities.

"If there ever was a time when the company could have seriously considered a division of its export business from this port, the expenditures of the past year have relegated such a contingency far back into the past, and it can no longer be among the debatable questions to bother either the management of the company, or anyone interested in the future of Tacoma."

The idea which Traffic Manager B. Campbell, of the O. R. & N. Co., has of the situation is also of special interest to Astorians. Mr. Campbell says:

"The statement that the O. R. & N. Co. charges the Northern Pacific $1.50 per ton for switching its grain from the west to the east side of the river at Portland is incorrect. The O. R. & N. Co. has never collected such a charge, while, on the other hand, it has handled many cars of wheat from the Northern Pacific to warehouses at Albina for $5 per car, which is the same as the Northern Pacific charges the O. R. & N. Co. for switching freight at Spokane.

"The O. R. & N. would prefer to handle the business across the river at Portland at $5 per car rather than haul it down from Walla Walla at a rate allowed it by the Northern Pacific, and will switch all that the Northern Pacific has to offer at that rate.

"The O. R. & N. Co. has never interested itself in the question as to what motive the Northern Pacific has for cancelling the Wallula rate. Since it is charged with having agitated the matter for the purpose of injuring the Northern Pacific, it now states its belief that the rate was cancelled for the purpose of concentrating the business at Tacoma, where the Northern Pacific has built large warehouses and owns extensive terminal facilities."

To this President Mellen replies:

"It is true that the O. R. & N. never collected of the Northern Pacific $1.50 a ton for switching grain from Portland to Albina, because after the O. R. & N. established that rate the Northern Pacific found it could have this work done by drays for less money."

It is Incontrovertible!

The Editor of the "Christian Million," under the heading of General Notes, on August 20, 1896, wrote:—

"A good article will stand upon its own merits, and we may rely upon it that nothing will continue long which does not, in a more or less degree, harmonize with the statements which are published concerning it."

Mr. Hall Caine,

Author of "The Deemster," "The Manxman," "The Christian," etc., when speaking on "Criticism," recently, said:—

"When a thing that is advertised greatly is good it goes and goes permanently; when it is bad, it only goes for a while: the public finds it out."

The Proprietor of

BEECHAM'S PILLS

has said over and over again:—

"It is a fallacy to imagine that anything will sell just because it is advertised. How many nostrums have been started with glare and exited out in gloom? The fact is, a man is not easily gulled a second time; and every dissatisfied purchaser does ten times more harm than one satisfied does good. Assuredly the sale of more than 6,000,000 boxes of BEECHAM'S PILLS per annum, after a public trial of half-a-century, is conclusive testimony of their popularity, superiority and proverbial worth."

Beecham's Pills have for many years been the popular family medicine wherever the English language is spoken, and they now stand without a rival. In boxes, 25 cents and 50 cents each, at all drug stores.

Wisdom's Roberline Corrects all blemishes of the face, removes blotches, pimples, tan, sunburn, freckles and makes a beautiful complexion. It is also the best tooth wash, and excellent for deranged stomach.
