

CHARLES M. HAYS
NEW PRESIDENT

Manager of Grand Trunk Chosen
by Southern Pacific.

VANDERBILT IN CONTROL

Remored That He Has Secured Larger Portion
of Stock—If True It Is Most Important Deal for Twenty Years.

NEW YORK, Oct. 26.—The Evening Post says that the selection of Charles M. Hays, general manager of the Grand Trunk Railroad, as president of the Southern Pacific, was confirmed today by the highest Southern Pacific authority. His appointment will be acted upon by the board next week. He is already unanimously agreed to, however, and the directors consider that they have been fortunate in securing the best possible railroad man for the presidency.

Mr. Hays will reside in San Francisco and will have complete charge of the operations of the railroad, with Mr. C. H. Tweed, as chairman, in New York. It was stated today by a director there would be no friction in the management over Mr. Hays' appointment, and that he will have the cordial support of the whole board in his plans for the development of the Southern Pacific. It is believed more modern methods of railroad management will largely increase its earning ability.

REPORT CONFIRMED.

NEW YORK, Oct. 26.—Charles A. Tweed, of the Southern Pacific railroad, this afternoon confirmed the report that Charles M. Hays had been selected for the presidency of the company. He said that Mr. Hays would assume the new office about January 1, and that he would have headquarters in San Francisco. Mr. Tweed added the officers of the Southern Pacific would probably retain their present positions.

CONTROL NOT CHANGED.

NEW YORK, Oct. 26.—In an interview today relative to the current report that the Vanderbilts had obtained control of the Southern Pacific railroad. Chas. H. Tweed, an official of the company, said: "Vanderbilt may have bought stock in the open market but so far as I know the control of the road has not changed."

ANNOYING QUESTIONS SETTLED.

NEW YORK, Oct. 26.—The Times says: Within the past week Wall street has become excited over the discovery that control of Mr. Huntington's Pacific Mail property had passed to E. H. Harriman and his associates, including Jas. J. Hill and W. K. Vanderbilt. Explanations given much currency have aimed to represent that only Mr. Harriman had become controller, that Mr. Hill's interest and Mr. Vanderbilt's interest were relatively insignificant.

However this may be, it is certain that in the new Southern Pacific deal (whereby Vanderbilt interests will control) the corporation of the Pacific Mail Steamship Company can be of vast interest. Aside from the Vanderbilt ambition to establish and maintain a transportation line from the Atlantic coast to San Francisco and thence to the Far East (made practicable by the New York Central, Northwestern, Union Pacific and Pacific Mail), the taking over of the Southern Pacific is an accomplishment greater than any other coalition hitherto forecasted.

It is believed by practical railway managers that with the Southern Pacific railway system under a direct Vanderbilt control there will be at once a complete disposition of most of those elements which hitherto have been interfering with far Western and Southwestern traffic rates.

"Vanderbilt control of the Southern Pacific," declared one in authority yesterday, "will produce actual revolution in Southwestern railroad business. We will have fair dealings. Secret rate cutting will stop. Instead of deception, secret cuts, disturbances, losses and reprisals, we can have profits. In American railway financing nothing has been of so much consequence as the possibility that William K. Vanderbilt takes over the Southern Pacific and puts it upon a level with the Union Pacific, Chicago & Northwestern and New York Central. Acquiring control of the great Southern Pacific system (approximately 5000 miles) is an accomplishment which makes relatively insignificant the recent taking over by the New York Central of the Boston & Albany property.

ANNEXATION FAVORED.

Planters of the Danish West Indies Wish to Become Americans.

NEW YORK, Oct. 26.—The cable dispatch from St. Thomas, D. W. I., stating that much adverse feeling has been caused there by the revival of the report that Denmark intended to sell her islands to the United States, caused much surprise among the Danes and Americans who claim to be posted on public opinion there.

According to the dispatch, a meeting of the council has been convoked at

St. Croix for the making of formal protest against the sale. The press throughout the islands, the dispatch went on to say, protested against the proposed sale declaring "we do not desire to be sold."

Among those qualified to discuss the situation in St. Croix is A. J. Blackwood, American consul in that place, chairman of the colonial council and the most extensive owner of planting interests there. Mr. Blackwood is now staying at the Pierpoint house, Brooklyn, with his wife and family. When seen there he said:

"Speaking not in any official capacity as consul but as chairman of the colonial council, I say that the statement in the cable message is untrue. Ever since the publication last May of the story of Captain Christmas' and Mr. Rogers' alleged deal for the Standard Oil Company, interest in the sale of the islands has been renewed among their inhabitants more than ever before.

"Only two months ago the inhabitants of St. Croix held a mass meeting petitioning the king for the sale of the islands to the United States. Over two-thirds of the planting interest of the island was represented on that petition. As a matter of self-protection we are bound to wish to come under the American flag.

"We want annexation and we want it even if only with the same privileges tendered to Porto Rico. Take the duty on sugar from Porto Rico and from St. Croix and compare them and see why we want to be annexed. A hundred-pound-bag of sugar from Porto Rico is taxed with a duty of seventy-five cents. The same weight of the same kind of sugar from St. Croix is taxed \$5. Can there be longer doubt as to whether or not we want annexation?"

"As to the advantages of St. Thomas, St. John and St. Croix to the government, this is a story I leave to government judgment. I only speak from the standpoint of the islander.

"There are some in St. Croix who, sacrificing to selfish motives the welfare of the majority, are raising a loud cry against annexation. These are without exception men who hold good jobs under the present government, men who, like doctors and druggists, under the present Danish law hold monopolies in their lines, and rich negroes who fear the American race opinions and fear American capital and labor will swamp them. This minority is doing all in its power to raise a cry over the proposed sale.

TROUBLE IN PERU.

General Discontent with the Present Administration.

NEW YORK, Oct. 26.—A special to the Herald from Lima, Peru, says: The political horizon is very clouded. There is general discontent with the present administration. The country is not prospering and the revenues are decreasing.

The government has imposed a fine of \$2,500 upon the English railway because of the accident at Halcocillo on October 2. It also directs the company to provide lodgings free and give monthly allowances for the education of the children of the dead engine driver.

FRENCH CAPTAIN KILLED.

Body Found at Foot of a Precipice Where It Had Been Since Spring.

CHAMBREY, France, Oct. 26.—The body of Captain De France, son of the general of the same name, has been discovered at the bottom of a precipice beyond Maurendun fort in the commune of St. Martin D'Arc. Captain De France left the camp last spring and it was believed that he had been murdered.

SHOE FACTORIES SHUT DOWN.

One Thousand Canadians Thrown Out of Work.

QUEBEC, Oct. 26.—Thirty-two shoe factories employing 1000 men have shut down as the result of difficulties between the union and the manufacturers. The trouble grew out of the refusal of a union man to work for weekly wages instead of piece work. He was discharged and a non-union man engaged. As a result all the men in the factory went out. The manufacturers' committee thereupon decided to shut down until a better understanding is obtained.

Pears' Soap has obtained
21 International awards.

SUCCESSION IN DOUBT.

Uncertainty Still Exists About Appointments to Chief Command in England and South Africa.

NEW YORK, Oct. 26.—A special to the Tribune from London says: There is a play at cross purposes going on at the war office over the succession to the supreme command of the army both in England and South Africa.

The announcement by that office that Lord Roberts hopes to leave Capetown about November 15 is not understood by military men here, because December 1 is the date fixed for the retirement of Lord Wolseley and the interval is too short to allow the two gentlemen to exchange their work. Moreover, there are no signs of cessation of hostilities in South Africa and the presence of a commander possessing Lord Roberts' authority and reputation seems to be indispensable.

The official notice is apparently published at the request of Lord Wolseley as an explanation of his retention of command after the expiration of his term. It is not believed in military circles that Lord Roberts will return until De Wet and Steyn have been captured and the campaign has been wound up.

Speculation is rife respecting the succession to the command in South Africa. Lord Kitchener is still the prime favorite, but Generals Lyttleton and Hunter are also considered likely candidates for the succession. Lord Roberts' reputation will be used without doubt as a screen for concealment of the ultimate policies of military reform here. The West end is divided into social and military cliques and practical reformers will be compelled to consider the lines of least possible resistance.

Julian Ralph, who has left the service of the Daily Mail, is intending to deliver a series of lectures on the South African war as it appeared through Yankee glasses. He will probably follow the example of Winston Churchill and open his campaign in London at St. James hall. Churchill has secured Lord Wolseley as his chief patron and supporter. Ralph has received a promise from Rudyard Kipling to perform the same function for him. Kipling, Ralph and other writers who provided copy for the first journal published by an army during a campaign have entered into a free masonry agreement by which that event will be commemorated and Lord Roberts is a member of this novel secret order. Kipling will return to South Africa the coming winter.

ENGLISH SPORTSMANLIKE.

American Turfman Is Well Pleased With Their Methods.

CHICAGO, Oct. 26.—Edward Corrigan, fresh from his first season of racing in England, has arrived in this city. He said:

"My present plans are to remain here for four or five days and then visit Kansas City, where my relatives are. I shall go by way of Lexington, Ky., where I have seven yearlings. From Kansas City I go to San Francisco, where Captain Waldron has fifteen of my horses in training. The best of these are Corine, Don Quixote and Sardinia. I shall probably race there and expect to dispose of most of the bunch before I leave.

"At my ranch in Sacramento I have twenty-six or twenty-seven youngsters which have not yet been broken in and from these I expect to take back to England six or eight of the best. I am anxious to get back to England in February and by the first of January I shall be able to tell which are the best animals to take across for my second campaign.

"I am well satisfied with my first venture, finding the racing on the other side carried on in a high-class manner and the people connected with it the best.

"I find the people sportsmanlike and think the cry raised against American jockeys has been exaggerated. As far as I have observed, the sportsmen over in England want only what is right. The advent of the American jockeys and trainers on the English turf is slowly forcing the Britishers to change their methods."

STEAMER ALPHA FROM ALASKA.

Passengers say That Dawson Telegraph Lines Cannot Be Completed This Winter.

VANCOUVER, B. C., Oct. 26.—The steamer Alpha has arrived from the north. Her passengers say that there is now little possibility of the completion of the Dawson telegraph line this winter. Very bad weather has been encountered and seventy miles of the wires have been overlapped. Between the two ends there is a high range of mountains over which there is now several feet of snow and it is impossible to get through this in the winter time. James Eagnell, the oldest Hudson's Bay factor in Northern British Columbia, was shot by an Indian a month ago and died five days later.

ARNOLD RETURNING.

Embezzler Has Reached New York en Route to London.

NEW YORK, Oct. 26.—Julian Arnold, son of Sir Edwin Arnold, the author of "The Light of Asia," arrived in this city yesterday with two Scotland Yard detectives who will accompany him to London, where he will be tried on charges of embezzling \$140,000.

Immediately upon his arrival he was locked up pending his removal to the steamship Umbria this evening. Ar-

bold's full name is Julian Tragenna Bladulph Arnold and he is the son of Sir Edwin by his first wife, Catherine Bladulph.

When seen at the Ludlow street jail the prisoner refused to talk. He is 38 years of age, five feet seven inches in height and stout. His complexion is dark, almost to swarthyness, and his hair and moustache are thick and black.

At the jail it was said that the prisoner seemed to take his predicament philosophically and that he even joked at times. He stated to detectives Kyd and Stockley that he was willing to return for trial and that he would fight his case to the bitter end.

He denies having embezzled the money and says his defense will be that he gave his clients mortgages and that they were cognizant as to the way he made the investments. As to Mrs. Arnold, he says she was willing to accompany him to England but he wished her to remain in San Francisco "until the dust settled."

When Arnold is taken aboard the Umbria tonight by the two Scotland Yard men he will be given quarters in the second cabin. Once out to sea he will be given the freedom of the ship.

KILLED HIS BROTHER.

But Dying Man Insisted to the Last That His Brother Was Not the Cause of His Death.

CHICAGO, Oct. 26.—His skull crushed, his tongue paralyzed and his life ebbing away as the result of a blow on the head, Frank Marshall insisted to the last that he had fallen on the sidewalk and that his brother John was not responsible for his death. He died at St. Elizabeth's hospital, conscious to the last.

For hours Detective Schulz labored to get an account of the fight. He placed paper and pencil in the dying man's hands and asked him to describe the cause of his wounds, but the injured man pushed them away and would only say that he had fallen. He did not know that his brother had made a confession.

John Marshall, now accused of murder, is a saloon keeper. His brother Frank came into the saloon and complained that the bartender was wiping the counter with an unclean towel. John, the proprietor, interfered and told Frank to mind his own business. Then the brothers fought. George Joyce and two others separated them. Joyce and his friends then left, but returning soon afterward they found Frank Marshall lying upon the floor with a bad wound in his head. They took him to the hospital. The police have a statement from the bartender which charges John Marshall with having struck Frank with a iron stick. The coroner's jury said that it was from this wound that he died.

SALES ON A VISIT.

President of Brazil Received at Buenos Ayres With Signal Honors.

NEW YORK, Oct. 26.—A dispatch to the Herald from Buenos Ayres, Argentina, says: President Campos Salles of Brazil has landed from the cruiser Riachuelo. He was accompanied by the Brazilian ministers of foreign affairs and marine.

The Brazilian squadron, composed of cruisers Riachuelo and Barroso and the torpedo boat Tamayo, entered port early in the afternoon. President Rochero, accompanied by the ministers of his cabinet, army officers and the presidents of the senate and chamber of deputies, went on board the Riachuelo and welcomed Dr. Campos Salles and the latter's party.

The meeting of the two presidents was very cordial. They embraced each other. When Dr. Campos Salles stepped upon Argentine soil a band of 200 musicians played the Brazilian anthem. All persons took off their hats during the playing of the anthem and stood in solemn silence. When the playing ended the crowd heartily greeted President Campos Salles and the other Brazilian guests.

The presidential procession advanced amid the roar of the artillery at the batteries and the chiming of the bells of the churches of the city. The streets in which the procession moved were thronged. It is estimated that there were 350,000 persons along the route.

There was a banquet at night at the government house in honor of President Campos Salles and at 11 o'clock he attended a dancing party given in his honor at the Jockey Club.

RELIEF FOR INDIANS.

Several Carloads of Rations Will Be Sent to Sacaton Reservation.

PHOENIX, Ariz., Oct. 26.—The government is preparing to relieve the suffering of the drought-stricken Indians on the Sacaton reservation. Several carloads of rations will leave here in a few days and will be distributed among the destitute.

TORPEDOES EXPLODED.

Schooner Caught an Electric Wire in the Bay of Corunna.

NEW YORK, Oct. 26.—A dispatch to the Journal and Advertiser from Corunna says: The schooner Llorenca caught an electric wire in the bay here and exploded the torpedoes that were laid during the war. An American schooner had a narrow escape.

INSURANCE MEN MEET.

Fall Meeting of Actuarial Society of America Being Held in New York.

NEW YORK, Oct. 26.—About fifty members from various parts of Canada and the United States are in attendance upon the fall meeting of the Actuarial Society of America. The following papers have been read:

"The Value of Industrial Life Policies," by W. S. Smith; "An American Method of Allotting Surplus to Deferred Bonus Policies," by Rufus W. Weeks; "The Objects to Be Attained in Future Investigation of Mortality and Death Loss," by Emory McClintock; "Should Life Companies Discriminate Against Women," by John K. Gore; "Note on Accuracy in Numerical Tables," by Oscar B. Ireland; "The Legal Rule of Valuation in Case of Preliminary Term Combined With Whole Life Policies," by W. S. Niehaus; "Mortality During First Policy Year Under Endowment Insurance," by Arthur Hunter; "Child's Endowments," by A. C. Washburne.

A minute was presented in reference to the death of the late Augustus F. Harvey, of St. Louis, a charter member of the society.

RALLY OF RAILROAD MEN.

Republican Mass Meetings at Chicago Last Night.

CHICAGO, Oct. 26.—Arrangements have been completed for big mass meetings of railroad employes to be held in the Auditorium and at the lake front tonight. A feature of the gatherings will be the distribution of 25,000 brass badges made up as miniature representations of box cars.

Chairman Hanna and Senator John C. Spooner, of Wisconsin, will address both the indoor and the outdoor meetings and P. H. O'Donnell will speak to the gatherings on the lake front. W. J. Prindle, yardmaster of the Panhandle railway, will act as temporary chairman at the Auditorium, and Lot Brown, agent of the Burlington road, as the permanent presiding officer. A display of fireworks will be one of the attractions at the overflow meeting outdoors.

The Auditorium will be handsomely decorated. The back of the stage will present the appearance of the rear of a freight train caboose, even to the platform and the red and green signal lights. On either side of the car will be pictures of McKinley and Roosevelt.

WHICH DIED FIRST?

Daughter's Claim to Parents' Estate Depended Upon Settlement of That Question.

CHICAGO, Oct. 26.—A special to the Record from Lebanon, Ill., says: A novel point has been declared in St. Clair county. David S. Gage and wife were killed in a terrible storm that swept over the county four years ago. The bodies were found lying side by side. They had one daughter, the only lineal heir.

In a suit for a settlement of the estate the question arose as to which had died first. If Gage, then his wife's relatives would be entitled to her award, consisting of the homestead. If his wife died first, then her relatives would be entitled to nothing, but the whole estate, amounting to about \$10,000, would fall to Miss Mabel Gage, the daughter.

There was no way of proving which had died first and the court held that since woman physically is weaker than man, Mrs. Gage must have died first, and upon this hypothesis awarded the estate to the daughter.

EVASDED REVENUE TAXES.

Pronetor of an Oleomargarine Factory Arrested.

CHICAGO, Oct. 26.—Through an unconscious betrayal by his brother, Albert T. Dow, proprietor of the alleged illicit oleomargarine factory which recently was raided by United States internal revenue officers, was arrested and placed under bonds to appear before Commissioner Mark Foote today.

A warrant was issued for A. T. Dow, but it was discovered that he was in Boston. Before the police in that city could be notified, Dow left for Chicago. On arrival in this city Dow made an appointment with his brother Nathan. The latter had been shadowed by officers ever since the raid and when the brothers met the arrest occurred.

Collector of Internal Revenue Coyne has secured a writ of attachment on the funds of the oleomargarine company, said to be on deposit in three banks. The internal revenue taxes on the oleomargarine, alleged to have been evaded from February, 1896, to October 15, 1900, amount, it is said, to \$25,000.

CORRUPTION IN DENMARK.

Minister Secured Twice the Value of His Estate from Mortgage Given National Invalid Fund.

COPENHAGEN, Oct. 26.—Dr. Bahren, who was a member of the Estrup cabinet, in which he held the portfolio of war, is now being sharply attacked by the Liberal and Radical papers because while minister he obtained 140,000 kroners from the national invalid fund by mortgaging his estate, which was recently sold for only 70,000 kroners.
