

MANY NOTABLE GAMES PLAYED

Football Absorbed Attention Yesterday Throughout Country.

STANFORD WHIPS BERKELEY

Washington State Championship Remains Undecided Owing to Tie Game—University of Oregon Tied With the Multnomahs.

SAN FRANCISCO, Nov. 29.—Stanford defeated Berkeley today by a score of 5 to 0. It was Berkeley's game all through the first half, but in the second Stanford took a brace and scored just three minutes before the call of time.

Treager, Stanford's left tackle, made the only score by kicking a goal from a place kick on the thirty yard line. Twice he made the attempt and the ball went wide of the goal. The third trial sent it squarely through the posts.

U. OF W. VS. PULLMAN.

SEATTLE, Nov. 29.—The football game played here today between the teams representing the University of Washington and the Pullman Agricultural College for the state championship resulted in a tie, each side making a touchdown, but neither kicking a goal. Pullman showed better team work.

U. OF C. VS. MULTNOMAH.

PORTLAND, Nov. 29.—University of Oregon, 0; Multnomah Athletic Club, 0.

PENNSYLVANIA VS. CORNELL.

PHILADELPHIA, Nov. 29.—Before what was probably the largest crowd that ever attended a Thanksgiving football game in this city, the University of Pennsylvania team today defeated Cornell by a score of 27 to 0.

Once only during the entire contest was the Quaker goal line in danger of being crossed by a Cornell player and during most of the time the ball was in Cornell's territory.

KANSAS VS. MISSOURI.

KANSAS CITY, Nov. 29.—Today's annual football game between the state university elevens of Kansas and Missouri resulted in a tie of 6 to 6.

CHICAGO VS. MICHIGAN.

CHICAGO, Nov. 29.—Chicago, 15; Michigan, 5.

MINNESOTA VS. NEBRASKA.

LINCOLN, Neb., Nov. 29.—Minnesota defeated Nebraska at football today by a score of 20 to 12.

COLUMBIA VS. CARLISLE.

NEW YORK, Nov. 29.—The Columbia football team today defeated the Carlisle Indians on the Columbia field by a score of 17 to 6. There were nearly 25,000 people watching the game and they saw as clean and accurate an exhibition as has ever been put up on the grounds.

DIED TO SAVE ANOTHER.

Chicago Clerk Killed by Runaway Horses.

CHICAGO, Nov. 29.—In attempting to save a woman from death last night, John R. Wilkins, assistant city clerk in the city clerk's office, sacrificed his own life.

Wilkins tried to stop a team of runaway horses at Belmont avenue and Wood street, just as the frightened animals were bearing down on a woman who stood in the middle of the street transfixed with fear over the impending danger. Realizing that unless he acted quickly the woman would be killed, Wilkins threw himself at the heads of the horses. He failed to catch the reins but managed to force the animals to one side of the street and thus saved the woman.

In precipitating himself in front of the horses Wilkins was hurled to the ground and run over by them. He was picked up unconscious and taken to the hospital, where he died. His chest was crushed and four ribs in his right side were broken.

W. C. T. U. CONVENTION.

Will Be Held in Chicago Beginning Today.

CHICAGO, Nov. 29.—The following national officers of the W. C. T. U. with headquarters in Evanston left last night for Washington to attend the W. C. T. U. national convention which will be held in that city for one week beginning November 30:

Mrs. Susanna Frye, national secretary; Mrs. Helen M. Baker, national treasurer; Mrs. Minnie B. Horning, national press agent. In Chicago the women were joined by several western state presidents.

THREE GREAT SMELTERS.

Will Be Constructed in Opposition to the Smelter Trust.

DENVER, Nov. 29.—The News today says: The rival of the great American Smelter Trust is in course of training

for a gigantic campaign. The movement has been in progress quietly for several months and yesterday it developed that plans are so far completed that locations for plants are being selected and the last touches are being given to one of the most daring projects of the decade.

Three large plants are to be erected simultaneously. One is to be in Denver, a second in Salt Lake and a third will be built at a favorable point in Mexico yet to be named. Each of the plants is to have a capacity for handling automatically 1000 tons of ore daily and all are to be built upon practically the same plans. Experts for the various departments have already been invited to connect themselves with the company.

Each of the new smelters will be provided with refineries where gold, silver, copper or lead can be refined to the degree necessary for the world's use.

Eastern and Colorado capital have subscribed. It is claimed the plants will cost \$1,000,000 each, much less than the amount publicly announced by the promoters.

NICARAGUA CANAL.

Commission Does Not Entirely Reject the Panama Route.

NEW YORK, Nov. 29.—According to a special dispatch from Washington to the Herald, the program of the administration regarding isthmian canal matters during the first two weeks of the senate's session is:

To ratify the Hay-Pauncefote treaty without the Davis amendment; to pass the Nicaragua canal bill; to ratify the canal treaties between the United States and Costa Rica and the United States and Nicaragua, which are about ready to be signed.

The report of the Isthmian Canal Commission to the president has been modified, it is said. The report as first virtually agreed upon favored the Nicaragua route. At the same time it reported the Panama route to be feasible. Since that time there have been further interviews between the representatives of the Panama Company and the commission. The report, after frequent consultations between administration officials, has been modified to the extent of again considering the Panama route.

An interview has been arranged between Secretary Hay and Mr. Hutin for next Friday. What will result from this no one can even surmise. The final draft of the report will be placed in the hands of Secretary Hay and the president today (Thursday).

YOSEMITE A MORGAN LINER.

Was Bought by the United States During the Spanish-American War.

NEW YORK, Nov. 29.—Captain Chas. T. Hutchins of the cruiser Buffalo, sister ship of the Yosemite, was anxious last evening at the Brooklyn navy yard to know fuller details of the loss of the Yosemite.

He said that he left Manila on August 21 and that the Yosemite left Guam the day after. At that time there were about 220 men on the Yosemite and she was under the command of Lieutenant Augustus N. Mayer. Lieutenant Mayer is from Iowa and has been in the service since June 24, 1874. His present command dates from February 24, 1897.

Rear-Admiral Barker said that Captain Franklin Hanford had been sent to Manila to take charge of the Yosemite but he doubted if he had had time to get there yet.

The Yosemite and the Buffalo, once the Brazilian warship Niechroy, both of the Morgan line, were bought by the United States in the Spanish-American war and were fitted up as auxiliary cruisers. The only difference between them is that the Yosemite has a iron hull and the Buffalo a steel one.

DECREASE IN FUR OUTPUT.

Ruthless Slaughter of Fur-Bearing Animals in Alaska Has Reduced the Output 50 per Cent.

MINNEAPOLIS, Nov. 29.—A special to the Times from Tacoma says: Ruthless slaughter, by hunters and prospectors, of foxes and other fur-bearing animals of Alaska during the past three years has reduced the fur output of the territory 50 per cent. Dealers say the fur-bearing animals are passing away so rapidly throughout Alaska that, like the rapidly dying Indians, they will soon become extinct unless the government makes some provision for their protection.

The great decrease in the output is partly due to the fact that fires started by miners have burned over great tracts of country formerly filled with fur animals. These fires have driven the full grown animals to inaccessible parts and have burned to death all the young which are usually the most valuable fur producers.

SMALLPOX IN NEW YORK.

Twenty-Four Cases Discovered in One Block.

NEW YORK, Nov. 29.—Twenty-four cases of smallpox were discovered today in a block on West Sixty-ninth street near West End avenue. The disease is supposed to have started in this city from a negro actor.

STEAMER FROM NOME.

SEATTLE, Nov. 29.—The steamer Portland arrived from Nome today with \$169,000 and 73 passengers.

NAME OF DEFENDER.

Suggestions for Name of New Yacht Will Be Invited From the Public.

NEW YORK, Nov. 29.—The public's wish may be followed by the New York Yacht Club members' syndicate having in charge the defense of the America's cup against Sir Thomas Lipton's challenger, when the naming of the prospective defender is considered.

W. Butler Duncan, Jr., who is to manage the new yacht, says that there has been as yet no discussion by the syndicate regarding the boat's name and that the matter will probably not be taken up for several weeks. He intimates, however, that the plan followed in the naming of the Columbia, namely that of having suggestions from the public, will be imitated by the owners of the new boat.

In the gossip of local yachtsmen the name "America" is the favorite. It is considered particularly appropriate from the fact that the international races next year will celebrate the semi-centennial of the winning of the famous cup by the schooner America.

If the races are held during the third week of August, as suggested in Sir Thomas' challenge, one of the races will be sailed on August 22, just 50 years to the day from the old America's victory.

Those who decry the suggestion of the name "America" object on general grounds to the repetition of names as destroying the individuality of yachts.

STRATTON'S INDEPENDENCE.

John Hays Hammond Is Given Full Control.

DENVER, Nov. 29.—The Venture Corporation of London has called its acceptance of the terms of John Hays Hammond under which he agrees to take charge of Stratton's Independence mine in Cripple Creek and already work is under way in accordance with his plans.

The board of directors agree to turn the mine over to Mr. Hammond, giving him authority to prosecute the needed development work and leave the matter of dividends from the mine to his discretion.

He has agreed to pay in dividends for next year \$488,000 or ten per cent on the capital stock of the corporation. This is just one-fourth of the amount that has been paid in dividends from the mine since the English corporation has owned it.

The impression that has gained acceptance in some quarters that the mine is entirely worked out is denied by Mr. Hammond's report, which shows that the ore body is still capable of producing \$1,000,000 profits. This, if mined during the year, would leave \$500,000 for the development work after the promised dividend had been paid. Of the reported negotiations for purchase of the Portland mine, Mr. Hammond said:

"You may say positively that there has been no sale of the Portland mine contemplated by the present owners nor are there any negotiations for a consolidation of the Portland with Stratton's Independence."

GERMAN POLICY DERIDED.

An Authority on Chinese Affairs Declares That Peace Negotiations Will Never Be Concluded.

NEW YORK, Nov. 29.—P. B. Badner, an authority on Chinese affairs, is quoted in a St. Petersburg dispatch to the Herald as saying in substance to a representative of the Novoe Vremya:

"It is nonsense to suppose that the Anglo-German agreement resulted from the withdrawal of the Russian troops from Pekin. The English and Germans are natural allies in China.

"All we can hope is that the foreigners will not stop too long in Pekin. Otherwise they might discover so much hidden treasure that it would seem desirable to remain for good. The Anglo-German agreement, which is now disagreeable to us, would then become dangerous.

"The trouble is that until the peace negotiations are concluded there can be no question of the European forces leaving Pekin and these negotiations will never be concluded; first, because it is not the interest of Europe that they should be, and second, because there is no one to negotiate with.

"Again, what sort of peace negotiations can include such demands as those made by Germany—nothing but executions?"

"History records no instance of a victor beheading the rulers of the vanquished simply because they fulfilled their duty toward their native land according to their lights.

"Attila, Tamerlane and Genghis Khan, savages though they were, never made such demands."

COMPOSER DANGEROUSLY ILL.

Henry Russell Known for His Songs of the Sea.

CHICAGO, Nov. 29.—The Chronicle says: Henry Russell, one of the most noted composers of sea songs, is dangerously ill. It is now some years since he appeared in public, and, being 70 years of age, it is feared that the outcome of the present illness may be fatal.

DIED FROM YELLOW FEVER.

Walter A. Donaldson Lost Wife and Child in Santo Domingo.

NEW YORK, Nov. 29.—Walter A. Donaldson, whose wife and daughter,

Pears'

Pretty boxes and odors are used to sell such soaps as no one would touch if he saw them undisguised. Beware of a soap that depends on something outside of it.

Pears', the finest soap in the world is scented or not, as you wish; and the money is in the merchandise, not in the box.

All sorts of stores sell it, especially druggists; all sorts of people are using it.

Mary, fell victim to yellow fever in Santo Domingo, arrived on the steamer Cherokee, bringing home his only remaining girl, Kathryn, aged 8.

Mr. Donaldson was collector of duties for the Santo Domingo Improvement Company, Puerto Plata. He relinquished a position in the United States treasury department to take the place. He is an immune from fever and speaks Spanish, Portuguese and French. He had been in the southern republic more than a year when he sent for his wife and two daughters last August.

There was no fever in Puerto Plata when they arrived and Mr. Donaldson said last night that he could not tell how the disease had been contracted.

"It may have been due to tearing up the streets to relay water mains," he said, "or it may have been caused from some arrivals from Porto Rico who were ill. At any rate my wife and daughter, the latter 15 years old, were stricken and died within a week. Kathryn also had the fever but I determined to save her by taking her to the mountains in the interior.

"We fled from Puerto Plata to Santiago, the principal city of the interior. They refused to take us in at first, as they were suspicious. I went on to other towns out each one turned us away. It was a case of taking Kathryn on the saddle in front of me and making a three days' ride across a rough country where there were no conveniences, or retracing our steps to Santiago.

"We were in a great valley which had been discovered by Columbus and which is in about the same condition now as it was then. Its roads are cattle trails and civilization has passed it by. We went back to Santiago and after much persuasion we were finally taken in. The change of air saved Kathryn and she quickly recovered her usual health and strength."

DEATH OF MARY E. CHAPIN.

Was a Veteran Teacher and Seminary Founder.

CHICAGO, Nov. 29.—Miss Mary E. Chapin, 87 years of age, a veteran woman's seminary founder and teacher, is dead at the home of her nephew, Dr. S. N. Chapin, of this city.

Miss Chapin began to teach at the seminary in New Haven and in 1860 helped found a woman's seminary at Milwaukee. She went to Lawrence, Kas., and there founded a seminary which later developed into the University of Lawrence. In 1887 she went to Quincy and founded a seminary which is still in existence there.

In 1872 she came to Chicago and when the women's department of the old University of Chicago was opened she was placed in charge. She continued in this position until the institution was closed.

NOTICE FOR BIDS.

Bids will be received by the county court until Wednesday, December 5th, 1900, at 2 p. m., for furnishing plans and the construction across Tucker creek in said district No. 4 of a bridge draw bridge (25 foot opening) 30 foot trestle approach on the west side, and about 45 feet of trestle approach on the east side of draw span. All of said bridge to be fourteen feet wide and draw built in the same manner as the Warrenton draw bridge.

The right is reserved to reject any and all bids.

By order of the COUNTY COMMISSIONERS, H. J. WHEATY, County Clerk.

NOTICE OF MEETING OF BOARD OF EQUALIZATION.

Notice is hereby given that special assessment roll No. 37 for the improvement of Fifteenth street from the south line of Exchange street to the north line of Irving avenue, has been duly made by the board of assessors and filed with the auditor and police judge of the City of Astoria and that Friday, the 14th day of December, 1900, at the hour of 2 o'clock p. m. of said day in the Council chambers in the City Hall of said city has been fixed as the time and place when the board of assessors and committee on streets and public ways of the Common Council will meet and then and there, examine, correct, review and equalize said special assessment roll No. 37. All persons having objections to said assessment are required to file judge in writing. H. E. NELSON, Auditor and Police Judge of the City of Astoria.

Date of first publication, Nov. 29, 1900.

NOTICE TO THE PUBLIC THAT THE ASTORIA AND PORTLAND STEAMSHIP COMPANY HAS BEEN REORGANIZED.

(Continued on Page Four.)

UNCLE SAM'S FEAST DAY

should be provided with a choice fragrant cigar to top off the dinner with, and there is nothing that will tickle the palate and delight the heart of the connoisseur like one of our Garcia cigars. It is the best cigar for the money that is made, and will give the lover of a good smoke a treat for 12 1/2 cents. Try a box for Thanksgiving.
