GOVERNMENT TO COLLECT.

Sureties of Neely and Rathbone Unwilling to Refund Losses.

NEW YORK, Jan. 29.—A special to the Times from Baltimore says:

President Edwin Warfield, of the Fidelity and Deposit Company, of Baltimore, has gone to New York to consult Frank H. Platt, vice-president of the company, concerning the \$30,000 bond of Charles F. W. Neely, former director of finance of the Cuban postal service.

Mr. Warfield further says that before a settlement is made the charges made by Neely will have to be satisfactorily explained away. It was further stated that the company does not propose to settle, except at the end of a lawsuit.

The effect of a suit by the government to collect the amount of Neely's bond will be to throw the merits of the whole case before an American jury, and it appears that one of the grounds on which the company will contend against paying will be that Neely's guilt has not been established.

A point which the company may raise is this: On Neely's preliminary hearing in New York, Captain George E. Burton, who first made the charges against him, testified that as far back as January, 1900, he had known of irregularities in the accounts of the director of finance of the postal establishment.

In all fidelity company bonds for the form issued in Neely's case there is contained a clause which reads like this: "This bond will become void as to any claim for which the company is responsible hereunder to the employer, if the employer shall fail to notify the company of the occurrence of such act immediately after it shall have come to the knowledge of the employer."

It is said that if Burton actually knew of the irregularities in January preceding Neely's arrest, this clause of the Neely bond becomes operative, because the company was not immediately notified.

While the letter to the company making the claim for Rathbone's bond does not allege any criminality against Rathbone, it asserts that the government was a loser through him to the extent of \$60,000 in "unauthorized payments" which had been disallowed in settling his accounts.

NEW YORK REFORM. Evidence Against Police Officials Will Be Submitted to February Grand Jury.

NEW YORK, Jan. 29.—No evidence against police officials submitted to the district attorney by the Tammany committee of five will be given to the grand jury by District Attorney Philbin. The grand jury will end its sittings Thursday and the February grand jury will not be sworn in until Monday, the 4th.

The committee of five's evidence will not be placed before the present grand jury. Regarding the original evidence submitted, the district attorney says that:

NEW YORK, Jan. 29.—It is expected that the athletic contests at the Pan-American exposition will be second none ever held in America or Europe. They are to continue for six months and will be open to the world and will be held in one of the most spacious and magnificent stadia ever erected.

A feature of the contest will be the Irish sports, scheduled for August 24, 29, 30 and 31. Every city of importance in America will send delegates.

PRICE OF SILVER. NEW YORK, Jan. 29.—Silver

is entirely sincere in his endeavors to accomplish definite results, much matter not legally strong was accepted by him and given a much higher value than it really deserves.

At the L. A. W. meeting the report of the committee appointed one year ago to revise the constitution and by-laws will be submitted. It is understood that this report will recommend the centralization of league work in one office, which will practically do away with state divisions.

As to the L. A. W. presidency, since the definite refusal of M. M. Belding, jr., and other local favorites to accept the nomination, H. S. Earle, of Michigan, has grown in favor with leaders in this state. At the L. A. W. headquarters in this city yesterday it was said that Earle might receive the vote of the solid New York delegation.

Second Annual Meeting of the Association of American Universities. CHICAGO, Jan. 29.—Fourteen college presidents, representing as many of the largest universities in the United States, will come to Chicago soon to attend the preliminary sessions of the second annual meeting of the association of American Universities which will be held at the University of Chicago and in the fine arts building February 16 to 28.

President Harper, of the University of Chicago, is secretary of the association and will entertain the visiting college presidents and professors at the university.

LIBRARY FROM CARNEGIE. Lewiston, Maine, Will Get Fifty Thousand Dollar Building. LEWISTON, Me., Jan. 29.—The city council has voted unanimously to accept the offer of Andrew Carnegie to give for a free library ten times the amount the city would appropriate annually for its support.

SPORTS AT BUFFALO. Athletic Contests at Exposition Will Be Second to None Ever Held. NEW YORK, Jan. 29.—It is expected that the athletic contests at the Pan-American exposition will be second none ever held in America or Europe.

while he believes Chairman Nixon is entirely sincere in his endeavors to accomplish definite results, much matter not legally strong was accepted by him and given a much higher value than it really deserves.

ACT BADLY DRAFTED.

Status of Scotch and Irish Members of Parliament Impaired.

NEW YORK, Jan. 29.—A dispatch to the Tribune from London says: The lawyers are still quibbling over technical points arising from the bad drafting of the act of 1867, by which Scotch, Irish and university members of parliament are excluded from the operation of that measure.

Close construction is displayed and L. V. Marcourt is one of those who assert these members will be forced to seek re-elections and, since it is hardly credible that parliament can be partially dissolved, it follows that a general election will occur within six months. If this be true, the intent of the act of 1867 will be reversed, since the object aimed at was to prevent the dissolution of parliament owing to the death of a sovereign.

One point is in favor of the close constructionists. The faults in drafting the act were known and the necessity for amending and rectifying it was recognized. It is reported that the ministers were intending to do so this spring. Apparently it is not too late. The status of the Irish, Scotch and university members is good for six months in any event and during that period the law can be amended.

AMERICA GETS ARMOR CHEAP. European Countries Object to Paying More Than Is Paid by the United States.

NEW YORK, Jan. 29.—A special to the Herald from Washington says: It is the expectation of well-informed naval officials that Europe will demand the manufacturers to supply

AN INCOME FOR LIFE FROM GREATEST OF GOLD PROPERTIES

3680 ACRES—9 MILES IN LENGTH—250 MILLION TONS.

Richest gold-bearing quartz ground by nature's hand into gold-laden gravel, from 50 to 600 feet in depth over the entire property. In addition the company owns 14 miles in length of river bed, each mile of which contains many millions of gold, situated on the Rio Grande, in Taos county, New Mexico.

OVER 100 MILLION DOLLARS For Dividends

READ THE PROOFS United States Official Report MADE TO COMMISSIONER OF THE UNITED STATES, GENERAL LAND OFFICE, WASHINGTON, D. C.

by a geologist and mining expert of worldwide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States surveying corps, and in his official report says: "Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over forty miles is a sluice, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved methods of river mining. The thickness of the Rio Grande gold gravel extends in many places 600 feet, or nearly three times that of the like beds in California, while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered."

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. Nothing, I am persuaded, since the discovery of California and Australia is comparable for its immeasurable resources of gold available by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this company the richest and most extensive known.

Capital Stock \$2,000,000

FULLY PAID AND NON-ASSESSABLE, PAR VALUE \$1. EACH SHARE.....

One-half the entire capital stock has been placed in the treasury of the company as a working capital. To complete necessary ditches and place on the river bed several gold steam dredges, the company now offers a limited number of its shares at

50c PER SHARE

AFTER SALE OF WHICH PRICE WILL BE ADVANCED TO

\$1.00 PER SHARE

Applications should be sent promptly. Write for prospectus. Make checks, money orders payable to

Rio Grande Placer Gold Mining Co. 50c Place, Boston, Mass.

them with armor at the same price as the Carnegie and Bethlehem companies are delivering it to the United States.

Under the contract now in force between those companies and the government, the price including royalties, is \$445 a ton for Krupp and \$411 for Harvey armor. Great Britain, France, Germany, Russia and Italy have been paying more than \$200 a ton and Japan more than \$700.

No limit was placed by the house upon the price to be paid for armor for the battleship and armored cruisers authorized in the pending appropriation bill, and it is apparent that the armor will be made by the Carnegie-CMFVY management made by Secretary Long with the armor companies is acceptable to congress.

STARVING ON AN ISLAND. Owners of Guano Concessions Abandon Their Workmen to Death.

NEW YORK, Jan. 29.—The Tribune says: While John B. H. Jefferson, of Baltimore, and Captain Wyatt Owen, of the same city, are disputing about the right of Jefferson to send relief to them, James H. Woodward, Wm. A. Humphrey, John Hill and John A. Bell are said to be starving on Navassa island, in the Caribbean sea.

Jefferson and Owen, up to December 15 last, were partners in the ownership of a guano concession on the island and the men were sent there by them. On December 18 the partnership was dissolved and the control of the guano concession was given to Owen.

Since then Jefferson has been trying to send for the men, but Owen seems to be unwilling that they shall be brought back. The island is said to be destitute of anything eatable and the men are entirely dependent for food on what is sent them by sea.

PRINCETON TRAINER ENGAGED. Will Handle Athletic Teams of University of California.

BERKELEY, Cal., Jan. 29.—Walter Christie, the crack trainer of Princeton, has been engaged for two years by the students of the University of California to handle their athletic teams. He is expected to begin his work within two weeks.

MINING MAN DEAD. Niece of Deceased Will Take His Body From San Francisco to Ohio.

SAN FRANCISCO, Jan. 29.—Samuel C. Stephens, a wealthy mining man, aged 57 years, is dead in this city of apoplexy. Miss Elizabeth Porter of East Liverpool, Ohio, a niece of the deceased, arrived here several days ago and will take the remains back to Ohio for interment.

RAILROAD OFFICIALS CONFERENCE. Meeting of Representatives of Southern Pacific and Santa Fe Roads.

SAN FRANCISCO, Jan. 29.—There was a meeting last night at the Palace hotel of prominent Southern Pacific and Santa Fe officials, including President Chas. M. Hays and Vice-President J. C. Stubbs of the Southern Pacific, and President E. P. Ripley, Vice-President J. M. Barr and Land Agent Chambers, of the Santa Fe. Agent

of the most prominent musicians and band masters in this state, was found upon a sidewalk near the southern limits of this city. The cause of his death is a mystery. The physicians who were called have been unable to decide as to the cause of death and the coroner will demand a post mortem examination tomorrow.

Professor Dawson has for the last three months been instructing the city band of Beloit and Saturday came to this city and visited his family.

CHICAGO, Jan. 29.—A special to the Chronicle from Racine, Wis., says: The body of Frances L. Dawson, one of the most prominent musicians and band masters in this state, was found upon a sidewalk near the southern limits of this city. The cause of his death is a mystery.

BEFORE YOU BUY A PIANO OR AN ORGAN It will pay you to write

EILER'S PIANO HOUSE

OFFICE: 351 Washington St., Portland, Ore.

We are the great profit killers and piano price regulators of the Northwest, and with our special facilities can sell a fine piano or organ for less money than you can get them elsewhere. Write today. Catalogues for the asking.

Our stock includes the three greatest American pianos—the Kimball, the Chickering and the Weber—together with eight other good makes.

THE ONLY REMEDY THAT ALWAYS CURES

Senator Dwyer Gives Full Credit to Paine's Celery Compound.

Paine's celery compound has been elected to the Illinois State Senate, and is now the general prescriber in which body he took a prominent part of most eminent practitioners during last winter's session. Senator Dwyer has recommended Paine's celery compound to many of his friends, and has yet to hear anything of a last quarter of a century. It is in no sense a patent medicine, and for that reason more physicians of high standing are using, prescribing, and recommending it than any other remedy. Senator Dwyer had used various medicines, and they had done him no good. Just how Paine's celery compound was brought to his attention, he does not remember, but it has done so much for his health that it has no more enthusiastic advocates in the city of Chicago. He gives full credit to Paine's celery compound for the great improvement in his health. Senate Chamber, General Assembly, Springfield, Ill., Feb. 25, 1900. "Gentlemen: It is with sincere pleasure that I furnish this testimonial to the superior merits of Paine's celery compound. I have found it an efficacious and agreeable remedy for various complaints which refused to yield to other forms of treatment, and I can cheerfully recommend it. "EDWARD M. DWYER. Senator Dwyer has held many positions of trust, both in the city and state, and outside. There will be no neuritis, no per-haps appointed him superintendent of the city water office. Later he became West town assessor, and in 1894 was used, other members of the family are quick to see the great gain in health. Paine's celery compound is the one known nerve feeder and nerve restorative. By its means all the functions of the body receive a fresh supply of nerve food. It encourages the body to produce an abundant supply of this indispensable vital force, without which there can be no health, strength, nor happiness in living. From the lack of nerve force men and women are driven to despondency, melancholy, insanity and suicide. There will be no neuritis, no per-haps appointed him superintendent of the city water office. Later he became West town assessor, and in 1894 was used, other members of the family are quick to see the great gain in health.
