

## ENVOYS CONCEDE POINT TO COURT

Two Chinese Officials Will Be  
Strangled, Not Beheaded.

### CONTROVERSY IS NOW OVER

Fight is Now Between Powers Over Question  
of Indemnity—Minister Wu Said  
to Be Seeking a Loan in New  
York City.

LONDON, Feb. 20.—Dr. Morrison, writing to the Times from Peking, says: "The court has yielded and consented to the infliction of the punishment demanded, petitioning, however, that the sentences on Chao Shu Chiao and Ying Nien Man be strangled instead of decapitation. To this the foreign envoys have agreed. The question, therefore, is virtually settled."

Commenting upon the latest advice from Peking the Times says: "There cannot be any reasonable doubt that the sudden surrender of the Chinese court was due to fears inspired by Count Von Waldersee's order."

GRAVITY OF SITUATION OVER.  
PEKIN, Feb. 20.—(Noon).—The foreign envoys this morning received an official communication from the Chinese plenipotentiaries offering to agree to all the terms of the powers. The Chinese desired, however, to save the lives of Chao Shu Chiao and Ying Nien, but they were informed that the ministers insisted upon the former demands. A complete surrender is expected tomorrow.

Meanwhile extensive preparations are being made for the expedition planned by Count Von Waldersee. The Germans have purchased 1500 camels for the purpose.

A representative of the Associated Press was informed by the foreign ministers today that they think the gravity of the situation over, but it is expected that difficulties will now arise among themselves when some of the governments send their indemnity claims, and particularly is there uneasiness regarding the attitude of Germany that her claims must be paid in cash before the evacuation takes place. The other ministers resent this, saying it will be impossible for China to pay, as China has not a large reserve and the customs receipts go to pay dividends upon former loans and it is not probable that she could borrow a sum of great magnitude. United States Minister Conger estimates the total demands upon China as \$400,000,000.

WOULD FLOAT LOAN HERE.  
NEW YORK, Feb. 20.—There has been some talk in Wall street of an attempt of the Chinese government to float a loan in this country of \$200,000,000 to meet the expenses of the Boxer uprising, to pay indemnities, etc. It is said that Minister Wu has approached a number of bankers, and has suggested that it would be possible for the government to guarantee the loan by an increase of the customs above the point upon which England has a lien.

President Stillman, of the National City Bank, denied any knowledge of such negotiations. Another banker said:

"When China is pacified, commerce is resumed and capital assured of protection, it is not improbable that New York bankers might view such a loan favorably."

### FRENCH SUBJECT ARRESTED.

General Agent of Tabacalera Company  
Accused of Aiding Insurgents.

MANILA, Feb. 20.—At Pagsanjan, province of Laguna, yesterday, Lieut. Vaughan, of the Thirty-seventh infantry, arrested Fernando Rustan, general agent of the Tabacalera Company, on the charge of having aided the insurgents. Abundant documentary evidence against the prisoner has, it is asserted, been secured.

Rustan is a French subject and a close friend of the insurgent General Calles and was to a certain extent associated with D. M. Carman, the American contractor who was recently taken into custody charged with having furnished supplies to the insurgents. The Tabacalera Company is said to be further incriminated.

### COLUMN LOST.

Grave Anxiety Felt for Forces of  
Smith-Dorrien.

NEW YORK, Feb. 20.—A dispatch to the Journal and Advertiser from London says:

Grave anxiety is felt for the fate of Smith-Dorrien's column, which has not been heard of since February 6, when it lost twenty-four killed and forty-six wounded in a heavy engagement with Commandant Botha at Bothwell.

The officer in command at Wonderton, the nearest post on the railway to the scene of the engagement, reports that he has no news of Smith-Dorrien, who has about 2500 men under him.

### HAMILTON FOUND GUILTY.

Verdict of Manslaughter Against Minnesota Man Who Killed His Friend.

MINNEAPOLIS, Feb. 20.—The jury

in the case of the state of Minnesota against Frank H. Hamilton, charged with murdering Leonard R. Day, after 40 hours' deliberation furnished a genuine surprise by coming into court a few minutes before 10 o'clock this morning and reporting that it had agreed upon a verdict of manslaughter in the first degree, with a recommendation to the mercy of the court. The jury had been out so long that hope of an agreement had about been given up. The jury informed the deputies at 9:15 that it had agreed, but it took half an hour to arrange the preliminaries.

Hamilton was brought into court to hear the verdict. He had enjoyed a good night's sleep and seemed in excellent spirits. When the verdict was read Hamilton appeared dazed and made no other sign than to shake his head in mute protest.

He was remanded to jail to await sentence and absolutely refused to see anyone except his devoted friend, Miss Johnson, of Colorado Springs.

His attorneys at once moved for a new trial, but no date was set for hearing the arguments. When the prisoner reached the jail he said to Jailer Alexander, with a despairing gesture:

"They've found me guilty, captain, but I do not deserve it."

The penalty for the crime of which he is convicted is imprisonment from five to twenty years.

### MOUNTAIN TOP SLID INTO SEA.

Earthquake North of Vancouver Caused  
Much Damage.

VANCOUVER, B. C., Feb. 20.—The crest of a mountain whose top is more than a mile in circumference, slid into Loughborough Inlet, 100 miles north from Vancouver last Saturday, just before noon. The great slide was caused by an earthquake, which shook the surrounding district for several seconds, and the resulting shock of the falling mountain top could be felt a long distance.

The mountain which fell was composed of a great crag, which overhung the shore, and an enormous slice of it sheered off into the bay. The crag extended back 800 feet from the shore. Giant trees and immense boulders were carried away by the slide. A heavy sea was caused and a tidal wave swept down the inlet. Several small boats, three miles away, were thrown up into the woods, and two boats of logs ready to be sent to market in Vancouver were thrown out of the water and practically wrecked. News of the earthquake was brought to Vancouver by the steamer Coquitlam.

### KING TO VISIT IRELAND.

Will Carry Out Engagements He Made  
When Prince of Wales.

NEW YORK, Feb. 20.—It is semi-officially announced in Ireland, says the Tribune's London correspondent, that King Edward will carry out in the course of the spring the engagements he made when Prince of Wales, for visiting Ireland. He will be entertained by three peers and will be officially received at Belfast, Dublin and Waterford.

### The Oldest and Best.

S. S. S. is a combination of roots and herbs of great curative powers, and when taken into the circulation searches out and removes all manner of poisons from the blood, without the least shock or harm to the system. On the contrary, the general health begins to improve from the first dose, for S. S. S. is not only a blood purifier, but an excellent tonic and strengthener and builds up the constitution while purging the blood of impurities. S. S. S. cures all diseases of a blood poison origin, Cancer, Scrofula, Rheumatism, Chronic Sores and Ulcers, Eczema, Psoriasis, Salt Rheum, Herpes and similar troubles, and is an infallible cure and the only antidote for that most horrible disease, Contagious Blood Poison.

A record of nearly fifty years of successful cures is a record to be proud of. S. S. S. is more popular today than ever. It numbers its friends by the thousands. Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of blood poison diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

We are doing great good to suffering humanity through our consulting department and invite you to write us if you have any blood or skin trouble. We make no charge whatever for this service.

Contractors Want an Extension of Five  
Years in Time Allotted Them.

OTTAWA, Ont., Feb. 20.—A petition from Richard Harcourt and Daniel Cooper, of Welland, Alonzo C. Mather, of Chicago, and John Fleet, of Toronto, has been presented to parliament asking for an extension of five years of the time allotted them for building a bridge over the Niagara river at Buffalo.

RUSSIA NOT SERIOUS.  
Editor Stead Thinks She Cannot Afford  
to Shut Out American Machinery.

NEW YORK, Feb. 20.—W. T. Stead, in a special dispatch to the Journal and Advertiser, says: "Russia does not mean to quarrel with the United States, not even to the extent of a tariff war. The sudden and startling application of the maximum tariff to imports from America, valued at ten million dollars a year, as a method of indicating dissatisfaction with Gage's method of levying duty on a commodity of which America imports only \$200,000 annually, can hardly be regarded as a serious policy."

"Being a convinced free trader, believing Russia's development has been horribly retarded by the heavy protective duties which she imposes on imports, I regard the increase of Russian duties on American iron and steel goods with profound regret. It does not matter much to the American manufacturer if he is temporarily shut out of the Russian market, it matters everything to the Russian consumer that the price of his machinery should be increased. The Russian peasant needs cheap agricultural machinery. As Prof. Osoffovskii cried out not long ago, high duties on iron and steel hit the agriculturist at every turn."

"From a political point of view, with Count Von Waldersee menacing China with a great expedition inland, with Count Von Waldersee's master hand in glove with Great Britain, it would be unwise of fatality for the great powers which are in accord as to the policy to be pursued in China to allow a truce, such as this matter of interpretation as to what is and what is not bounty-fed sugar, to involve them in a dispute which might render their co-operation in China less easy and natural than it is today."

"Cassini has now assured Gage that Russia is prepared to cut off her nose to spite her face. Such is the extraordinary dementia that sugar seems to have produced upon the minds of financiers. There is little doubt that Russia will carry out her threat. Could not Gage, under these circumstances, discover in the inextinguishable art of interpretation some means of saving Russia from inflicting an injury upon herself out of all proportion to the grievance which she seeks to remedy?"

### BRITISH CIVIL LIST.

Larger Appropriation for Expenditures  
of the Court Is Not Likely.

NEW YORK, Feb. 20.—While the current report that the aggregate sum of the British civil list will not be changed in the new reign is probably correct, says the Tribune's London correspondent, it does not follow that the court of Edward VII. will not have more money to spend than Queen Victoria's court.

The civil list is capable of considerable manipulation. Queen Victoria had a smaller aggregate than King William IV., but the civil list was reduced from various charges and she had a larger amount available for the maintenance of the royal household. The revision of the civil list will yield similar results for the king's benefit, without a larger appropriation for the general expenditures of the court.

Queen Alexandra's allowances will be largely increased and there will not be any opposition by the commons to the proposals for her benefit. The annuities for the Duke of Cornwall will be equal in amount to those received by his father as Prince of Wales.

### LYNCHING IN ARIZONA.

Desperate Negro Hanged for Series of  
Offenses.

ST. LOUIS, Feb. 20.—A special to the Post-Dispatch from Mena, Ark., says: A mob of eight determined men took the city jail at 1 o'clock this morning and hanged him to a tree. The crime of which Berryman was accused was an assault on a 12-year-old girl, whose condition is critical.

The masked men met Night Officer Jones and compelled him at the point of guns to hand over the keys and his revolver. Two of them were left to guard Jones, while the others went to the jail and secured the negro. About 2 o'clock they returned where the officer was being guarded and gave him his keys and gun. Then the men quietly disappeared, without a word.

About two months ago the negro attacked an engineer with an ax, nearly killing him, and he has been guilty of numerous other offenses. Prompt action was taken by the authorities, but no clue has been found as to who are the members of the mob.

### NEUTRALITY FAVORED.

Colonel Haines Does Not See Any Advantage in the Fortification of  
the Nicaragua Canal.

NEW YORK, Feb. 20.—"The Isthmian Canal" was the subject of discussion

at a meeting of the American academy of political and social science at Philadelphia last night. Prof. Emory R. Johnson, of the University of Pennsylvania, a member of the canal commission, spoke upon "The Economic Aspects of the Isthmian Canal Question," and Col. Peter C. Haines, of the army, upon the "Isthmian Canal From a Military Point of View." Colonel Haines is quoted in a special to the Tribune as saying:

"An Isthmian canal, to be of service to the United States, presupposed that passage of it, through it and from it in case of war with a strong naval power could only be maintained by a strong naval force. If the canal bridled with guns from one end to the other, it would be of no use to the United States while a powerful hostile fleet dominated the Caribbean sea. The nation that controls the adjoining seas will, in time of war, control passage through the canal, no matter which one has possession."

"From a military standpoint, the canal is valuable only as a shortened line of communication. It has no other value. It does not serve as a good base of operations in a war with a strong naval power. No prudent naval commander would hold his fleet in Lake Nicaragua or Lake Bohia to spring out on the foe in either ocean as has sometimes been suggested. If our enemy be weak, it would not be necessary; if strong, the dangers of being bottled up are too great."

"Suppose, on the other hand, the canal were neutral. It would not then become a prize of war. Neither the maintenance of an army to protect it nor of a fleet to keep open communication with it would be necessary. Great Britain might possibly send ships through it, but even that is doubtful. The most that could be gained by doing so is a saving of time. Under some circumstances this might be an important matter. But the naval preponderance of Great Britain is such that time would be of less importance to her than to us."

"It is believed in consideration of the freedom of the canal extended by the United States to the ships of all nations, those nations would agree to an arrangement by which the region of the canal and large areas of the sea at each terminus should be exempted from the operations of war. The larger these areas of neutrality the better should such an arrangement be viewed by any nation that is a party to it. The United States could destroy the canal if necessary so as to render it impossible of being used against us. As no nation except Great Britain would wish to use the canal for any other than peaceful purposes of commerce, and as she probably would have no strong reason for using it in any other way, it is not seen why such an agreement might not be made."

### DECREASE IN MINISTERS.

President of Princeton Theological Seminary Says Young Men Are Taking  
Up Other Lines of Work.

NEW YORK, Feb. 20.—Much discussion has been caused among theologians by the report of the decrease in attendance at the Princeton Theological Seminary. Interest was heightened by the belief prevalent in Princeton that the conservatism of the old Presbyterian institution was responsible for the marked falling off in attendance.

It was pointed out that while the number of students at the Princeton Seminary had decreased from 264 in 1895 to 196 in 1900 and from 196 to 154 this year, there had been no falling off in the attendance at the Union Theological Seminary, where conservatism has been less conspicuous and where liberality of thought has been tolerated to a marked degree. From this condition it is deduced that an inclination to broader views exists among the theological students of the present day.

The Rev. Dr. Benjamin B. Warfield, president of the Princeton Seminary, declared last night that such a conclusion was not warranted by the facts. He also made the rather startling statement that the decreasing attendance at the Princeton Seminary was only in proportion to the decrease in all other Presbyterian seminaries. "There has been," Dr. Warfield said, "a decline in the candidates for the ministry since 1896 throughout the Protestant world, most marked, probably, in Scotland, where it has created a great deal of discussion and promises to affect a great deal of distress. It has created all the churches in America, the Presbyterian church along with the others, but not to the same extent as some others."

"As all the seminaries are dependent upon the candidates for the ministry for their student body, they all feel the decline in the number of candidates. Princeton Seminary feels it along with the others, but not to any great extent. It continues to have the largest number of students of any of the Presbyterian seminaries."

Dr. Warfield attributes the decrease in the number of theological students to the industrial development of recent years, together with the many recent opportunities for entering the military service.

### PULP MILLS COMBINE.

Large Company to Be Formed at Toronto by Union of Small Companies.

NEW YORK, Feb. 20.—A special to the Times from Montreal says:

There are prospects of great activity in pulp and paper manufacturing in Canada during the coming season. Smaller companies in the province of Quebec and Eastern Ontario are to be amalgamated into one large company.

The Consolidated Pulp and Paper Company, of Toronto, limited, incorporated under the Ontario companies law, is about to seek incorporation of the companies act of the Dominion government, with a capital of \$1,500,000 with the power to increase it to \$3,000,000 if necessary.

The properties to be consolidated immediately are those at Newburg and Stratheona, Ontario, the Metabetchouan property at Lake St. John, and the Indian Lorette mills near this city. On the Metabetchouan property are good pulp mills, with a capacity of eighty tons per day and a sulphite mill with a capacity of sixty tons per day will also be rebuilt.

The provisional directors of the company are: J. M. Poole, Toronto, president; W. H. Mackay, Toronto; E. L. Young, George Thompson, Newburg, Ontario; and J. H. Charles, Perth, Ontario.

### CUBAN RESENTMENT.

Constitutional Convention Will Probably  
Refuse Concessions to America.

NEW YORK, Feb. 20.—A dispatch to the World from Havana says:

The resentment of the Cubans against American interference with the formation of a government has unquestionably been increased by the demands made by Secretary Root. The military governor's newspaper organ now admits that the constitutional convention will probably refuse the concession of coal-mining stations and will also reject American supervision of foreign affairs.

For a whole year I could do no work and walked only by holding on to a chair. I doctored with four different physicians but received no relief. The use of two bottles of Dr. Fenner's Kidney and Backache Cure gave me a perfect cure.

GENEVA, Crawford Co., Pa., June 18, 1900. Three years ago I had a severe attack of Erysipelas and blood poison, breaking out on my head and face. My physician attended me for several months without result. I then took a bottle of Dr. Fenner's Blood and Liver Remedy and Nerve Tonic and secured a complete cure.

My wife has suffered long with dyspepsia. I tried all of the popular preparations and all of my own prescriptions without avail. I finally prescribed Dr. Fenner's Dyspepsia Cure and the use of it effected a cure. Many other similar cases that have come under my observation have been cured by his Dyspepsia Cure.

My Dear Dr. Fenner, Fredonia, N. Y. I have used Dr. Fenner's Golden Relief for many years for all the ills and accidents for which it is advertised and have found it fully equal to all you claim for it.
