The various senatorial deadlines which have wasted a great deal of valuable time and been a prolific source of corruption in half a dozen legislatures during the past few months will have one good effect at least. They will hasten the day when United States senators will be elected by direct vote of the people.

President McKinley is reported to be in favor of a protectorate over Cuba. It is the ideal relationship for America to bear to Cuba, and the Philippines as well, when the latter have learned to recognize American authority. But the ideal is not always the practical. The prevailing sentiment in Cuba seems to be adverse to American interference in any degree in Cuban affairs and, as soon as the responsibilities which America assumed in displacing Spanish rule can safely be entrusted to Cuban hands, we are bound to withdraw, accepting the best terms which Cuban gratitude will offer. The longer we hesitate and the more we talk about demanding imaginary rights and privileges, the less will we be able to legitimately gain anything of advantage to ourselves. There was a time when Cuba owed us a debt of gratitude which the most liberal concessions its people could offer us would be insufficient to repay. That debt decreases in the same proportion in which America shows any inclination to trade upon what was claimed to have been done in the interests of suffering humanity in the form of "bleeding Cuba." A protectorate would be to our advantage as well as of immense value to Cuba. The Cubans should be made to see the latter point, not in an offensive way but in a way calculated to win their assent to the proposition.

FREQUENT COUGHING
inflames the lungs. Foley's Honey and Tar stops the coughing and heals the lungs. The ordinary cough medicines which are simply expectorants, will not do this, as they keep the lungs irritated in throwing off the phlegm. CHAS. ROGERS, Druggist.

The first bottle gave immediate relief and three bottles cured me permanently. I gladly recommend this wonderful remedy." CHAS. ROGERS, Druggist.
