SERIOUS RIOT IN PORTO RICO

(Continued from page one) Today there has been no further demonstration. Governor Allen deplors the unfortunate occurrence, especially the action of the artillerymen. Corporal Hiscock has been placed under arrest and is now in the guardhouse. It is probable that he will be tried as a mutineer. The teachers who have been questioned on the subject have made statements agreeing with those of Superintendent Armstrong to the effect that the riot was not planned.

NEW RAY DISCOVERED. Nikola Tesla Does Not Believe That It Will Be of Much Use.

NEW YORK, March 8.—Discussing the discovery in Berlin of the Becquerel ray, reported to the state department at Washington by the U. S. consul at Berlin, Prof. Nikola Tesla says: "I am aware of the Becquerel results and also of the discoveries occurring with respect to the properties of uranium. These discoveries in presenting the results at that time conjectured that some other element might be responsible for the phenomenon observed. I do not believe that this discovery will be useful in wireless telegraphy. As a matter of fact, I think that telegraphy with rays in general is of little practical value. The Hertzian telegraph will soon be abandoned, as experiments have shown it to be limited to short distances and that, for other reasons, it is incapable of a valuable application for practical commercial use."

PARLIAMENT DISRUPTED. Liberal and Irish Leaders Give Their Views on the Recent Display of Force.

NEW YORK, March 8.—Sir Henry Campbell, Liberal leader of the house of commons, and Mr. John Redmond, the leader of the Irish party, discussed the recent scenes in the house in special dispatches to the Journal and Advertiser. The Liberal leader says: "Many circumstances of our life and condition of society rest upon physical force, which is a rather humiliating fact. The rules of the house of commons, which usually work so quietly, equally rest for ultimate authority on force. It seems to me that the display of force the other night was repulsive to the feeling of everyone of us and certain not to add to the dignity and credit of the house."

EL PASO, Tex., March 8.—Two men were killed outright and three injured so badly that they will die, by a heavy explosion of dynamite at a quarry near this city. All were Mexicans except the foreman, Charles Shelly, who came here two years ago from San Antonio. He was injured about the head and body and cannot live.

RENOVATION OF PALACES. English Period of Mourning Being Taken Advantage of.

NEW YORK, March 8.—A new reign in England is the signal for the renovation of the palaces, says the Tribune's London correspondent. All the town and country palaces belonging to the crown will be repaired, decorated and improved during the period of mourning, at the expense of the state. Many changes will be made at Windsor, and Buckingham Palace will be transformed internally. The gardens will need but little attention. Another year and royal garden parties will be frequent and it is not unlikely that drawing rooms will be in the evening, not in the afternoon.

INDIANS ARE RESTLESS. Uneasy Because of Absence of Commissioners at Chicago Show.

CHICAGO, March 8.—Messages have been received by the management of the international forest, fish and game show, telling them that the Navajo Indians, in New Mexico, are becoming restless because of the absence of two or three of their number, who are attending the exhibition. The train dispatcher at Thoreau, N. M., telegraphed that the Indians must be returned to the reservation by March 16 or there would be trouble.

THREE MURDERERS HANGED. Little Rock, March 8.—Kibby Graves, Bill Johnson and Henry Brooks, negroes, were hanged at Richmond, Little River county, today for murder.

REWARDS FOR BRAVERY. Promotions and Medals for Men Who Distinguished Themselves in the Orient.

NEW YORK, March 8.—A Washington dispatch to the Herald says that adequate rewards will be given by Secretary Long to the officers who distinguished themselves in China, the Philippines and Samoa. Captain B. H. McCalla, who figured in the Seymour expedition for the relief of the besieged legation in Peking; Captain John T. Myers, who commanded the American legion guard in Peking; Major L. T. Waller and many

junior officers will be advanced in their respective grades. Other officers of the navy will receive letters of commendation. Marine officers will be rewarded in a like manner. The enlisted men will be remembered and it is intended to confer medals of honor upon those who distinguished themselves, which carry with them gratuities of \$1500 each.

THE QUESTION OF REWARDS TO BE GIVEN OFFICERS HAS RECEIVED THE SERIOUS CONSIDERATION OF A BOARD OF OFFICERS, OF WHICH ASSISTANT SECRETARY HACKITT IS CHAIRMAN. THE BOARD ORIGINALLY SUBMITTED A SCHEME OF PROMOTION WHICH CONTEMPLATED THE CREATION OF FOUR MEDALS OF THE REPUBLIC, THE JOHN HANCOCK MEDAL, THE FARRAGUT MEDAL AND THE CAMPAIGN MEDAL.

SECRETARY LONG DESIRED, HOWEVER, TO REWARD OFFICERS AND MEN WHO HAD DISTINGUISHED THEMSELVES IN ACTION AND DIRECTED THE BOARD TO CONSIDER THE SERVICES OF EACH MAN AND TO RECOMMEND THE REWARD THAT COULD BE AWARDED THEM UNDER EXISTING LAWS.

SOW HALF MOURNING. English Shopkeepers Still Compelled to Lose Through Carrying Unsuitable Goods.

NEW YORK, March 8.—The period of half mourning for the public for the death of Queen Victoria has opened in Great Britain, says the Tribune's London correspondent, but this half mourning does not relieve the tradesmen and small shopkeepers, who are carrying stocks virtually unsalable. As the jeweler's trade has been brisk since the death of the queen, it is a fair inference that Vanity Fair has been brightening up its mourning costume by the use of gems. The fashionable restaurants are filled nightly with smart people and court functionaries lead the way in entertaining small dinner parties.

ONE CURIOUS RESULT OF THE PERIOD OF MOURNING IS THE GREAT ACCESS OF POPULARITY OF THE GAME OF "BRIDGE," WHICH IS NOW PLAYED IN NEARLY ALL FASHIONABLE HOUSES. ONE SOCIETY PAPER EVEN STATES THAT THE KING TAUGHT THE EMPRESS FREDERICK HOW TO PLAY THE GAME WHEN HE VISITED HER. BUT THE ROYAL EXAMPLE WAS NOT NEEDED FOR THE GENERAL INTRODUCTION OF THIS SPECIES OF DUMMY WHIST.

SAN DIEGO, Cal., March 8.—The will of Thomas Potter, late of South Bend, Wash., who died suddenly in this city last month, will be contested by his stepson, Wm. A. Potter, of San Francisco. The will leaves the latter one dollar, the rest of the property being bequeathed to Miss E. M. Chapin of this city, "whom," Mr. Potter says in his will, "I hope soon to make my wife."

MISS CHAPIN IS AN ARTIST SIXTY-THREE YEARS OLD. THE DECENATED WAS A YOUNG GIRL. YOUNG POTTER'S GROUND OF CONTEST IS UNDE INFLUENCE. THE WILL WAS EXECUTED THE DAY BEFORE MR. POTTER, SR., DIED.

CONDITION OF KAISER. He Wired Prince Henry That He Looked as Though He Had Just Come From China.

BERLIN, March 8.—The following bulletin was issued this morning: "The Kaiser's condition yesterday was satisfactory. His majesty slept well last night, and when the bandage was changed his wound presented no inflammatory symptoms. There is some swelling of the right eyelid and cheek. He has no fever." "LEUTHOLD," "BERGMAN," "TLBERG."

HARRISON VERY ILL. Troubled With Complication of Grip and Neuralgia.

INDIANAPOLIS, March 8.—Ex-President Harrison is a very sick man and his closest friends are alarmed. His condition is more serious than is generally believed. However, Dr. Jamison said today that there was no immediate danger and in fact he was not alarmed as to the outcome. General Harrison is troubled with a complication of grip and neuralgia, and there is some fear that this will develop into pneumonia.

MARCH, APRIL AND MAY!

Paines Celery Compound the Best Spring Medicine in All the World. Purifies the Blood as Nothing Else Can Do, Makes Strong Nerves, Cures Disease!

There is but one spring medicine that never fails. Paine's celery compound is a physician's remedy, and all schools of physicians prescribe it. It is guaranteed by thousands of men and women whom it has benefited. It has saved the health and lives of hundreds of sufferers in every community. It is the only specific known for diseases arising from a debilitated nervous system and impure blood. Again and again it cures when every other means fails. It is as far in advance of the ordinary will meaning but useless sarsaparillas, nervines and tonics, as a finely adjusted chronometer is superior to the dummy clock on a jeweler's signpost. One is the finished product of brains and scientific skill, while the other is a bungling imitation. This is why the demand for Paine's

celery compound as a spring medicine so far exceeds today the demand for all other remedies put together. Paine's celery compound, taken during the early spring days, has even more than its usual remarkable efficacy in making people well. It makes short work of all diseases of debility and nervous exhaustion. It rapidly drives out neuralgia, sleeplessness, dyspepsia, and rheumatism from the system. It removes that lassitude or "tired feeling," which betokens weakened nerves and poor blood. Overworked and tired women are but one class of persons who are in urgent need of the wonderful remedy to make and keep them well. Business men who are not sleeping soundly, shop girls made pale and sickly by long hours of indoor work, and the countless sufferers from dyspepsia, kidney and liver trouble, need the invigorating effect of Paine's celery compound now that spring, with all its dangers, is at hand. Its pre-eminence as a health-maker comes from its extraordinary powers of supplying appropriate nutriment to the blood, nerves and brain. There isn't a family so rich or so poor as to afford to be without a bottle of Paine's celery compound in these early spring days, when the human system needs every assistance to carry it through the depressing effects of the season when nature makes it easiest to replenish the blood with new, healthful material, and feed the nervous system with strength for future work. What Paine's celery compound has done for thousands of others it will do for the reader, and once this great medicine is given a trial, another person will be added to the multitude who praise its wonderful virtues.
