

SUICIDE OF AN EX-CONGRESSMAN

In Alaska Transportation Business at Seattle.

FORMERLY OF MINNESOTA

Meivin R. Baldwin Shot Himself Through Brain Because of Business Reverses and Depressing Effects of Attack of Grip.

SEATTLE, Wash., April 16.—In a fit of despondency over business reverses, aggravated by the depressing effects of an attack of the grip, Meivin R. Baldwin, an ex-congressman from Minnesota and state superintendent of Indian affairs under President Cleveland, this afternoon ended his life by self destruction.

The ex-congressman's body was found lying on his bed in his apartments with a bullet hole through his brain at 7:30 o'clock tonight and from the condition of the body it is estimated that death had occurred fully two hours before. Tightly gripped in his hand was a 28-calibre Smith & Wesson revolver.

D. McKinley, a friend of the deceased and formerly a business associate, discovered the body as the result of a visit paid to the ex-congressman's apartments to ascertain his condition. Entering the room, McKinley spoke to his friend, the outline of whose body could be seen in the darkened chamber, and receiving no response summoned assistance only to find that Baldwin had sent a bullet crashing through his brain and lay in a pool of blood which had accumulated upon the bed-clothing and which was yet flowing freely from the wound in his right temple.

Meivin R. Baldwin, who was 62 years of age, came to this city about three years ago from Duluth, Minn., and engaged in the Alaska transportation business.

AID SCIENTIFIC RESEARCH.

Prominent Physicians Raising Funds for Encouragement of Investigations.

NEW YORK, April 16.—A committee of prominent physicians in this country has been organized for the purpose of collecting money to add to the Virchow fund. This fund was established in honor of Dr. Rudolf Virchow, the famous pathologist who since 1856 has been the director of the pathological institute of Berlin. The fund was founded in 1891 when he completed his seventieth year, to enable him to facilitate scientific research by establishing scholarships and by encouraging special medical and biological investigations. Contributions to the fund have been received from all parts of the world. On October 13 Dr. Virchow will be 86 years old. Steps have already been taken in nearly every part of the world to honor him on that occasion by swelling the fund which bears his name.

The principal committee has headquarters in Berlin. The one recently formed in this country has been designated a sub-committee. One of the members of the committee here is Dr. Robert F. Weis, president of the New York Academy of Medicine. This committee has issued an open letter to the physicians of this country, asking for contributions to the fund.

MUST MARRY HERZOG.

Otherwise Miss McComb Will Lose Part of Her Father's Estate.

NEW YORK, April 16.—It has become known that the provision in the McComb will for Miss Fannie Rayne McComb conditional on her being married to Louis Herzog appears not in the will of James Jennings McComb, father of the young woman, but in a codicil dated March 26, five days before Mr. McComb died. The codicil is in Mr. McComb's handwriting.

The clause, which has already been

printed, provides that in case Miss Fannie shall marry Louis Herzog she shall have an annuity of \$15,000. The codicil adds that on her death \$300,000 shall be divided among her children who may survive her and the issue of any child of hers who may have previously died.

The codicil does not revoke any of these questions in the will. Miss McComb is living at the country home, Eastwood, with her mother. A close friend of hers said that she was not engaged to Mr. Herzog, although he had been a frequent caller at the house. Previous to her father's death she and Mr. Herzog were often together. This friend added:

"The construction put upon the clause is that if Miss McComb marries Mr. Herzog she will receive more than twice the income that she will if she does not marry. I cannot learn whether she will abide by her father's decision or not."

The citations for the probate of the will have been made returnable before Surrogate Skillman at White Plains, on April 22.

Miss McComb, it is said, met Mr. Herzog while traveling in the South with her father. Mr. Herzog came originally from Memphis. It is said that he is the son of a prominent Tennessee family. The estate left by Mr. McComb is estimated to be worth between \$12,000,000 and \$15,000,000.

A special to the Tribune from Philadelphia says that Louis Herzog when seen at his home in that city last night admitted being the man mentioned in the McComb codicil and admitted also that he knew Miss McComb. Further than that he refused to talk.

WONDERFUL LITTLE PLANET.

Variations of Light of Eros Puzzle Astronomers.

NEW YORK, April 16.—A special to the Times from Boston says:

Eros, the little planet that has been watched so closely by astronomers lately on account of its nearness to the earth, has recently taken an additional interest. Until within a short time Eros has been observed simply on account of its position, by means of which it is hoped to determine more closely the distance between the earth and the sun. This spring the planet has shown marked changes in light and is the first of the asteroids in which variation of light has been firmly established.

It has been found by the Harvard observers that the intensity of the light changes sometimes two or three times in as many hours. This is accounted for in two ways:

Some astronomers think that one side of the planet is dark and the other side light and that as it revolves first the light and then the dark side is presented to the watchers on earth; other observers, and especially those in Europe, believe the planet is double and that the two spheres so revolving around each other first present their combined light and then only the light of one. The planet is believed to revolve in five hours.

HEIR IS MISSING.

Quarter of a Million Dollars Left Englishman Who Is Supposed to Be on Puget Sound.

SAN FRANCISCO, April 16.—The Examiner says: Those of this city will leave today for Seattle in search of C. J. or John H. Barnett, the Englishman for whom a fortune is waiting in England. Steele is positive that he can find the missing heir who, he says, was his old comrade in the Puget sound country and in Alaska.

Barnett has fallen into a fortune of about a quarter of a million dollars through the death of a brother in the Boer war. A check for \$5000 is in the hands of William J. Seymour, of Tacoma, to pay his expenses back to England.

"Doubtless Captain C. J. Barnett is meant in the dispatches," said Steele. "Last fall he was living at the Queen's Hotel, Seattle, and is well known there and in Skagway."

Seymour thinks that Barnett is at Redding, Cal.

BUTTERFIELD MAY RECOVER.

General Is Regaining Use of Paralyzed Limbs.

NEW YORK, April 16.—Dr. Frederick A. Castle said last night that General Daniel Butterfield was better and was recovering the use of the lower extremities on the right side which had been attacked by paralysis. His mind was perfectly clear and he was resting comparatively quiet. Dr. Castle said there was no immediate danger, although the general's condition was serious. There was nothing, however, in his condition to lead the doctor to think there would be a fatal issue soon.

General Butterfield, in Dr. Castle's opinion, would probably recover with a partial loss of power on his right side.

OPENING OF RESERVATIONS.

Large Number of Persons Camped Along the Borders.

CHICAGO, April 16.—A special to the Tribune from Ardmore, I. T., says: A number of persons are camped along the borders of Kiowa and Comanche reservations awaiting official permission to enter. It is conservatively estimated that not one person in ten will be able to secure free lands. The suggestion of the interior department to adopt the lottery plan is generally favored by the boomers. Much complaint is being made to government officials to the effect that schemers are selling alleged homestead lots. Notice of the fraud is being called to the attention of the prospective settlers.

BIG LOCOMOTIVE COMBINE.

All Companies East of Mississippi to Be United.

NEW YORK, April 16.—The World says:

Negotiations are said to be in progress for the purchase of the Cooke Locomotive Works in Paterson, N. J., by a syndicate headed, according to report, by J. Pierpont Morgan, John D. Rockefeller and leading men in the billion-dollar steel trust. The Cooke Company has one of the best equipped locomotive-building plants in the country.

Negotiations by the syndicate to secure the Cooke plant are said to be the initial step in the formation of a locomotive combination which will be closely allied with the United States Steel Corporation. It is reported that the syndicate proposes to absorb all the locomotive building companies east of the Mississippi and that negotiations are in progress for the purchase of the Baldwin Locomotive Works at Philadelphia, the Schenectady Locomotive Works and the Portland Locomotive Works of Maine.

It was said yesterday that the deal with the Cooke had been perfected, but Charles Cooke, head of the company, denied last night in Paterson that the sale had been made. He admitted that negotiations had been going on for four weeks. The price offered is said to be \$1,500,000 and the Cooke family intimated last night that such a sum would be considered.

Fifteen hundred men are employed by the Cooke and the shops are going night and day. The company has been so busy that the furnaces have not been cool for months. Orders are far in advance of the capacity of the plant and the works will have to be kept running night and day for several months. At the office of J. P. Morgan & Co. it was denied that the purchase of the Cooke Works had been made.

TRAINMEN GET HEARING.

Central Railroad of New Jersey Grants Concessions to Employees.

NEW YORK, April 16.—It was stated last night that the trainmen employed on the Central Railroad of New Jersey will have a hearing on giving two days' notice to the officials and that the settlement of the demands of the engineers and firemen last week will pave the way to a speedy settlement of the trainmen's demands. The yard men who are members of the Brotherhood of Railway Trainmen have already received an advance of wages, so that only a section of the trainmen are dissatisfied with present conditions. No action of any kind has been taken by the company, as far as could be learned yesterday, regarding the telegraphers and when the trainmen settle their difficulties with the company it will wind up the conferences between the labor men and the officials for the present.

OPHIR LEAVES COLOMBO.

Duke and Duchess of Cornwall and York en Route for Australia.

COLOMBO, Ceylon, April 16.—The Duke and Duchess of Cornwall and York boarded the steamer Ophir en route for Australia at midnight last night, arriving from the queen's house through streets filled with enthusiastic crowds. The governor bade them farewell at the jetty, which was illuminated. Massed bands played the national anthem.

Early this morning the escorting warships went out from the harbor and the Ophir followed at 9:15 o'clock. The weather was superb. A battery saluted as the vessels passed out and their salute was responded to by the escorting vessels. The Ophir assumed the lead of the fleet and the vessels soon disappeared below the horizon. Large crowds witnessed the departure from the breakwater. All the vessels in the harbor were decorated with flags.

BIG COPPER DEAL.

Boston and Montana Copper and Silver Company and Butte and Boston Mining Company to Be Absorbed by Amalgamated Copper Company.

NEW YORK, April 16.—The Tribune says:

It can be announced on the best of authority that all preliminary arrangements have been made for the acquisition of the stock of the Boston & Montana Copper and Silver Company and the Butte & Boston Mining Company by the Amalgamated Copper Company. Rumors of the impending deal have filled the air of Wall street for several days, but it was not until last evening that details of the project became known.

The proposition now made is that

Kodol Dyspepsia Cure
Digests what you eat.

This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for all stomach troubles.

It can't help but do you good
Prepared only by E. C. DeWitt & Co., Chicago.
The bottle contains 24 times the dose.
CHAS. ROGERS, Druggist.

stockholders of the Butte & Boston deposit with the authorized trustees 135,000 shares of the outstanding 200,000 shares. These shares are of the par value of \$10 and will be exchanged for Amalgamated stock or paid for in cash at \$22.50 if the deal goes through. Ten days from April 25 will be allowed in which to carry out the plan.

In the case of the Boston & Montana, a deposit of 100,000 shares is required out of a total of 150,000 outstanding of a par value of \$25 each. These shares are to be exchanged for Amalgamated shares or for \$375 in cash if the deal is accomplished within ten days.

There is a general belief among those well informed on the copper situation that the foregoing plans are only preliminary to a much larger expansion of the Amalgamated Company, which aims to take in, eventually, the rich mines of northern Michigan and Arizona as well as those of Montana. This would give the company a practical control of the copper situation in this country with the exception of the Hecla holdings in Butte. Senator W. A. Clark and his sons are believed to be in the new deal.

STRICT RUSSIAN CENSORSHIP.

Nothing Printed in Russian Language Can Be Circulated Without Government Approval.

WASHINGTON, April 16.—Incendiary matter has been circulated in every form in Russia, hence the officers censor everything that is printed as rigidly as they did a century ago, says Consul-General Holloway at St. Petersburg in a report to the state department advising American exporters upon the preparation of advertising matter to be circulated in Russia.

Several American exporters have had their advertising matter refused admission upon arrival in Russia because they had not complied with the Russian laws regarding censorship of the press, which states that everything printed in the Russian language must receive the approval of the chief of the committee on censorship before it can be admitted or circulated in Russia. A petition should be addressed to Count Mouraviev, who occupies the position referred to, describing the character of the publication and its purpose, enclosing two copies of the matter and asking for permission to admit and circulate the same in Russia. This petition, says Mr. Holloway, will be more likely to receive attention if written in the Russian or French language.

AUTHORITY DENIED.

Chicago Presbyterian Minister Resigned Without Permission of Presbytery.

CHICAGO, April 16.—The Chicago Presbytery was thrown into confusion by a direct denial of its authority or jurisdiction over its members. The Rev. Rollo R. Stevens resigned after the Presbytery had taken a vote refusing him permission to resign from the ministry. He later withdrew his resignation to await judicial action.

Pointed speeches were made on both sides. The Rev. Mr. Stevens contended that a man had the right at any time to leave the ministry. Such action Dr. Herrick Johnson characterized as "most extraordinary." He recalled the rule of early days that only crime or death released a minister from his calling.

Mr. Stevens left the ministry, without consulting the Presbytery, to accept a position with an insurance company.

The judicial committee to whom the matter was referred will report next Monday.

CHICAGO BENCH SHOW.

Large Number of Entries and Prizes Are Valued at Over \$10,000.

CHICAGO, April 16.—Members of the Mascoutah Kennel Club are elated over the large number of entries which have been received from the bench show to be held at the First regiment armory from May 1 to 4, inclusive. Indications are that the exhibition will be the largest ever given under the auspices of the club. The entry list closed at midnight last night but as all entries bearing a postmark of yesterday will be accepted it will be several days before the list will be completed.

In the aggregate the cash prizes and premiums offered to the exhibitors are valued at more than \$10,000. There are seventy-seven silver cups to be contested for, as many gold and silver medals, a large number of bronze medals and \$4500 in cash prizes. Fifty-three classes are provided for in the entry list.

CABLE CHESS MATCH.

American and English Players Have Been Selected.

LONDON, April 16.—J. H. Blackburne will be unable to play in the forthcoming cable chess match between Great Britain and the United States, represented by the British Chess Club in London and the Brooklyn Chess Club in the United States. Accordingly the British Chess Club has substituted Mr. T. F. Lawrence. The other players on the British side will be the same as already cabled.

The president of the Cambridge Chess Club announced today the following list of players for the inter-university match:

Oxford—G. H. Ellis, Lane, G. F. Babcock; reserve, H. F. Davidson.
Cambridge—E. L. Coleman, C. Wiles, H. A. Webb; reserve, F. W. Clark.
The privilege is reserved to make final changes on the day of the match.

GAINSBOROUGH PORTRAIT.

It Is Now Reported That Stolen and Restored Picture Is Not a Gainsborough.

NEW YORK, April 16.—Henri Pene Dubois cables from London to the Journal and Advertiser that the painting known until its recovery lately as the stolen Gainsborough is not a Gainsborough. He says:

"The original portrait is not of Georgiana, the beautiful Duchess of Devonshire, but of her friend, Lady Betty Foster, who married the duke after the death of the most celebrated duchess."

Another says the picture is not a portrait of any Duchess of Devonshire. "It was the property in 1841 of a Miss Annie Maginnis, a school mistress who gave it for sale to John Bentley, a dealer, who sold it for \$350 to Mrs. Winn Ellis. The Winn Ellis collection was sold at Christie's in 1876. There the portrait appeared for the first time as Gainsborough's Duchess of Devonshire. Miss Annie Maginnis had always said it was a portrait of one of her relatives. It was a full length portrait but she cut off the legs in order that the canvass with its frame might be fitted over a mantel piece.

"Bentley referred to the picture as 'the blue lady' because of the color of its petticoat and sash. Bentley's daughter said 'when it was alleged at Christie's that it had suffered in restoration, that the cheeks were too red. The critics then said the original work might have been begun by Raphael or by Velasquez.'"

"Winn Ellis was not an infallible art lover."

HAD ROUGH VOYAGE.

Many Sailors Injured on Japanese Liner Nippon Maru.

SAN FRANCISCO, April 16.—Reports have been received that the steamer Nippon Maru, which sailed from this city for the Orient on February 19, had an exceedingly rough experience at sea. Hurricanes prevailed during almost the entire voyage. Great waves carried away much of the lighter gear forward.

On one day four Japanese sailors were injured by waves, one of them having two ribs fractured, the bones penetrating his lungs and causing probable fatal injuries. The following day two more Japanese were knocked down by boarding waves and seriously bruised.

On March 5 the seas were breaking over the bridge and waves were boarding the big steamer fore and aft. On March 3, the day before reaching Yokohama, the iron rail on the port side of the saloon deck was carried away.

One of the passengers from San Francisco was John Goodnow, consul-general to Shanghai.

CHANGE IN MANAGEMENT.

Head Office of Mexican Central Railroad Will Be Removed From Boston to New York.

NEW YORK, April 16.—The Times says:

A broker connected with the Stow interests in the Mexican Central Railroad Company announced that those interests held about 255,000 shares out of the total 480,000 of that company and that they will effect a change in the management of that road at the annual meeting on May 1. In addition to this it was stated on the same authority that the head office of the company will be removed from Boston to this city.

In reply to a question as to the future of the road and whether it would be operated in conjunction with any other system, the broker said that that had not been determined yet, adding "there is another road going into El Paso as well as the Rock Island. People don't realize it but this is a day of surprises."

The efforts of President Robinson and others to obtain sufficient proxies to control the annual meeting have ended, it was said, and that new interests were now in a position to take hold of the management of the property.

SITUATION MISREPRESENTED.

Senator Platt Thinks Newspapers Have Exaggerated the Anti-American Feeling in Cuba.

NEW YORK, April 16.—Senator Dr. Platt, of Connecticut, author of what is known as the Platt amendment relating to Cuba, is at the Murray Hill Hotel. In an interview last night he said:

"The real essence of the proposition of this government is that the Cubans recognize the right of the United States to maintain the independence of Cuba and the stability of its government. That right once recognized by the Cuban constitution, there will be no trouble about the enforcement. All will be plain sailing.

"The property owners, who are the conservative classes in Cuba, almost unanimously desire the protection of this government; those opposed to it do not count for much.

"Most of the people in this country do not understand the real feeling in Cuba. The news reports from Havana have been very conflicting. They are almost as untrustworthy as the dispatches from China last year about the Boxer troubles.

"A few days ago the Platt amendment was reported defeated in the Cuban constitutional convention by a vote of 24 to 24. A little later the vote was given as 15 to 15. As a matter of fact final action has not been taken.

"In reality little interest is manifested in Cuba in the convention. Many people there have not even heard of it. The property owners took very little

interest in the election of delegates, believing that in any event the American government would protect them and their property. No interest was shown by the large colored population in the convention. Many of the delegates have no interests at stake but want to figure as patriots. Some of the members are old revolutionists, officers in the insurgent army and lawyers, while some are more adventurers. Some of them seem to think that the Spanish yoke having been thrown off, they ought to come in and take possession.

"Yet one-third of the members of the convention are friendly to the United States and appreciate what we have done and what we intend to do for Cuba; another third is hostile to America and the balance is indifferent. It is the members of the hostile element who are making all the noise and attempting to create a belief that Cubans do not want this government. They are misrepresenting the facts. The two most important elements of the Cubans—the property owners and the working men—heavily favor the proposals of the United States and rely on the continued existence of our government.

"In the course of time all Cubans will accept the overtures of the American government in letter and spirit, unless the agitators convince the people we are oppressing them, something I believe they will not succeed in doing."

SHERIFF SHOT FROM AMBUSH.

Big Party of Officers in Pursuit of Arizona Assassins.

PHOENIX, Ariz., April 16.—Sheriff Ed Beeler, of Apache county, well known throughout the Southwest, was ambushed and killed in a fight over a month ago. News of the bloody fight has just reached here.

Beeler fell mortally wounded by a volley from behind a stone wall. At first it was believed that Beeler was the victim of cattle rustlers, against whom he had made a long and bitter warfare, but later it developed that they were friends of a man whom Beeler had killed who had sworn to avenge his death. The friends of both dead men are up in arms and more fighting is likely to follow. A big party of officers and Beeler men are in pursuit of the assassins.

PLOT TO KILL KAISER.

Delegate Sent From Buenos Ayres Anarchist Club.

NEW YORK, April 16.—A dispatch to the Journal and Advertiser from Berlin says:

The entire body of German police, especially those stationed at airport towns, and the Berlin political police are eagerly watching for an anarchist named Romagnoli. It has transpired that Romagnoli, who recently lived in South America, is now on his way to Germany intrusted by the Buenos Ayres anarchist club with the task of assassinating the kaiser. Romagnoli so far has evaded the police. It is conjectured that he left the ship at some intermediate port.

CARGO GIVES TROUBLE.

Wreckers Find Difficulty in Raising the Submerged Transport Hawilo.

NEW YORK, April 16.—Forage in the hold of the submerged Hawilo is giving trouble to the wreckers who are trying to raise the transport out of the mud of the East river bottom. Several hundred bushels of grain and as many bales of hay and straw for the army in Cuba and Porto Rico have swollen so that the divers at work have difficulty in moving them. The Hawilo was sunk at her pier last Wednesday in an attempt to extinguish a fire in her hold amidships.

NEW BATTLESHIP RETURNS.

Wisconsin Displayed Excellent Qualities on Her Maiden Cruise.

SAN FRANCISCO, April 16.—The new battleship Wisconsin has returned from her maiden cruise. She went to Magdalena bay for target practice. Captain Reiter, her commander, speaks highly of the vessel's sea-going qualities and of the good marksmanship with the big guns displayed by the men.

HORRIBLE MINE DISASTER.

Twenty-six Natives Killed in the Transvaal.

JOHANNESBURG, April 16.—In the Transvaal colony a cage filled with natives fell down a deep shaft of the Goldens mine. Twenty-six natives were killed.

INVESTIGATE RICE-GROWING.

Expert Will Be Sent to the Orient by Department of Agriculture.

WASHINGTON, April 16.—Secretary Wilson has decided to send out an expert to scour the rice-growing countries of the world and to thoroughly investigate important matters connected with the industry. This mission, which is to stretch into the civilized and uncivilized parts of the world, probably will be entrusted to Professor Knapp, of Louisiana, who returned about a year ago from an official trip of investigation in the Orient. The start will be made about next July. It is proposed to hunt out the rice-growing countries, ascertain what they feed both to their beef animals and the work teams, what rice can be grown on high land that cannot be irrigated, and a host of other kindred questions.

Great success in rice-growing is reported in the rice fields along the gulf coast of Louisiana and Texas, and Secretary Wilson predicts that a year hence will witness the production in the United States of all the rice required within the country. The rice consumption per capita will increase very materially, he says.

The United States is now exporting red rice, and other second-class rice, which makes excellent food, to Porto Rico. There is good market for it there, although the second-class rice heretofore has been fed to animals or sold to brewers. Secretary Wilson believes that the future will find this country in the first rank of rice-growing countries and the coming mission to the East with a view to gathering information on the whole subject is expected to yield good results.

ANOTHER BIG BLIZZARD.

Worst Storm for Years in the Vicinity of Denver.

DENVER, April 16.—Reports from northern Colorado are to the effect that another storm has prevailed on the prairies for the past twenty-four hours and still continues. It began with a misty rain and developed into a veritable blizzard. The loss of stock will be great, as they have become greatly weakened by exposure to the storms of the past two weeks and lack of sufficient food. The snow is drifting badly and railroad traffic is being delayed. In the vicinity of Denver and on the plains the storm is described as the worst for years.

WAR VERY EXPENSIVE.

Boer War Has Already Cost More Than the Long War Against Russia.

NEW YORK, April 16.—The war in South Africa, says the London correspondent of the Tribune, has already lasted nearly as long and has cost more than that against Russia which was waged at the outset of the period of expansion such as England never experienced before and it was eleven years after the cessation of hostilities of the Crimea before the treasury, even with the aid of Mr. Gladstone's financial courage, was able to obliterate the effects of the crisis.

TO BUILD NEW THEATER.

New York Capitalists Will Erect Structure for Vaudeville Performances at San Francisco.

SAN FRANCISCO, April 16.—The Examiner says that a syndicate of New York capitalists has been formed to build a theater in this city. The proposed structure will seat 3500 persons and will be devoted to vaudeville performances. Three sites for the building have been selected by a local firm of real estate agents and one of them has been bonded. It is said that half a million dollars will be invested in the enterprise.

RE-INSURANCE ADVANCED.

SAN FRANCISCO, April 16.—The rate of re-insurance on the ship John McDonald, now out 299 days from Baltimore to San Francisco, has been advanced to 85 per cent.

WHEAT MARKET.

PORTLAND, April 16.—Wheat, Walla Walla, 57.

SAN FRANCISCO, April 16.—Wheat, December, 105½; cash, 98½.

CHICAGO, April 16.—Wheat, July, opening, 71½; closing, 70½.

LIVERPOOL, April 16.—Wheat, July, 58. 3½d.

NEW ZEALAND FIRE INSURANCE COMPANY

Of New Zealand
