AGUINALDO WILL REMAIN AT MANILA

Will Be Helpful in Completing Work of Pacification.

NEW LEADERS TROUBLESOME

Members of Secret Society Who Buried Alive Filipinos Friendly to Americans Will Be Hanged—Prisoners Being Released.

MANILA, April 20.—Aguinaldo has been removed from Malacan palace to a private residence. The guard placed over him has been modified. General MacArthur informed a representative of the Associated Press that the effect of Aguinaldo's address to the Filipinos would undoubtedly be beneficial.

Aguinaldo composed his address without assistance. The original address was in Tagalog. It was afterwards translated into Spanish. It is believed that Aguinaldo is sincerely desirous of peace.

He is not an educated man but is possessed of considerable character and improves on acquaintance. Aguinaldo is not anxious to visit the United States and it is considered best that he should remain here pending the completion of the work of pacification.

The insurgent prisoners at Olangapo will be returned to Manila. Many prisoners are released daily in exchange for guns surrendered. General Trias (who surrendered March 15 at San Francisco de Malabon) is accomplishing much in securing the surrender of outstanding insurgents.

Lachan, in Samar, Malvar, in Bantanas, and Minio, in Abra province, are still heading bands large enough to be troublesome, but it is almost certain that these three leaders will surrender in a month. Charges made against Calles have placed him in a different category but the fullest investigation will be offered Calles in case he surrenders.

It is understood that the civil government will be established soon. The precise date has not been fixed on account of administrative differences confronting the commission. It will probably be delayed until July 1, otherwise the military are ready.

Fire has destroyed Taytay in Morong province. The trial of members of the Mandocud secret society, who are charged with burying alive Filipinos who were opposed to the insurrection and the trial of the insurgent agents has elicited the fact that in one locality all the local officers, parish priest and president, were the chief offenders. A reign of terror was secretly inaugurated, and persons refusing to contribute to the insurgent cause were buried alive by the direction of the president. All the details of the conspiracy have been unearthed, many arrests have been made; there is abundant evidence and it is probable that all the ringleaders will be hanged.

TRADERS RELEASED ON BAIL

MANILA, April 20.—Rustan, Fabella, Cosmo and Webb, who are implicated with Carman in trading operations with the insurgents of Lakuna, were released today on \$10,000 bail.

MOVEMENTS OF TRANSPORTS.

SAN FRANCISCO, April 20.—The transport Thomas sailed for Manila today with 150 recruits.

The overdue transport Garonne arrived today, bringing the officers and 89 men of the Twenty-sixth volunteer infantry.

The regiment served seventeen months in the Philippines and over 400 members of the regiment have been claimed by bullets or fever.

CONTINENT AGAINST AMERICA.

Significant Utterances of Former Italian Minister of Foreign Affairs.

LONDON, April 20.—The Spectator discusses the "Continent of America," taking as a text a portion of an interview with Admiral Count Canevaro at Toulon, which the Spectator believes has not attracted the attention it deserves.

Admiral Canevaro in concluding his utterances regarding the triple and dual alliances having given Europe thirty years of peace, said:

"This fact would perhaps lead European nations to consider the possibility and necessity of uniting against America, Africa and Asia, as the future of civilization will require them to do so."

The Spectator does not consider this the rash outburst of the "man in the street," for Admiral Canevaro has been Italian minister of foreign affairs.

"His utterances," the Spectator says, "correspond exactly with that of Count Goluchowski (Austro-Hungarian foreign minister) and with all the recent trend of affairs. The annoyance of the con-

tinued with America, which is very deep is based upon three reasons, the first being the dread or rather the conviction that competition with America is nearly impossible, her wealth and energy being too great. Both are employed, the continent thinks, to monopolize trade and so to control in the end all the wealth of the world, an idea not without advocates even among ourselves."

"The Spectator mentions the giant trusts and protection and refers to the Americans as 'not scrupling to commence quick and severe reprisals if the European governments fence them off with tariffs.'"

"The second reason," the article says, "is that America is sadly in the way of Asia. The whole action of the Washington government in the Chinese middle points to the conclusion that although the Americans took the Philippines they are not willing to secure any but native powers in control of the richest countries of Asia."

The third reason is America's attitude in South America. She will neither take it nor let anybody else.

"The total result is a bitter dislike of America, mixed with dread. Our object is only to awaken the Americans from an illusion, to induce them to increase their fleet and to persuade them to think steadily on what they are doing. They may rely upon it that the continent will lose nothing by want of planning and that when the alliance against America of which Admiral Canevaro talks is transmitted into facts it will be full grown and fully armed."

NEW WORLD'S RECORDS.

Intercollegiate Games Between Stanford University and University of California.

BERKELEY, Cal., April 20.—Plaw, of the University of California, established two new world's records today in the shot and hammer events in the intercollegiate games between the University of California and Stanford University. The day was won by California by a score of 85 to 32. Five coast records were broken and one was equaled.

Plaw's records were; the sixteen-pound shot put, 42 feet 7 1/2 inches; sixteen-pound hammer (exhibition throw from nine-foot circle), 171 feet 2 inches.

The following new coast records were made: 100-yard dash, Cadogan, (California) 10 seconds flat; mile walk, Schokke (Stanford) 7:09 4-5; mile run, Service (California), 4:47 4-5; 220-yard dash, Cadogan (California), 22 3-5; high jump, Powell and Cooley (California), 5 feet 10 inches. Cadogan, of California, equalled the coast record in the 220-yard hurdle; time, 26.

PRESIDENT IS WILLING.

Will Assist in Breaking Ground for Lewis and Clark Centennial.

PORTLAND, April 20.—City Attorney Long today received the following telegram from United States Senator John H. Mitchell:

"The president assures me that he will be pleased to take part, while in Portland, in the ceremony of breaking the ground for the Lewis and Clark centennial, to be held at Portland in 1905."

GAVE HIMSELF UP.

Miller Surrenders to Spokane Police, for Murder of Collins.

SPokane, April 20.—J. A. Miller gave himself up today for killing Patrick Collins near Milan postoffice yesterday. He asserts that Collins was pursuing him with a knife and in self defense he struck Collins with a scimitar. Miller has a wife and five children.

STORM MAY CAUSE LOSS OF MILLIONS

Immense Damage in East by Wind, Snow and Floods.

HUGE STEEL PLANTS CLOSED

Tens of Thousands of Men Thrown Out of Employment—Crops Ruined—Enormous Damage to Railroads—Wires Down.

PITTSBURG, Apr. 20.—This city is the center of a widespread and disastrous storm. For a radius of 150 miles in western Pennsylvania, eastern Ohio and northern Virginia, rain or snow has been falling almost without intermission for three days. Mountain streams have become torrents, creeks are swollen out of their banks and big rivers are oceans of turbulent waters. The flood records, it is expected, will be broken before the water subsides.

The financial loss cannot be estimated. In addition to the hundreds of thousands and perhaps millions of dollars it will cost to put the large manufacturing plants in commission again, tens of thousands of skilled workmen are thrown out of employment and lose their wages just at a time when all the iron and steel mills are rushed with orders. Tonight thousands of people are lying in the upper rooms of their water-soaked houses, without heat, light or food.

The railroad officials cannot estimate the cost of repairs, but say it will be heavier than ever before in the history of the railroads running to Pittsburgh.

DEVASTATION ALONG OHIO.

CINCINNATI, April 20.—The peculiar weather conditions during the week have culminated in a rain and snow storm of almost unprecedented dimensions so distributed that a flood of the Ohio river is impending. It is too early to predict the extent of the coming flood, but all signs point to a stage of water that must bring devastation of the most serious nature all along the Ohio river and its tributaries in Ohio, West Virginia and Kentucky.

This condition is something of a surprise at Cincinnati, because while there has been rain almost every day in the week it was not heavy enough to create apprehension. But above Cincinnati, in Kentucky and West Virginia, flood rains were falling as early as Wednesday, and over a vast extent of the Ohio valley watershed it was continuous. This heavy rain served to cause a rise in the Ohio river. Until this morning it was rising all the way from Pittsburgh to Louisville.

Following these rains came the tremendous snow fall of last night, which reached from Canada to Atlanta, with its western border less than a hundred miles from Cincinnati. By its mere weight and by the force of the wind in many places, there was almost a complete paralysis of all the wires across the snow belt today.

From 12 to 15 inches of snow lies over Eastern Ohio and over the greater part of West Virginia and eastern Kentucky. This is supplemented by the heavy rain in the head waters of the Ohio today. With warmer winds the vast snow area

will melt and add to the great volume of the water.

DAMAGE TO CROPS.

LOUISVILLE, April 20.—Roaring streams, accompanied by high winds and heavy precipitation of rain and snow, were the conditions today in many of the states of the South. It is feared that in some localities the young crops have been stunted or killed by the frost or cold. At many points, particularly in eastern Kentucky, eastern Tennessee and Virginia, the temperature was lower than known in a decade at this time of the year.

The coldest section is in the Blue Grass district and around Lexington. This is the best fruit-growing part of the state and it is feared that there was damage by frost to not only the fruit but to the vegetables and tobacco crops.

TORNADO AT CLEVELAND.

CLEVELAND, April 20.—The terrific storm of wind and snow which prevailed in this city and vicinity today was one of the most disastrous to the telephone and telegraph service ever experienced here. The wind reached a velocity of more than sixty miles per hour.

Many of the streets of the city were strewn with broken poles and tangled wires. Several persons were severely shocked by coming in contact with live wires. Five or six horses were instantly killed by stepping on wires concealed under the snow.

PLAGUE REALLY EXISTS.

Report Published of Special Commission Sent to San Francisco.

WASHINGTON, April 20.—The surgeon-general of the marine hospital today made public the report of the commission appointed by the secretary of the treasury, consisting of Dr. Simon Flexner, F. H. Howe and L. F. Parker, for independent investigation of the plague in San Francisco.

The commission reports that they found physicians divided in opinion, some holding that the plague existed there and others that it did not. The commission says that, after a very thorough personal inspection, they were convinced "beyond a possible doubt," that cases of bubonic plague were occurring among the Chinese. Between February 6th and 12th they found six deaths from this cause.

END OF CHESS MATCH.

Another Tie Between the United States and United Kingdom.

NEW YORK, April 20.—After a fierce battle which lasted two days, the chess players representing the United States and the United Kingdom broke even in the sixth international match by cable. The fate of the Newnes trophy is still in abeyance.

END OF WALKING MATCH.

COLUMBUS, O., April 20.—Peter Golden, of New York, won the six-day go-as-you-please walking match which closed tonight. Golden's final score was 335.8.

WHEAT MARKET.

PORTLAND, April 20.—Wheat, Walla Walla, 58.

SAN FRANCISCO, April 20.—Wheat, December, 106 1/4; cash, 101 1/4.

CHICAGO, April 20.—Wheat, July, opening, 71; closing, 71 1/4 @ 71 1/2.

LIVERPOOL, April 20.—Wheat, July, 5s. 9 1/4d.

BIG SHORTAGE IN VANCOUVER BANK

National Examiner Finds \$81,000 Missing.

OFFICIALS ALSO DISAPPEAR

County and City Lose Heavily—Receiver Appointed—Great Excitement in City Up the Columbia—Statement of Bank's Condition.

VANCOUVER, Wash., April 20.—This city was thrown into a fever of excitement this morning by the report that the First National Bank had failed. The first intimation of the occurrence was the appearance of the following notice on the front door of the bank at the beginning of banking hours:

"This bank is closed and in the hands of the comptroller of the currency," signed, "J. W. Maxwell, Bank Examiner."

Nothing could be learned today relative to the financial condition of the concern as Bank Examiner Maxwell was not prepared to give out any statement. The heavy depositors in the bank are generally of the opinion that the failure was due to bad investments made by the officials of the bank during the past ten years and carried along as assets until discovered by the bank examiners.

Charles Brown, the president, and E. L. Canby, the cashier, have both disappeared and their present whereabouts are unknown. The failure is a heavy blow to the town. There is scarcely a man of property in the city who is not affected directly or indirectly.

The bank was established in 1883. It was a profitable institution many years, paying big dividends to the stockholders. E. L. Canby has been the cashier since its organization.

Among the heaviest losers are the following:

County Clerk Gaither, eleven thousand dollars paid into court two weeks ago by the Oregon-Washington Railroad Co., as payment for right of way; John Cander, treasurer of Skamania county, ten thousand; E. M. Scanlonian, treasurer of the city of Vancouver, thirty-six hundred.

SHORTAGE DISCOVERED.

WASHINGTON, April 20.—The doors of the First National Bank of Vancouver, Wash., were closed today under instructions from the comptroller of the currency upon recommendation of National Bank Examiner J. W. Maxwell and information from him that during the course of an examination of the bank he had discovered a shortage of about \$81,000. Examiner Maxwell has been placed in charge as temporary receiver.

Following is the statement of the condition of the bank as shown by its last report to the comptroller of the currency, under date of February 5, 1901: Capital stock, \$50,000; surplus and undivided profits, \$9874; circulation, \$12,500; deposits, \$230,973; total liabilities, \$302,548.

NEW GOVERNOR FOR OKLAHOMA.

WASHINGTON, April 20.—The president today appointed William M. Jenkins, of Oklahoma Territory, to be governor of that territory.
