

GERMANY WOULD STAY IN CHINA

Russian Prince Throws Further Light on Chinese Situation.

THEY HATE US ALL ALIKE

Powers Should Have Retired After Legations Had Been Rescued and Chinese Treated as Barbarians—Are Now in Danger.

NEW YORK, May 27.—Prince Okh-tomsky, president of the Russo-Chinese Bank, who is described as knowing the Chinese as having studied them and as having lately spent four months at Peking, is quoted as saying in the course of the interview, he said: "I did not see Count Von Waldersae at Peking, but every one there knew that he felt the uselessness of his position."

"Do they hate Germans particularly?" "No, they dislike us all about equally and no more than ever."

"Retire at once after the legations had been rescued and treat the Chinese as barbarians with whom we would have no more intercourse."

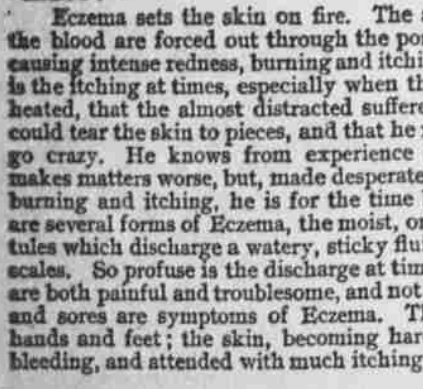

"When the season commences the legations cannot remain in the city. They have to go up to the hills. They go with a small guard of soldiers."

"The Germans do not mean to get out of China at all. That was what everybody knew who was in Peking. It was the common talk of every German there and they made no attempt at concealing the object of their mission which was to stay."

SUPERIMPOSED TURRETS.

Plan of Naval Board by Which Battleships Are Balanced.

NEW YORK, May 27.—According to a Washington dispatch to the Herald, superimposed turrets for the battleships of the Oregon class will probably not be advised by the navy board of construction.

Eczema sets the skin on fire. The acid poisons in the blood are forced out through the pores of the skin, causing intense redness, burning and itching. So terrible is the itching at times, especially when the body is overheated, that the almost distracted sufferer feels that he could tear the skin to pieces, and that he must scratch or go crazy. He knows from experience that this only makes matters worse, but, made desperate by the terrible burning and itching, he is for the time being indifferent to after effects.

DEFENDED THE CANTEN.

Dr. Dexter Addresses Large Congregation at Humboldt Park Church.

CHICAGO, May 27.—The Rev. S. B. Dexter defended the army canteen at the Humboldt Park Baptist church last night. While disclaiming any intention or desire to champion intemperance in any form, he strenuously opposed the extremists who demanded congress to pass a law which they expected would compel temperance in the army.

THE STRIKE AT NEWARK.

Larger Firms Prepared to Fight Machinists to the End.

NEW YORK, May 27.—The close of the first week of the machinists' strike at Newark, N. J., finds about 1500 idle men in Newark and its suburbs. The strikers have ceased to be as zealous as at first regarding the outcome of their efforts to compel their employers to grant a nine-hour day without decrease of pay.

PROVOKING MUCH DISCUSSION.

Wealthy Britishers Being Called Upon to Follow in Carnegie's Footsteps.

NEW YORK, May 27.—The British newspapers and reviews do not provide a more pleasant reading for the British multi-millionaires these days, the London correspondent of the Tribune thinks. Ever since the announcement of Mr. Carnegie's gift to Scotland, men of vast wealth in Great Britain have been vainly called upon to follow in the footsteps of those of America.

CLAIM THROWN OUT.

Judicial Determination of the Cause of the Destruction of the Maine.

NEW YORK, May 27.—A special to the Herald from Washington says: In order to prevent a judicial determination of the cause of the destruction of the battleship Maine, the government has taken advantage of a technicality to throw out the claim by Harry S. McCann, who was a sailor on the battleship when she was blown up in Havana harbor.

FATAL RESULT FEARED.

NEW YORK, May 27.—A dispatch to the Herald from Valparaiso says: Three physicians have arrived from Santiago to make a careful examination of the condition of President Errazuriz. They found that the president has developed a serious complication of the left lung and that his condition is steadily becoming more serious. A fatal result is feared at almost any moment.

SEVEN MORE VICTIMS.

Schooner Hackley Believed to Be Wrecked in Last Friday's Gale.

CHICAGO, May 27.—A special to the Tribune from Milwaukee says: Seven more victims have been added to the list of those perishing in last Friday's gale. This fact became known today when a waterlogged, dismasted hulk, all that remains of a schooner, was sighted ten miles off shore between Sheboygan and Milwaukee by an incoming steamer.

This fact became known today when a waterlogged, dismasted hulk, all that remains of a schooner, was sighted ten miles off shore between Sheboygan and Milwaukee by an incoming steamer.

Pears'

Its least virtue is that it lasts so. Soap is for comfort; the clean are comfortable. Pears' soap cleanliness—is perfect cleanliness.

Beyond doubt it is the three-masted schooner C. H. Hackley of this city, which met the storm on its way to Sheboygan.

The Hackley, which was manned by Captain Oertling and a crew of six men, was due at Sheboygan the night of Friday. Its failure to reach the port and stories of floating wreckage had aroused the fear that the vessel was lost, but no confirmation of the disaster was obtained until today.

That Captain Oertling and his six seamen escaped is believed to be impossible as had they reached shore they would have been heard from long ago, and if adrift on wreckage they could not have survived the wild storm of Friday.

No schooner except the Hackley is missing, all that were out during the gale having reported since the wind subsided.

CAPITAL IS WAITING.

Foraker Resolution Stands in the Way of Big Boom in Cuba.

CHICAGO, May 27.—A. F. Blundell, manager of the telephone companies in Havana, Cuba, is in the city. He is here to obtain 2500 automatic telephones for use in the island capital. He said: "Telephones there are in greater use than in any American city of the same size. People like to use them and they have become a necessity. The warm climate and the habits of the people conspire to cause the Havana to make constant use of the telephone."

"All that stands in the way of an immediate boom in Cuba is the Foraker resolution which forbids grants and franchises from the provincial government. Capital in all lines of business is simply waiting."

BRODERICK IS UNPOPULAR.

NEW YORK, May 27.—There is no doubt, the London correspondent of the Herald thinks, that Mr. Broderick, the secretary of state for war, is not popular with the British army. It is learned from talk in the military clubs that no less than 1000 officers have sent in their papers to the war office.

In military circles it is the only topic of conversation. Disaffection is expressed on all sides. None of these military men believe Mr. Broderick will be able to realize a new army scheme. The recruiting outlook is very black indeed.

TO STUDY TRADE CONDITIONS.

NEW YORK, May 27.—Interest is being taken in London, says the Tribune's correspondent in the News, that the government of the Dominion of Canada has dispatched a representative to South Africa to study the trade capabilities of that country with a view to opening up and extending the markets for Canadian products there when the opportunity occurs for doing so.

STUD TO BE SOLD.

NEW YORK, May 27.—The King has decided to break up his large hockney stud at Sandringham, says the Tribune's London correspondent. Tomorrow here will be a sale at Wolferton farm of 34 lots, comprising 58 harness horses, which will be offered without reserve. There will be another sale at Wolferton in September when more than 100 brood mares, fillies and foals will be disposed of. In future only a small stud of breeding animals will be kept by his majesty at Sandringham.

NEW SUBMARINE CABLE.

NEW YORK, May 27.—A new submarine cable between England and Germany has just been put down. The cable is owned by a British company, says the Tribune's London correspondent, but the German government contributed to its cost and a German firm was employed to carry out the work.

MURDERED IN COLD BLOOD.

San Francisco, Boy of 13 Years Stabbed to Death.

SAN FRANCISCO, May 27.—Henry

STUD TO BE SOLD. NEW YORK, May 27.—The King has decided to break up his large hockney stud at Sandringham, says the Tribune's London correspondent.

READ THE PROOFS

United States Official Report

MADE TO COMMISSIONER OF THE UNITED STATES GEOLOGICAL SURVEY OFFICE, WASHINGTON, D. C.

by a geologist and mining expert of worldwide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States surveying corps, and in his official report says: "Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over forty miles is a sluice, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved methods of river mining. The thickness of the Rio Grande gold gravel exceeds in many places 600 feet, or nearly three times that of the like beds in California, while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered."

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. Nothing, I am persuaded, since the discovery of California and Australia is comparable for its immeasurable resources of gold available by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this company the richest and most extensive known.

Capital Stock \$2,000,000

FULLY PAID AND NON-ASSESSABLE, PAR VALUE \$1 EACH SHARE.

"One-half the entire capital stock has been placed in the treasury of the company as a working capital. To complete necessary ditches and place on the river bed several gold steam dredges, the company now offers a limited number of its shares at

50c PER SHARE

AFTER SALE OF WHICH PRICE WILL BE ADVANCED TO

\$1.00 PER SHARE
