

WILL ACT WITH UNITED STATES

Russia Will Not Garrison Posts Between Taku and Peking.

ORIGINAL POLICY ADHERED TO

Attitude of Russia Gives Administration Much Satisfaction - Great Britain and France Will Have Troops in Garrisons.

NEW YORK, June 3.-A special to the Herald from Washington says:

Neither Russia or the United States will detail troops to garrison the posts to be established by the powers between Taku and Peking.

This policy is absolutely in line with that of the United States and in fact from what can be learned it is the intention of Russia to act with this government in future questions discussed in Peking.

SOLDIERS OF FORTUNE.

Splendid Chances for Young Americans in South America.

NEW YORK, June 3.-P. H. Ashmead, a young Lehigh man who went to Ecuador in 1898 with a party of 15 American engineers to "run the line" on the railroad which is being constructed from Guayaquil to Quito in the Andes has returned here for a few weeks visit.

"There will be no greater monument to the pluck and skill of young Americans than this railroad over the highest mountains in South America to open a country which is as little known as any part of the world."

BLUE LAWS ENFORCED.

Golf Players Arrested at Yonkers, N. Y.

NEW YORK, June 3.-The police of Yonkers, N. Y., have arrested Benjamin Adams, member of the board of education of that place on the charge of playing golf on Sunday.

A petition to the police commissioners signed by Yonkers' clergymen calling for a strict enforcement of the Sunday laws were recently presented.

Skin Diseases

ECZEMA, TETTER, PSORIASIS, SALT RHEUM, ACNE and a great many other diseases of like character are classed as skin diseases, when they could just as properly be called blood diseases.

I can cheerfully and most sincerely endorse your specific as a cure for Eczema, the most irritating and annoying disease, I think that flesh is heir to. I was troubled with it for twenty-five years, and tried many remedies with no good effect.

818 West Central. W.M. CAMPBELL, Wichita, Kans.

MAY CALL EXTRA SESSION.

The President May Decide That One Is Necessary.

NEW YORK, June 3.-A special to the Herald from Washington says:

Officials of the administration for the first time since the announcement of the decisions of the supreme court in the insular cases, admit that there is a possibility of an extra session of congress in July.

This statement is made on the authority of a member of the cabinet. Attorney-General Knox and Secretary of War Root have spent considerable time discussing the legal points involved.

Representative Cannon of Illinois said in an interview: "I don't believe there will be an extra session of congress. An extra session is not necessary."

The Philippines, in my judgment are not on all fours with Porto Rico and it will not be necessary to refund any of the duties collected from the time we took possession of the archipelago until the establishment of a civil government."

LONG APPROVES DECISION.

Cabinet Officer Approves Supreme Court's Decision.

DENVER, June 3.-Hon. John D. Long, Secretary of the Navy, passed through Denver en route to Washington after a visit of about two weeks with his family, now stopping at Colorado Springs.

While here he gave out for the first time a statement of his views on the supreme court decision in the Porto Rican cases. It follows:

"The decision in the Downes case sustains the government and is in accordance with the views of the Republicans in congress. I understand that it recognizes fully and clearly the power of congress to legislate at its discretion with regard to the revenue relation of our insular possessions."

"Now because of this very thing there will be those who will say that the court has been governed by the necessities of the case and the interests of the administration. On the contrary I believe no other decision was justifiable as pure matter of constitutional law and precedent."

"The country will breathe freer, and the administration confirmed in its views and strengthened in its work will carry it on in the interest of all concerned with renewed assurance of universal good results."

EXPORTS TO SPAIN.

Commercial Relations With United States Fully Restored.

NEW YORK, June 3.-A special to the Tribune from Washington says: Commercial relations between Spain and the United States seem to be fully restored and it is not improbable that

Pears'

To keep the skin clean is to wash the excretions from it off; the skin takes care of itself inside, if not blocked outside.

To wash it often and clean, without doing any sort of violence to it, requires a most gentle soap, a soap with no free alkali in it.

Pears', the soap that clears but not excoriates.

All sorts of stores sell it, especially druggists; all sorts of people use it.

American exports to that country in the fiscal year 1901, will be greater with possibly a single exception, than in any preceding year.

Exports from the United States to Spain in the nine months ended with March, 1901, were valued at \$11,879,349 against \$10,081,929 in the corresponding period of the fiscal year 1890.

The figures for the year up to this time indicate that the total exports from the United States to Spain in the fiscal year 1901 will be about \$16,000,000, while in 1891 the exports to Spain were \$14,619,235, in 1890 \$14,657,884, and in 1889, the one year in which the \$15,000,000 line was exceeded, \$16,931,287.

The annual imports from Spain into the United States since 1891 have ranged from \$3,500,000 to \$5,000,000, averaging about \$4,500,000 while for the present fiscal year they seem likely to exceed \$5,000,000.

Breadstuffs, cotton, oils and wool manufacturers are the principal articles exported to Spain, raw cotton being by far the largest in volume. Fruits, nuts and wines are at present the principal articles imported from Spain though in earlier years iron ore formed an important item of importation.

Importation of iron ore from Spain have also increased in the year 1900 as compared with years immediately preceding amounting in 1900 to \$45,987 against \$44,648 in 1899, and \$302,327 in 1898.

Going back to 1890 and 1891, however, importations of iron ore from Spain amounted to nearly \$1,000,000 per annum. Almonds, oranges and raisins are the principal fruits imported into the United States from Spain. The almond importations average about \$500,000 annually, and those of raisins from \$500,000 to \$1,000,000 per annum.

Raw cotton is the largest single item in American exports to Spain. The exports of cotton from this country to Spain have increased from \$7,569,782 pounds in 1899 to 122,306,186 in 1900. This particular feature of American export trade with Spain was not materially affected by the war, exports of cotton in the fiscal years 1898 and 1899 having exceeded in quantity the figures of other years in the decade.

The number of pounds of cotton exported to Spain from the United States in 1900 is only slightly below that of 1899.

SUPPRESSING WAR NEWS.

Much Unpleasantness in England Over South African War.

NEW YORK, June 3.-A dispatch to the Tribune from London says:

"The uncertainty with regard to recent operations in South Africa is causing a good deal of uneasiness in this country. It is believed that the responsibility for the concealment of news does not lie with General Kitchener. But owing to a recent warning from him as to giving news to the public, it is believed that the home officials have suppressed almost all the news he has forwarded."

Meanwhile the daily lists of casualties are anxiously studied, but these lists do not fully indicate the actual number of deaths of British soldiers caused by the war. A good many men invalided home have died in England without being included in the list.

At the present moment all the military hospitals in the United Kingdom are crowded with patients, a large number of whom are suffering from enteric fever contracted in South Africa.

PRESENT FROM J. P. MORGAN.

Cooper Union Receives Textile Fabric Collection.

NEW YORK, June 3.-J. Pierpont Morgan has presented to the Museum for the Arts of Decoration of Cooper Union the Bodle collection of Barcelona; the Rivas collection of Madrid and the Baron collection of Paris. These collections include examples of textile fabrics and designs from the middle ages to the present and are said to be three of the most valuable collections in Europe.

MAY REVOLUTIONIZE WARFARE.

Maximite, the New Explosive, Accepted by the Government.

NEW YORK, June 3.-The Press says:

Maximite, the new explosive invented by Hudson Maxim, has been adopted by this country after a period of successful tests at the Sandy Hook proving grounds. The secret of the explosive has been sold to the government by the inventor, and the explosive, it is thought, may revolutionize warfare.

It is said to be more deadly in its character than dynamite, yet so safely can it be handled that the danger attaching to its use is less than that incurred in transporting ordinary black powder.

The tests indicate that the explosive will pierce a 12-inch Harveyized nickel steel armor plate and having passed through it will explode on the other side with sufficient power to destroy everything with which it comes in contact. Never before has a plate of this strength and thickness been pierced.

In an interview Mr. Maxim said: "Should the United States now become involved in war with any other power we shall be able to throw high explosive projectiles through the thickest armor of our enemies to explode inside their warships while they in turn would be able only to penetrate our armor with solid shot or at least carrying no bursting charge whatever."

MARKET FOR DAIRYMEN.

Americans Can Profitably Supply Porto Rico.

NEW YORK, June 3.-A special to the Tribune from Washington says:

"B. A. Pearson, assistant chief of the dairy division of the department of agriculture who has just returned from a three months' trip of inspection in Cuba and Porto Rico believes that American dairymen can as well supply the market of those islands as can foreigners."

He calls special attention to the demand for cheese in those countries, saying that at present most of this supply comes from Holland, Denmark, Italy and Switzerland and he believes that Americans can deliver just as good quality of dairy products as can foreign countries and that it will not be many years before American dairymen have established a good trade in Cuba and Porto Rico.

CANADIAN BOUNDARY DISPUTE.

Believed That Commission Will Meet at an Early Date.

NEW YORK, June 3.-No proposal has been made to the state department by the British government for the re-assembling of the high commission for settling questions in dispute between the United States and Canada says the Washington correspondent of the Herald. Sir Wilfrid Laurier, the Canadian Premier has frequently alluded recently to the prospect of an early meeting of the commission.

OWNER HAS FAITH.

Unmarked Trotter Entered in Series of Big Events.

NEW YORK, June 3.-Neva Simmons, one of the trotters engaged in the Hiram Woodruff stakes of the Brighton Beach meeting, has been entered in the series worth \$25,000, to be trotted between the opening of the grand circuit at Detroit in July and the end of the campaign in Memphis in October. This is probably more money than any horse ever trotted for in one season.

WHEAT MARKET.

PORTLAND, June 3.-Wheat, Walla Walla, 60.

SAN FRANCISCO, June 3.-Wheat, December, 104 1/2; cash, 98 1/2.

CHICAGO, June 3.-Wheat, September, opening, 72 3/4; closing, 73 1/2. July wheat opened 74 1/2 and closed at 75 1/2. It was rumored that a large commission house is said to have bought ten million bushels of July wheat, and was preparing to execute a squeeze. The price of July wheat reached 78 1/2.

LIVERPOOL, June 3.-Wheat, July, 5s. 11 1/2d.
