EDITOR ASTORIAN: Allow me Portland last night, where he will conspace for an expression of the personal views of an old resident and tax-payer of our "City by the Sea," in res-pect to the article by Hon. C. W. Ful-ton in Sunday's edition of the Astorian. First let me thank you, for your truthengage. Captain Downs' retirement; will be effective June 30, and he requested of the war department, as he will not attain the age limit for several years. Captain Downs will visit ful expression of the views of every loyal citizen, in your editorials of Thursday and Friday. I refer to the his old home at Connersville, Indiana, during the summer. articles which called forth the criticism by Mr. Fulton. Your answer to this criticism in Tuesday's paper, while it is comprehensive and of practical import. Thirty-two tierces of salmon, light suited, and four boxes of steelheads were shipped yesterday to the cold storage at Goble. Steelheads are comcaves unanswered some questions ask-

ing in the river the past few days better than at any time since the season opened. This is the class of fish that is largely frozen for shipment instead of the chinook salmon as is the popular belief. The latter are regarded as too oily and too girk to be force. ed and some of the arguments (?) (God save the nark) advanced, If you can spare the space, I would like to dissect Mr. Fulton's article, secion by section, and answer some of his questions. Mr. Fulton quotes Bry-ant's noble Thangtopsis when he says Where rolls the Oregon"; let me finish the sentence, "and hears no sound save his own dashings." Note the ending, Yes, we are proud of our noble Colum-bia, but, Bryant's reference was simply to prove that, though the Oregon flowed through an unbroken wilderness.

Jasanis, the Greek fish dealer with a faculty for getting into trouble, was tried on a charge of assault yesterday before Justice of the Peace Brower and was fined \$10 and costs or fiften days interisonment. In default of money with which to pay his fine he was remanded to the county tail. The troumanded to the county jail. The trouble grew out of a barquet in Jasapie quarters. The revelers became unfuly toley and when neighbors protested against being deprived of their sleep Jarapis started a "rough house". beside this own dashings"; but whose fault is it that we do not have a busy, hustling city here? To duote again from Mr. Fulton, 'sublime in its dignity and majesty'; yes so it is, but one cannot live on scenery, and of what use, oracifical use, is all this dignity and majesty if the hard fisted greed and sethen policy of railroad sharpers and sethen policy of railroad sharpers and sethen policy of railroad sharpers and green in the boxels regular. We never shall be the leading seatort as long as the present forces. control the railroad situation, and tays the power to prevent us from receiving 'common point' rates on all commodi-cies. I concede that we ought to "de-vote our interest to building up our own industries, advancing our own in terese; that is just what the Asto rian advocated to the people of Astoria in the editorial which roused Mr. Pul-ton's ire and brought forth his article not go to Portland but instead chang-ed cars at Gobie and started for the Sound country. Sheriff Linville receiv-ed information yesterday from Chief of Police Loughlin, of Portland, that the fugilities is wanted in that city and also in Tacoma and Spokans. In each of the cities named he victimized mer-

of exceptions.
You did not unswer Mr. Fulton's question. "Do you mean to say the Columbia is not navigable at all seasons of the year?" I judged you did mean it, for that is just the truth. It is not safe for large vessels or warships of heavy draught to try to reach the Portland docks at all seasons of the year and the same of the content. the year, and there is no necessity that they should be endangered by such trials.
