A SILLY SCIENTIST.

Seattle Post-Intelligencer.

The terrific heat which has been prevailing in the East has been the result of making the "silly season" in the newspaper world unusually silly. Thus a New York yellow journal has a lengthy article by an alleged scientific writer, undertaking to give an explanation of the abnormal heat on the theory that the earth is a satellite of a variable star. He says: "Only on the assumption that the source of the terrible heat is directly the sun and due to an extraordinary increase in its effective radiation can the widespread and long-continued nature of the present meteorological disaster be satisfactorily explained." He proceeds with the assertion that there has been a sudden thinning of the blanket of vapor which surrounds the sun, and that the heat thus leaps through the thinned shell and strikes the earth and other nearby planets as with a breath of fire.

This theory is based upon the totally unfounded assumption that all of the earth's surface is at the present time being visited by abnormal and unprecedented heat. This assumption is made because of the fact that a portion of the United States and a limited portion of Europe is at present undergoing an extraordinarily high summer temperature. To prove that the theory has a reasonable foundation it would be necessary first to show that no part of the earth's surface, in either hemisphere, is free from the terrible visitation. As a matter of fact, the heat wave at the present time is covering but a very limited portion of the earth's surface. In the United States, even, it is confined simply to the region east of the Rocky mountains; and its large effects are seen only in the region east of the great plateau.

So far as the Pacific coast states are concerned, and particularly is this true of the State of Washington, there has been no abnormal summer heat. On the contrary, the complaint is universal that the summer has been unpleasantly cool. While the Atlantic seaboard and the Middle West have been sweltering under more than tropical heat, in the region bordering upon Puget sound there have been few evenings when fires were not required for comfort. There has not been a single day so far this summer in Seattle when there has been the slightest discomfort from high temperature; not a night when blankets have not been required. There has been no unusual precipitation of moisture on account of this coolness, and the days when there have been no clouds to intercept the direct rays of the sun have been no warmer, in fact not as warm as is usual at this season of the year. Neither is there any record of abnormal temperature in any part of Europe, save in the west and a few central portions.

All of this shows that the alleged scientific theory if Mr. Garrett P. Serviss has not the slightest foundation. Were it true, the whole world would be suffering from abnormal heat. In fact, less than half of the territory of the United States on this continent has been so afflicted. In the language of the street, it would seem that Mr. Garrett P. Serviss, alleged scientist, had another guess coming.

CHARITY WITH A STRING.

Tacoma Ledger.

When the impulse of charity leads to a donation of a worthy object, the giver does not attach onerous conditions. For instance, a multi-millionaire who agrees to donate a certain sum, say $100,000, provided an equal sum shall be raised from other sources, is not impelled by any lofty motive. He sets in motion the machinery of beggary. Respectable people go out and solicit alms for a church or a college. When a man happens to be hungry and so asks for a loaf the police may arrest him. The hungry man certainly has a better right to solicit alms than a public institution. If the $100,000 person thinks double the sum is needed, let him give that and not worry his neighbors. It is none of his business what they may choose to donate, nor to what cause.

Similarily, justly adverse criticism may be made of some of the Carnegie benefactions. The Carnegie gift to Tacoma and to other towns of the same size do not stand on a plane with the larger prizes. His demand that the recipients shall apply to the support of the libraries for which he furnishes storage room a sum equal each year to ten per cent of the sum he grants arouses a natural opposition. Mr. Carnegie gave to New York $5,200,000, which, as the Philadelphia Telegraph estimates, is equal to a reasonable interest on $15,000,000. The Telegraph terms this shabby phollanthropy, and we are constrained to agree with it.

Mr. Carnegie professes an unwillingness to die rich. Perhaps he is open to suggestion how this disgrace may be warded off. Let him give his money away and not parcel it out so that the principal effect is to force others to give their money away. There is no city in the United States that, provided with a library, would not suitably house it. If the gentleman wants this land sown with libraries let him endow them. Let him put aside for each an amount sufficient to keep the shelves replenished, and people will gladly supply the shelves. It is true this would not cause the name of the steel magnate to appear over so many of the doorways, but in other respects the effects would be far better than arise from his present course.

We do not look a gift horse in the mouth, but may be excused for a glance at the teeth of the gift horse the keep of which is causing New York to go deep into its pockets.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. 25c.

Perhaps that Kansas editor who has directed in his will that he shall be embalmed by a woman undertaker is afraid of being buried alive and wants the conversational test to be made.

All things come to those who have the price.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble following la grippe. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. CHAS. ROGERS, Druggist.

Zanesville, O., with its convention of June bugs, is evidently making an Ohio play for the eminence that belong of right to Wichita, Kan.

Another Greek letter fraternity has been organized in Omaha since the hot spell. It has been christened the "I-Tappa-Keg" branch and is very popular.

SEVEN YEARS IN BED.

"Will wonders ever cease?" inquired the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c at Hart's Drug Store.

Bryan has bought a copy of the works of Thomas Jefferson. Bryan may become an expansionist if he reads them carefully.—Mail and Express.

STEPPED INTO LIVE COALS.

"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by Hart's Drug Store at 25 cents.

Youthful dime novel readers who are now beating their way to Buffalo will doubtless make a friendly call on "Calamity Jane."—Denver Republican.

A POOR MILLIONAIRE.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by Frank Hart, Druggist.

The Russians propose to adopt the Gregorian calendar and try to be on time hereafter.—St. Paul Globe.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question, the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations. John Beam, West Middlesex, Pa. No preparation equals Kodol Dyspepsia Cure as it contains all the natural digestants. It will digest all kinds of food and can't help but do you good. CHAS. ROGERS, Druggist.

SANTAL-MIDY

These tiny Capsules are superior to Balsam of Copaiba, Cubebs or Injections and CURE IN 48 HOURS the same diseases without inconvenience.

MIDY

Sold by all Druggists.

BANNER SALVE.

the most healing salve in the world.

WHAT TWO CENTS WILL DO.

It will bring relief to sufferers from asthma or consumption, even in the worst cases. This is about what one dose of Foley's Honey and Tar costs. Isn't it worth a trial? Hart's Drug Store.

The people of Girard, La., lynched a negro for stealing a bottle of soda pop. What would they have done to him if he had taken a demijohn of whisky?—Mail and Express.

Mr. John Tipps, Colton, Ohio, says: "Foley's Honey and Tar cured my little girl of a severe cough and inflamed tonsils." Heart's Drug Store.

Fancy the disappointment of the Montana posse which received word that the three horse thieves they were after had been hanged by another posse!—Chicago Tribune.

Thos. W. Carter, of Ashboro, N. C. had kidney trouble and one bottle of Foley's Kidney Cure effected a perfect cure, and he says there is no remedy that will compare with it. Hart's Drug Store.

No matter how much indemnity China has to pay, there is no prospect that Li Hung Chang will ever see poverty staring him in the face.—Washington Star.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. Foley's Kidney Cure always makes them well. Hart's Drug Store.

The sultan of Turkey is complaining of prostration. He was completely worn out by the American minister's methods of bill collecting.—Minneapolis Journal.

Dr. George Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged prostrate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success." Hart's Drug Store.

The man who forecasted a cool summer on account of the sun spots should repent before the climate becomes any warmer.—Pittsburg Dispatch.

Jas. G. Amhert, of Della, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of Banner Salve it began to heal and after three applications it was entirely healed leaving no scar. Hart's Drug Store.

The Ohio Democrats are getting ready to repeat next November General Lord Kitchener's phrase, "I regret to say."—Mail and Express.

Any advertised dealer is authorized to guarantee Banner Salve for tetter, eczema, piles, sprains, scalds, burns, ulcers and any open or old sore. Hart's Drug Store.

Mr. Towne has detected an odor similar to that of four large dead "rhinocerl" in an African swamp in midsummer. He says the "free silver issue is dead in the West."—Minneapolis Journal.

The piles that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. CHAS. ROGERS, Druggist.

The domestic that calls for the piling on of heavy clothing in warm weather is much out of place in the present age.—Washington Post.

A bad complexion generally results from inactive liver and bowels. In all such cases DeWitt's Little Early Risers produce gratifying results. CHAS. ROGERS, Druggist.

If Mr. Schwab can set the wheels of the steel industry going again he will be worth his million-dollar salary.—Denver Republican.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then will always keep your bowels in perfect order. They never gripe but promote an easy gentle action. CHAS. ROGERS, Druggist.

Mr. Towne is out for Mr. Hill. Mr. Towne evidently thinks he can make a molehill into a mountain.—St. Paul Dispatch.

Those famous little pills, DeWitt's Little Early Risers compel your liver and bowels to do their duty, thus giving you pure, rich blood to recuperate your body. Are easy to take. Never gripe. CHAS. ROGERS, Druggist.

The idle steel workers need not expect any sympathy from the rest of us who have to sit here and work.—Chicago Journal.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants, hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and good healthy appetite. CHAS. ROGERS, Druggist.

One should not be too hasty in condemning Admiral Sampson's action in suing for another bit of the Santiago prize fund. It has never been denied that Sampson was entitled to second money.

DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's. CHAS. ROGERS, Druggist.

A man who believes he had been born again divested himself of all his garments in the midst of a Missouri campmeeting and is now in jail. Parties intending to be born again should arrange to do so in, with a pair of pants on.

A RAGING, ROARING FLOOD

Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave him a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha, said I had Consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by Hart's Drug Store. Price 50 cents.

Stories of the Hour

ADROIT THIEVES OF INDIA.

No Question but That They Have Reduced Thieving to a Fine Art.

A very interesting and valuable report was issued several years ago by the inspector of prisons of the Indian Empire, in which almost incredible accounts are given of the practice of this extraordinary art by the thieves of lower Bombay. The thieves themselves, with better reason, feel doubly secure, for if, in spite of his invisibility, by some unlooked for and unlucky chance, one is seized, his oily body slips away like an eel's and in the still more unlikely contingency of his being held with an unbreakable grip, he has slung up a slender cord about his neck a little knife with an edge as sharp as that of the keenest razor, with which he cuts the tendons of the intruding wrist. This however, he considers a last resort, for he prides himself upon doing his work without inflicting bodily harm upon his victims.

To enter a zenana, or the woman's apartment in a native house, where all the family treasures are kept, is the ambition of every native thief. This is no easy matter, for the zenana is the centre of the house, surrounded by other apartments occupied by every watchful sentinels. In order to reach it the thief burrows under the house until his tunnel reaches a point beneath the floor of the room to which access is sought. But the cautious native [illegible] not at once enter. Full well he knows that the inmates of the house sometimes detect the miner at work and stand over the hole armed with deadly weapons, silently awaiting his appearance. He has with him a piece of bamboo, at one end of which a bunch of grass resembling a human head, and this he thrusts up through the completed breach. If the vicarious head does not come to grief the real one takes its place, and the thief, entering the zenana, secretes himself, or, finding everything already favorable for this purpose, [illegible] to attempt what seems an impossible undertaking.

This, indeed, is no less a task than to remove from the ears and arms and nose the earings, bracelets, armlets, bangles and nose rings of the sleeper without awakening them, and to get safely away with his plunder. Who but a dacoit would be equal to so delicate, dangerous and difficult a piece of work? But the dacoit seldom fails.

"These adroit burglars," says my authority, "commit the most daring robberies in the midst of the English army. Knowing the position of the tents, they mark out one which is occupied by an officer of high rank, and creep silently toward it. Arrived at the tent, their sharp knife makes them a door in the canvas, and they glide undiscovered into the interior. Indeed so wonderfully adroit are they that even the very watchdogs do not discover them, and a thief has been known to actually step over a dog without disturbing the animal."

But the most excessively clever device practiced by the thieves of lower Bombay, is that used by the Mooches in throwing pursuers off their track. The Mooches come down in gangs from the back country and raid the settlements. Their specialty is poisoning cattle. They smear plantation leaves with their own particular brand of cattle exterminator, and scatter them about among the herds at night. In the morning as many of the cattle as have partaken are dead, and have been abandoned by their owners.

The Mooches flay the dead animals and sell their hides. Pursued, these honest creatures make at full speed for the jungle. If they reach it all hope of capturing them is at an end, but even when they discover that they must be overtaken before they reach it they by no means lose heart, and are measurably sure of escaping, especially if, as is often the case in India, the surface is burned over and the trees and bushes that have have not been consumed are charred and blackened and bereft of their foliage, and many perhaps reduced to little more than blackened stumps by the fire by which the fields are annually burned over. If hard pressed in such a country as this they cease to fly, and immediately disappear.

For a long time the English troops which policed the districts where they made their raids were completely nonplused; again and again, on the very point of being captured, the Mooches escaped by miraculously vanishing, and the officers as well as soldiers became superstitious. With the power of maintaining fixed, immovable postures, in which their race seems to excel, these Indians, grasping in their hands such blackened branches as they pick up in their flight, can instantly assume and retain for a long time an almost perfect mimicry of the groups of blackened stumps and half-burned, stunted trees with which the country abounds. In Abyssinia the Barcas tribe have the same trick of becoming invisible, added to which they place their rounded shields that disposed in the grass look exactly like boulders, before them for screens, while they lie flat, watching, unseen for travellers to rob or enemies to kill.—Penny Magazine.

RAILROADS IN JAPAN.

A Chief Engineer's Talk About Their Development in 29 years.

S. Sugiura of Tokio, Japan, is on a visit of inspection to the local railway shops. His visit to St. Paul will complete a seven-months' tour of the principal railway centres of the United States and Europe.

Mr. Sugiura, though only 30 years old, is the chief engineer of the largest railway system in Japan. He goes back to his home delighted with American railroads and thoroughly converted to American methods. He said last night: "The American railroads are in point of equipment vastly superior to the European roads. Your passenger trains are superb and so thoroughly typical of the great wealth of your country."

Continuing Mr. Sugiura said American equipment and American methods are rapidly supplanting the European methods first introduced on Japanese railroads. Until about six years ago almost all of the rails and locomotives on the Japanese roads came from England, now the rails come from the United States; two American firms have monopolized the locomotive business, and and the American passenger coach is rapidly taking the place of the English compartment carriage.

The English and German engineers, who at first built all the railroads in Japan, have been replaced by native engineers who were educated in the United States or in the national university, where American methods are taught, and at present the only European engineers engaged in Japan railroad construction are those employed by the government on the construction of a viaduct for a street railway in Tokio. Japan has a total of about 4000 miles of railways. Twenty-five per cent of this milage has been constructed within six years, and Mr. Sugiura says that within the next six years 1000 miles more will be in operation.

The first line was built twenty-nine years ago. It was only twenty miles long, connecting Tokio and Yokohama. It was built by English capital, and the material, and even some of the laborers, came from England. Since the war with China, Japan has built her own railroads. The roads are all narrow gauge, the government fixed three feet six inches as the standard, and controlling through the licenses issued, both passenger and freight rates.

The passenger service is divided into three classes. For the first class, used only by the nobility and tourists, the rate is two and one-quarter cents per mile. The middle classes travel second class and pay a cent and a half per mile, and the third class rate is three-fourth cents per mile. The service is good and the speed of the trains is gradually increasing each year. The principal trains are now making an average of twenty-five miles per hour, including stops.

Railroad building of the future in Japan, Mr. Sugiura says, will involve some great engineering feats. The present lines are built along the coast and must be connected by lines extending across the mountains of the interior. Mr. Sugiura said last night although his company pays an annual dividend of 10 per cent on a capitalization of $25,000,000 the construction of the connecting lines is considered to be too expensive to make them profitable and they will be left for the government to build.

The Japanese government has opened a large steel works with the hope of manufacturing its own rails and engines within the next six years. Both the national universities teach engineering, and from each graduating class the government sends about twenty students to America to complete their education and to assimilate American ideas.—St. Paul Pioneer Press.

TWINS PUZZLE FRIENDS.

Their Mother Is the Only One Who Can Tell Them Apart.

The Burgess twins of Auburn, N. Y., whose identity baffled even the Bertillion system until a few tell-tale scars were found, have decided they look too much alike to live in the same town. According to their own story no one can tell them apart but they themselves and even they at times find this hard to accomplish. As if to make the resemblance still closer the mother of the twins gave them names which are almost identical. They were christened Ray and Roy. They are now seventeen years old.

Ray and Roy Burgess, during their early childhood, were indistinguishable except to their mother, who held the clews of their identity in certain small marks and twists of their hair. The main characteristics of feature and form to which the great majority of mankind owe their individuality in appearance are exactly similar in the Burgess twins. Both have dark brown hair, gray eyes, slightly flattened noses, moderately thick lips, long ears and round chins. In weight Roy has had the advantage at several different times, although at present both weigh exactly 144 pounds. Both are 5 feet 9 inches tall.

While children the twins enjoyed their similarity and played all sorts of pranks on their fellows. Having left school to enter business, however, they have found that their lack of individuality is of great annoyance and even injury. All kinds of mistakes are made by a debtor stopping the wrong twin on the street to pay him, or a creditor running down the other one, who owes no one. In consequence, the twins decided to separate and last week Roy went to the town of Keene, N. H., where he expects to enjoy the novel experience of having an identity of his own.

Ray remains in Auburn, although he has also planned to go where he will have the use of his own individuality. By staying in Auburn he is still mistaken for his brother by his brother's friends, who believe the latter may have returned on a visit. Before Roy's departure for New Hampshire the twins were measured according to the Bertillon system at the Auburn prison. The system proved successful in distinguishing them only because of the discovery of a few scars.—Chicago American.

SHERIFF'S SALE.

By virtue of an execution and order of sale issued out of the Circuit Court of the State of Oregon, for the County of Clatsop, on the 15th day of June, 1901, upon a judgment rendered therein on the 18th day of March, 1898, in favor of J. T. Ross, J. E. Higgins, H. C. Thompson and E. Z. Ferguson, partners doing business under the firm name of Ross, Higgins & Co., plaintiffs, and against Silas B. Smith, defendant, for the sum of $365.46 and costs of said action taxed at $20.00, and which said judgment draws interest from date at the rate of 10 percent per annum until paid, and upon which there was realized upon execution and order of sale issued hereon and credited hereon, March 4, 1901, the sum of $89.30 leaving a balance due on said March 4, 1901, of $410.00 with interest thereon from said date until paid at 10 per cent per annum, and the costs of and upon this writ commanding and requiring me to levy upon the property of the above named defendant to satisfy the balance of said judgment, interest, costs and all accruing costs. I did on the 15th day of June, 1901, duly levy upon the following described real property, to-wit:

All that portion of the Solomon Smith Donation Land Claim situated in the County of Clatsop, State of Oregon, described as follows, to-wit:

Beginning at the southeast corner of the town of Idlewild according to the map and plat thereof, recorded in the office of the County Clerk of Clatsop County, and as laid out and recorded by Silas B. Smith and his wife, thence in a westerly direction following the south line of said town to the north boundary of that certain tract of land in said Donation Land Claim now owned by Louis Kirchoff, thence east to the north boundary line of that certain tract of land in said Donation Land Claim owned by the Astoria and Columbia River Railroad Company, thence easterly along the said north boundary line of said tract of land owned by said Astoria and Columbia River Railroad Company to an intersection with the east boundary line of said town of Idlewild if projected, thence northerly on said projecting line to the place of beginning.

Also all of blocks numbered 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 14, 15, 21, 22, 23, 24, 25, 26, 27, 28, and all of block 13, excepting lots 9 and 10, and all of block five excepting lot one, all in the town of Idlewild, in Clatsop County, State of Oregon, as laid out and recorded by Silas B. Smith and his wife, according to the map and plat thereof on record in the office of the County Clerk of Clatsop County, Oregon.

Also all that portion of the Solomon Smith Donation Land Claim situated in the County of Clatsop, in the State of Oregon, and lying west of the west boundary line of the said town of Idlewild, aforesaid, excepting a certain tract of land owned by The Flavel Hotel Company containing 13 acres, as per deed recorded in Volume "38," page 182, Records of Deeds for Clatsop County, and a certain tract of land owned by said Flavel Hotel Company as per deed recorded in Volume "38," page 186, Records of Deeds for Clatsop County.

Notice is hereby given that I will on Monday, the 22d day of July, 1901, at the hour of 10 o'clock in the forenoon of said day, in front of and at the Court House door in the City of Astoria, Clatsop County, Oregon, sell at public auction to the highest bidder for cash, the above described real property to satisfy said judgment, interests, costs and all accruing costs.

THOS. LINVILLE,
Sheriff of Clatsop County, Ore.
Astoria, Ore., June 18, 1901.

NOTICE FOR PUBLICATION.

United States Land Office,
July 9, 1901
Oregon City, Ore.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled, "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the public land states by act of August 4, 1892, Wm. H. Copeland, of Astoria, County of Clatsop, State of Oregon, has this day filed in this office his sworn statement No. 5459, for the purchase of the southeast ¼ of section No. (12), in Tp. No. (5) N., Range No. (9) W. and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Oregon City on Thursday, the 31 day of October, 1901.

He names as witnesses: Geo. McFarland, of Olney, Oregon, August Adolph, of Olney, Oregon, James Burk, of Seaside, Oregon, and Thomas Bidwell, of Astoria, Oregon.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 31 day of October, 1901.

CHAS. B. MOORES,
Register.

SHERIFF'S SALE.

Notice is hereby given that I will, on Monday, the 2d day of September, 1901, at the hour of 10 o'clock in the forenoon of said day, at and in front of the court house door, in the City of Astoria, in Clatsop county, State of Oregon, offer for sale and sell, at public auction to the highest bidder for cash in hand at the time of sale all and singular the real estate and property heretofore bid in for taxes by said Clatsop county, the said City of Astoria, and School District Nos. one and six of said county, or either of them and which they or either of them have acquired title by virtue of any such sale.

Said sale is fixed for said date pursuant to an order heretofore made by the County Court of said county, as the lists of such property could not be prepared by the first Monday after July 1, 1901.

THOS. LINVILLE,
Sheriff of said County.
Dated, July 11, 1901.
