The Northern Pacific Brewery, of which Mr. John Kopp is proprietor, makes beer for domestic and export trade. Bottled beer for family use or keg beer supplied at any time. Delivery in the city free.

North Pacific Brewery

C. J. TRENCHARD,

Commission, Brokerage, Insurance and Shipping.

Custom House Broker. ASTORIA, ORE. Agent W. F. A. Co., and Pacific Express Cos.

THE PRESIDENT WILL SURVIVE

Ultimate Recovery Is Becoming Hourly More Apparent.

DANGER NOW VERY REMOTE

Many of the Physicians Regard the Danger Point as Being Passed—President Shows Remarkable Recuperative Powers.

MILBURN HOUSE, Sept. 10.—The following bulletin was issued by the physicians at 10:30 p. m.

"The condition of the president is unchanged in all important particulars. Temperature, 100.5; pulse, 114; respiration, 28.

"When the operation was done Friday last it was noted that the bullet had carried with it a short distance beneath the skin a fragment of the president's coat. This foreign material was, of course, removed, but a slight irritation of the tissues was produced, the effect of which has appeared only tonight. It has been necessary, on account of this slight disturbance, to remove a few stitches and partly open the skin wound.

"This incident cannot give rise to other complications but it is communicated to the public as the surgeons in attendance wish to make their bulletins frank. In consequence of this separation of the edges of the surface wound, the healing of the same will be somewhat delayed. The president is well enough now to begin to take nourishment by mouth in the form of extract of beef."

BUFFALO, Sept. 10.—The corps of eminent surgeons and physicians in attendance upon the wounded president today committed themselves without reservation to the opinion that their patient was out of danger and that only a possibility of complications threatened his life. They did not give the assurance of his recovery, collectively over their signatures in the official bulletin, but they went a long way toward it individually during the day. Each of them, with the exception of Dr. Rixey who did not leave the Milburn residence, placed himself squarely on record, not privately to friends of the president, but publicly through the agency of the press that the danger point had passed and that the president would survive.

"Of course, we will all feel easier when a week has passed," said Dr. McBurney, the dean of the corps. "We would like to see every door locked and doubly locked, but the danger from possible complications is now very remote."

The little piece of lead in the muscles of the back is giving the physicians no concern whatever. Unless it should prove troublesome, to the president later on he will probably carry this grim souvenir of anarchy with him to the end of his days. The doctors say that, once crushed, it can do no harm.

The X-ray machine is ready for instant use, however, and if there is the slightest inflammation or pain in the vicinity of the bullet an operation will be performed.

President's Physicians Impressed With Rapidity of His Improvement.

BUFFALO, Sept. 10.—Vice-President Roosevelt left this evening for his home at Oyster Bay. Senator Hanna returned to Cleveland. The five members of the cabinet still here will remain a few days.

The president's physicians have been impressed with his remarkable recuperative powers and the rapidity of his improvement. Ordinarily the incision for such an operation such as was made upon the chief executive should heal within three weeks, but in the president's case he may be strong enough to be moved sooner. The president will be taken direct to Washington as soon as it is safe to move him.

The president himself today began to

show confidence in his ability to care for himself and from time to time he would carefully turn himself to get a more restful position.

RECOVERY ALMOST ASSURED

Secretary Wilson Says President Will Be Signing Official Papers by Saturday.

NEW YORK, Sept. 10.—The president will be signing official papers by Saturday night, said Secretary Wilson of the department of agriculture to a Tribune correspondent at Buffalo last night. Secretary Wilson had just returned from the Milburn House, where he talked with the president's physicians and later at the Buffalo Club he conferred with Secretary Gage, Attorney General Knox and Postmaster General Smith.

"Of course," said Mr. Wilson, "no one expects that the president will be out of bed by that time but he will be strong enough to write his name to official papers. The doctors do not feel like coming out bluntly as a layman would, but they tell me there is no doubt about the president's speedy recovery. They do not expect any serious complications."

"Will the president's disability embarrass the government?" Mr. Wilson was asked.

"Not in the slightest," said the secretary. "Way, there's nothing important to do. The war complications are mostly over with and Secretary Root's department is looking after everything. Secretary Hay has a tight grip on everything in the department."

"Is there any good reason for apprehension in commercial circles on account of the president's condition?" Mr. Wilson was asked.

"Not now," said Mr. Secretary Gage, who returns to Washington tonight, "but we know what to do with it. No business world ought to feel comfortable with the official bulletins from the president's doctors."

"Have the members of the cabinet discussed repressive measures for anarchists?" was asked.

"It has been touched on informally in conversation," said Wilson. "It is more properly a state than a national matter. Congress can go only just so far. I look to see new legislation in all the states having a considerable foreign-born population."

"The trouble with anarchists is that they do not know when they are well treated. In Europe they are hounded about. Generations of oppression and class distinction have bred in them discontent and envy. They come here and at once begin a propaganda against officials who are working all the while for their amelioration. The people of the United States certainly must protect themselves against reptiles of that description."

TO OFFER PRAYERS.

DENVER, Sept. 10.—Governor Orman has issued a proclamation setting aside Wednesday, September 11, as a day of prayer for the recovery of President McKinley and requesting that every loyal citizen of the state join in a prayer service for the speedy recovery of the chief executive.

ARRANGING FOR CELEBRATION.

BUFFALO, Sept. 10.—The exposition has suffered severely in attendance since the tragedy, and the managers are now organizing for a great thanksgiving celebration.

ANNIVERSARY CELEBRATED.

CLEVELAND, Sept. 10.—Naval veterans took first place in the festivities attendant upon the Grand Army encampment today. The thirty-seventh anniversary of Oliver Hazard Perry's historic triumph on Lake Erie was fittingly celebrated in a grand parade of the naval veterans and a naval display upon the lake.

SWIMMING RECORD BROKEN.

SAN DIEGO, Cal., Sept. 10.—Howard P. Brewer, of San Francisco, defeated Wilbur Kyle, of this city, in a three-quarters of a mile swimming race. Brewer's time was 15 minutes and one second, and Kyle's 20 minutes, three seconds. Both men broke the world's record of 21 minutes held by Schaffer of the University of Pennsylvania.

POSTMASTER ARRESTED.

SEATTLE, Sept. 10.—The postmaster at Nome, Joseph Wright, has been arrested and held for trial on a charge of embezzling \$400 from the government.

EMMA BELITTLES THE PRESIDENT

Rabid Denunciation by the Notorious Anarchist.

IS AN INSIGNIFICANT RULER

Says McKinley Has Neither Wit Nor Intelligence and Knows Nothing—Stoutly Denies Any Knowledge of a Conspiracy.

CHICAGO, Sept. 10.—Referring to the attempt on the life of President McKinley, Emma Goldman said:

"It is a dirty trick to charge in the newspaper reports that it was the result of an anarchist plot. Mark Hanna has been the ruler of this country, not McKinley. McKinley has been the most insignificant ruler this country has ever had. He neither has wit nor intelligence but has been a tool in the hands of Mark Hanna. Other presidents have had heart or something, but this poor fellow—God forgive him, since he knows nothing—is a tool in the hands of the wealthy men and it seems very remarkable for Mark Hanna to say that he was notified of a plot for his assassination. I think McKinley is insignificant for such a thing."

ARRESTED AT CHICAGO.

Emma Goldman Charged With Conspiracy to Murder the President.

CHICAGO, Sept. 10.—Emma Goldman, the anarchist leader, under whose red banner Leon Czolgosz claims to stand, whose words he claims fired his heart and his brain in the attempted assassination of the president, was arrested here shortly before noon today.

She disdains all but the slightest acquaintance with the president's assassin; she denied absolutely that she or any anarchist she knew was implicated in any plot to kill the president. She said she believed Czolgosz acted entirely on his own responsibility and that he never claimed to have been inspired by her as he is quoted as affirming.

The president, she averred with a yawn, was an insignificant being to her, a mere human atom whose life or death was, matters of supreme indifference to her, or to any anarchist. Violence, she said, was not a tenet in the faith of an anarchist, and she had not advocated it in Cleveland, where Czolgosz said he heard her, nor elsewhere.

Miss Goldman arrived here Sunday morning from St. Louis. She was held on a warrant sworn out by Captain Callahan, charging her with conspiracy to murder the president.

MAGGIO KNEW OF PLOT.

Told His Employer to Watch for Important Event Before October.

KANSAS CITY, Mo., Sept. 10.—Ed. Andrews, manager of the Andrews opera company with which Antonio Maggio was formerly engaged as cornetist, is in this city. Mr. Andrews said: "Early last February Maggio told me distinctly to watch for an important event before October. He assured us that President McKinley would be killed before that month came."

TO EXCLUDE ANARCHISTS.

Bill to Be Introduced in the Wisconsin Legislature.

MILWAUKEE, Sept. 10.—Senator Julius E. Roehr will introduce a bill in the next session of the legislature to exclude from the state all anarchists and all those engaged in teaching the doctrine of lawlessness.

"I believe," he said, "that the best way to fight anarchy, anarchists and anarchism is to make this class contemptible to the state. Every state ought to pass such laws and then there would be no preaching of lawlessness in the country. I intend to introduce such a measure at the next session of the legislature unless before that time there are better plans devised for fighting anarchy and anarchism."

ANARCHISTIC PERIL.

London Papers Discuss Attempted Assassination of the President.

LONDON, Sept. 10.—The papers again occupy themselves fully with President McKinley's state and anarchistic peril. The Daily Telegraph says:

"President McKinley has a wonderful constitution as has indeed been proved by the incidents of his illness. The simple almost austere life he has led has helped him at the crisis of his fate, while the devotion and fortitude of his wife, with whom, as the president has said, he has often conquered both difficulty and danger, have profoundly touched and inspired the sympathetic pity of the world."

The Daily Mail remarks: "Both in this country and in the United States public opinion has hitherto been slow to recognize that th

unwillingness to act harshly toward political fugitives cannot be permitted to condone crimes of the ruffians who preach sedition and plot assassination. "Even the latest anarchist outrage will not have been in vain if it should determine on both sides of the Atlantic a boundary between the exercise of national hospitality and harboring national pests."

The Daily News says: "The cry of 'down with the anarchists' is being raised, as it was certain to be raised in various quarters—European as well as American—but it seems to us that the worst possible way of going about the business is to stir up public feeling on behalf of a vendetta against anarchism in general. The greater the pressure the more violent the resistance."

The Daily Graphic writes: "There is one obvious means of discouraging the anarchist propaganda which has been too much neglected in the United States and on the continent, namely to treat the advocacy of crime itself as criminal."

"In this country that principle is accepted and acted upon. Probably if a score or so of the philosophic anarchists were sent to cool their heels a year or so in prison they would grow considerably more cautious in the use of their words and their disciples would begin to learn something of the same reticence in using revolvers."

The Morning Post believes that the characteristic lesson of recent events is that all governments are exposed to the same danger.

"It is not this or that particular form of authority that is aimed at, but all authority. Wherever the anarchists see authority or government, he strikes, no matter what its origin may be. This is the lesson which is being driven home in the United States by the brutal attack on President McKinley."

"While it would appear that certain measures may be taken by the United States on its own account in order to combat this new evil, it would be better if all such measures were adopted in concert by the great powers after an international conference. There is certainly a solidarity between all civilized nations now that America is no longer outside the circle of its influence."

TO KEEP OUT ANARCHISTS.

The Present Immigration Law Is Not Prohibitive.

NEW YORK, Sept. 10.—Immigration Commissioner Fritchie, who is in charge at Ellis island, says that it is impossible to keep anarchists out of the country.

"The law at present states plainly that no one shall be refused admittance because of his political beliefs," the commissioner added, "and the only way that an anarchist can be kept out is by proving that he has a criminal record on the other side."

The declaration was made in response to a query as to what would be done in regard to a number of anarchists who are on their way over here from England. Scotland Yard officials had cabled descriptions of these men and it was thought that their entrance to this country could be prohibited.

"These anarchists in most cases are not paupers and meet all the requirements of the immigration laws," the commissioner said.

WANTS NO LAWYER.

Czolgosz for the Present Refuses to Retain Counsel.

NEW YORK, Sept. 10.—A special to the Herald from Buffalo says:

Mrs. Czolgosz, mother of the man who attempted to assassinate President McKinley, was in Buffalo today. She made no attempt to see her son. In some mysterious manner, however, he learned of her presence here and when District Attorney Penny asked him if he wanted a lawyer, Czolgosz said:

"No, I want no lawyer now. When the time comes I will be supplied with counsel and there will be plenty of money for my defense."

PLANS FOR ASSASSINATION.

Three Men Were Overheard to Discuss Plot in Chicago.

CHICAGO, Sept. 10.—Charles P. McMurray, employed by a wholesale grocery house in this city, has notified the police that on the night of July 12 or 13, he is not sure which, while waiting for his suburban train at the main station of the Illinois Central railroad, he overheard three men discussing plans to kill President McKinley and two well known New York capitalists. After talking a few minutes the three shook hands and went toward the Michigan Central train for Buffalo.

Mr. McMurray says he told the policeman on duty at the station and after a few days had practically forgotten the occurrence.

The description of one of the men given by McMurray is not unlike the appearance of Czolgosz and it is known that on July 12 he was in Chicago going east to Buffalo that night.

PLOT WAS ARRANGED.

Assassination of President at San Francisco Was Decided On.

NEW YORK, Sept. 10.—Details of a previous plot against the life of President McKinley were given by a witness (Continued on Fourth Page.)

SHAFFER VESTED WITH AUTHORITY

Directed to Settle the Steel Strike Without Delay.

ORDER OF EXECUTIVE BOARD

Shaffer Said to Be Seeking to Reopen Negotiations With the Hope of Securing Better Terms—Strikers Resort to Violence.

PITTSBURG, Pa., Sept. 10.—President Shaffer and his advisers in the general office of the Amalgamated Association hold the power, by the authority of the general executive board of the organization, to settle the steel strike.

Shaffer and his advisers apparently allowed today to lapse, after this authority was vested in them, without coming to any settlement. On Monday, it is said, the executive board directed President Shaffer, together with the secretary, Treasurer Williams and Assistant Secretary Tighe and Ben. I. Davis, of the advisory board, to settle without delay on the best terms obtainable.

Since then there has been no action developing anything to further the settlement, but it is said that President Shaffer is seeking to reopen direct negotiations with the United States Steel Corporation in the hope of getting better terms than those submitted to the Amalgamated executive board.

STRIKERS RESORT TO VIOLENCE.

Three Workmen Set Upon and Badly Beaten in McKeesport.

PITTSBURG, Sept. 10.—The first violence of the strike at McKeesport, it is reported, took place tonight when three workmen were set upon by the strikers or strike sympathizers and badly beaten. Henry Walt, water tender at the tube works, was caught and beaten so badly that his condition is serious. Charles Meyers, labor boss at Demler, was also badly beaten by a crowd, and John Isenberg, furnace builder at the National rolling mill, parted with the greater part of his clothing before he could escape from the strikers.

MACHINISTS QUIT WORK.

SAN BERNARDINO, Cal., Sept. 10.—Three hundred mechanics employed at the Santa Fe shops here quit work because the company refused to pay them extra for working on a holiday. The men will report for duty today but there is some doubt as to whether the company will allow them to come back.

OUTLOOK FOR WINTER WHEAT.

Good Deliveries on a Footing With Other Grades Expected.

NEW YORK, Sept. 10.—At a meeting of the grain trade held in the produce exchange it was decided that No. 2 hard winter wheat on and after June 1, 1902, shall constitute a good delivery on an equal footing with other contract grades of wheat.

The grade represents a large proportion of the winter wheat crop grown in the Southwest. Its introduction as a contract grade, it is said, will militate against "corners" as it gives so much room, wheat to deliver. A special committee of the trade appointed some time ago recommended that this grade be made deliverable at a discount of two cents a bushel, but a strong minority among its members has been doing some hard work since in the trade and it was to their work that the vote to make the grade a full contract was due.

CROP CONDITIONS.

Oregon and Washington Report Higher Average Than for Ten Years.

WASHINGTON, Sept. 10.—The monthly report of the statistian department of agriculture, shows the average condition of corn September 1 to have been 51.7. There was a decline during the month of August amounting to 2.3 points, and the condition on the first of the present month was 31 points below the mean of September averages for the last ten years and 8.3 points below the September average. The average condition at the harvest in winter and spring wheat combined was 82.5, against a ten-year average of 80.3. Oregon reports over 7 points, Washington 12 above their respective ten-year average.

BASEBALL SCORES.

SPOKANE, Sept. 10.—Portland, 7; Spokane, 0.

PRICE OF SILVER.

NEW YORK, Sept. 10.—Silver, 55 1/2.
