SURGEONS' HOPES REMAIN UNSHAKEN

President's Condition Becoming More Satisfactory.

PASSED COMFORTABLE NIGHT

Evidences of Improvement Were the President's Keen Relish of Beef Juice and That Wound is Becoming More Healthy.

BUFFALO, Sept. 11.—The night consultation of physicians furnishes in some respects the most reassuring news which has yet come from the sick room. A microscopic count of the blood had been made during the day by Dr. Washin.

At the conference the result was submitted and found to be perfectly satisfactory. There has been no abnormal increase of white corpuscles such as would have existed had blood poisoning set in, and the doctors had the satisfaction of announcing officially that the count of blood corroborated the clinical evidence of an absence of any blood poisoning.

The president was bathed and given nourishment and afterward placed in his new bed.

Secretary Root announced that he felt free to depart for New York tomorrow.

MILWAUKEE HOUSE, Sept. 11.—The following bulletin was issued by the president's physicians.

"10 p. m.—The president's condition continues favorable. A blood count corroborates the clinical evidence of any blood poisoning. He is able to take more nourishment and rest."

"Pulse, 120; temperature, 100.4."

BUFFALO, Sept. 11.—The condition of the president continued favorable throughout the day and nothing occurred to shake the faith of the attending physicians, who have expressed the opinion that he will recover.

The danger from two sources was pronounced practically over today. The holes in the stomach proper, caused by perforation of the bullet, are now considered healed by Dr. McBurney and his associates, and the eminent surgeon points to the fact that the beef juice, fed to the patient last night, was readily digested in part of this. A sufficient film has also elapsed to warrant the doctors in asserting that the danger of inflammation where the bullet lodged has disappeared. It is believed that the ball now will become encased in the muscles of the back, and unless it prove troublesome later there will be no necessity for removing it.

The attention of the physicians is now, therefore, mainly directed to the care and treatment of the wound caused by the incision made in the abdomen above the navel, where the operation was performed. This wound is progressing satisfactorily.

"A decided benefit followed the dressing of the wound last night," the doctors say officially.

The evidences of improvement were the president's keen relish of the beef juice given him during the night and the increase in his allowances from one to three teaspoonfuls, and also the fact that the wound is breathing more healthily.

Dr. McBurney explained this afternoon that the slight irritation still remaining should pass away with the next twenty-four hours.

WILL NOT BE REMOVED.

BUFFALO, Sept. 11.—It is now virtually decided that no attempt will be made to remove the president to Washington until he has completely recovered, and in a general way it can be said that there is no likelihood that this will be before October.

COUNTENANCED THE ACT.

Senate Willing Expelled From the Maryland Board of Governors.

BALTIMORE, Sept. 11.—At a meeting tonight of the board of governors of the Union League of Maryland resolutions were adopted expelling Senator Geo. L. Wellington from membership. The resolutions, after referring to the attempted assassination of President McKinley by Czolgoz, state that "the people of Maryland have learned with shame and loathing that Geo. L. Wellington, representative of this state in the senate of the United States, has countenanced the act of this traitor to his country and an enemy to mankind, by repeated public expressions of indifference to the act or its result."

REJOICING IN BERLIN.

Public Opinion Much Interested in President's Condition.

BERLIN, Sept. 11.—Everybody here rejoices in the reassuring dispatches as to the condition of President McKinley. Public interest in the outcome has in no way abated. A fine picture of Mr McKinley in the window of the office of the Lokal Anzeiger attracted crowds, those who study it commenting upon its characteristic features.

The Berliner Tagblatt refers to the fact that the municipal council of Paris, the lord mayor of London and the London chamber of commerce together with other public bodies, have sent dispatches of sympathy and it expressed wonder that the Berliner corporations have failed to do the same, "especially since there are so many points of contact between Germany and the United States."

The German papers unanimously point out that anarchist propaganda will continue a common danger and they recommend common precautions.

"Great states should unite," says one journal, "in fighting criminals who indiscriminately organize, execute and celebrate assassination in America and in Europe. Everywhere, in Europe the energetic action of the United States against anarchism should be hailed with satisfaction."

The Cologne Gazette, semi-official, says:

"Europe has already done so much to check anarchism that it can now leave the problem to the Americans who are eminently practical people and will doubtless devise means of rooting out the evil in their own country. Europe will look with the greatest interest to the inauguration of such a crusade and will doubtless learn something to its own advantage."

MONSTER GRAND ARMY PARADE IN CLEVELAND

Magnificent Pageant on the Streets Witnessed by Nearly Half a Million People.

CLEVELAND, Sept. 11.—The Grand Army of the Republic have again responded to the bugle call and today fell into line as they were wont to do in the dark days of the civil war. They awoke this morning to the sound of the reveille, and long before the hour set for the starting of the parade, they lined the streets and avenues adjacent to Euclid and Case avenues, where the parade was formed.

Old veterans, prominent in the affairs of the G. A. R., said it was the grandest parade and the greatest day the organization has ever had.

In a seemingly interminable line of blue, the various departments took up their march over the hard granite pavements. Surging masses of people numbering hundreds of thousands lined the streets.

It is estimated that nearly half a million people were spectators of the magnificent pageant.

SHELLEY COURT OPENS IN WASHINGTON TODAY

Competency of Rear-Admiral Howison Will Be Challenged by Mr. Shelley's Counsel.

WASHINGTON, Sept. 11.—All members of the Shelley court of inquiry are now in Washington and the court will open tomorrow.

The most interesting part of the day's proceedings will be the challenging by Admiral Schley's counsel of the competency of Rear-Admiral Howison as a member of the court. They will reiterate the charges that Rear-Admiral Howison had expressed an opinion adverse to Admiral Schley and it will be the object of counsel to support this charge by affidavits, and perhaps by oral testimony.

Admirals Dewey and Dentham will decide and determine whether or not the statements presented are sufficient to make manifest the incompetency of Rear-Admiral Howison.

WILL BE HELD WITHOUT BONDS

Emma Goldman Must Wait Habeas Corpus Decision.

MAY BE RELEASED LATER

Question Will Be Decided by Justice Prindle Tomorrow—Trial Set for September 19—Will Act as Her Own Attorney.

CHICAGO, Sept. 11.—Magistrate Prindle today said that Emma Goldman, the anarchist lecturer under arrest here, should be held without bail pending the decision of the upper court in the habeas corpus proceedings instituted by other anarchists who are similarly charged.

The action of Justice Prindle in holding her without bail extends only to Friday of this week.

At the time the question will be reconsidered and the magistrate will decide whether she shall be held without bail or released under bonds until the preliminary hearing of the charge against her, which is set for September 15th.

Miss Goldman had not secured counsel, but in a determined voice declared that she was ready to act as her own attorney.

INDICTMENT WILL BE SECURED.

Authorities Consulting Over Extradition of Emma Goldman.

BUFFALO, Sept. 11.—The Buffalo police have made no request for the extradition of Emma Goldman, under arrest in Chicago on suspicion of complicity in the plot to murder President McKinley.

Superintendent of the Police Bull and District Attorney Penny have had a couple of consultations on the subject since the news of the woman's arrest reached them, but it is evident that they have not finally decided upon a course of action. They want to give the Chicago police department time to make a thorough investigation at that end with the supposed confederate of Czolgoz in their custody and they are anxious that the recovery of President McKinley be positively certain before they go into court.

They have on foot a general investigation aimed at showing that the Goldman woman was an accessory and apparently want more time. There does not seem to be any doubt that when the time comes a showing sufficient to warrant the extradition of the woman will be forthcoming.

Czolgoz in his confession made on the night of his arrest admitted that he had heard inflammatory speeches and read the incendiary literature of Emma Goldman, and since then both have admitted that they met. There may not be enough evidence to convict her in the hands of the police at the present time, but there is little doubt that the indictment can be secured against her.

The police are working to secure reports of the Goldman speeches that Czolgoz heard and also copies of her pamphlets which were read by him and they are carefully investigating the circumstances under which they met. Discussing the case with an Associated Press representative, Superintendent Bull said:

"Any action as to Emma Goldman is in the hands of District Attorney Penny, but I will say that no request for her extradition has been made. The impression that an indictment is absolutely necessary to secure extradition is not correct, but most governors insist that there must be an indictment. Nothing has been decided as to our action in the case and I cannot at this time say what will be done. It would hardly be wise to make any move toward the court until the result of the president's wound is finally and definitely known. There will be no extraordinary session called for the grand jury now in session here has all the power this is necessary. We have no one other than Czolgoz in custody in Buffalo.

"Are you depending entirely on the Chicago police for your evidence in the Goldman case?" the superintendent was asked.

"No, we are not," he said. "We are working on her case ourselves and are also operating with the Chicago department."

EMPLOYERS OF ANARCHISTS.

Denial Made That They Are Engaged on Government Works.

CLEVELAND, Sept. 11.—Director of Public Works Charles P. Salen takes exception to the statement published in yesterday's papers to the effect that anarchists are being employed by the government. Mr. Salen last night gave the Associated Press a written statement concerning the matter as follows:

"After the flood which visited Cleveland a week ago last Sunday we advertised for laborers to repair the damages and during the week put to work

THE FIGHT WILL BE CARRIED ON

Steel Workers Will Continue Strike Until They Win.

ALL PEACE RUMORS DENIED

President Shaffer Will Make No Further Efforts for the Present—Monesen Mills Running Full Force Day and Night.

PITTSBURGH, Sept. 11.—Wall, positive stories of a peaceful settlement of the strike of the Amalgamated Association continued to be heard today, President Shaffer continued to deny them emphatically and said that the battle of the steel workers would go on until they won.

He denied that the executive board had instructed him to settle the strike on any terms and said that he would not go to New York or make any further peace movement for the present. While the president of the Amalgamated Association was standing in this position, officials of the steel corporation were putting forth every effort to start their plants.

Tonight, for the first time since the strike, the steel hoop mill at Monessen is running a full force which practically ends all semblance of a strike there. Every mill in that town is now running day and night.

COLONEL MEADE WAS DRUNK WHILE ON DUTY

Sensational Termination of Court Martial at Brooklyn Navy Yard—Additional Charges Made.

WASHINGTON, Sept. 11.—The longest court of inquiry in the history of the navy ever held at the Brooklyn navy yard has come to sensational termination.

Major C. H. Laughheimer and Colonel F. L. Denny charged Colonel Robert L. Meade with drunkenness on duty. Colonel Meade replied by charging Major Laughheimer with making a false report and Colonel Denny with reporting against him (Meade) in order to cover up irregularities with contractors on Denny's part.

The court of inquiry acquitted major Laughheimer and Colonel Denny of Meade's charges. It sustained the charge against Colonel Meade and in addition charged him with a violation of naval regulations in replying with a counter charge when asked for a report, and also of false swearing on the witness stand. The court recommended that the colonel be tried upon a court martial on these charges.

GREAT NORTHERN WEST-BOUND RUNS AWAY

Freight Train Wrecked Near Wellington and Two Men Killed and Two Injured.

SEATTLE, Sept. 11.—A special to the Times from Skykomish, Wash., says:

"The west-bound Great Northern freight train No. 15, ran away at 10:30 this morning and was wrecked one and a half miles west of Wellington. The cause is supposed to have been defective brakes. The killed are ENGINEER FRANK DAHLGREN, FIREMAN JOHN CAMPBELL.

The injured are: Conductor Nordquist, lost one arm and head injured. Brakeman Blossom, shoulder broken. Thirty-two cars are off the track. Eight cars remained on the track. They are all on fire.

GREAT RUSH FROM DAWSON.

VANCOUVER, B. C., Sept. 11.—The steamer H. Ting, from Skagway, today brought \$250,000 in gold dust. Passengers from Dawson say a great outward rush from that city is now on. It is estimated that 5000 people will come out during September and October.

MRS. PARSONS INTERVIEWED.

Expresses Pleasure When Told of Recovery of the President.

CHICAGO, Sept. 11.—Lucy Parsons, widow of the anarchist who was hanged for his complicity in the Haymarket riots in Chicago, was interviewed by a representative of the Associated Press after the arrest of Emma Goldman. Mrs. Parsons was found in the garden in the rear of her comfortable cottage in North Troy street.

Mrs. Parsons admitted that she knew Emma Goldman, stating that she first met her in 1887 in Philadelphia, where Mrs. Parsons went on a lecturing tour. Mrs. Parsons declared, however, that for several years she had held aloof from the active circles of anarchy and as an evidence of her sincerity expressed the greatest pleasure when told that President

WAS NOT IN CHARGE.

San Francisco, Sept. 11.—Representative Metcalf, of the Third California district, proposes to introduce a strong immigration restrictive measure at the next session of congress. He says:

"No anarchists should be allowed to land on our shores and it should be regarded as treason and treated as such for any man or woman to make an attack upon the life of the president or vice-president of the United States or to advocate, encourage or approve the assassination or attempted assassination of the president or vice-president of the United States."

Resolutions to this effect have been adopted by the Merchants' Association of this city.

AN ARCH CONSPIRATOR.

Some Unknown Man in America Behind the Anarchists.

NEW YORK, Sept. 11.—James M. Trimble, of Newark, who has just completed his work as commissioner for the state of New Jersey, to inquire into the killing of King Humbert, is quoted as saying:

"My investigation of the Bresel affair has shown plainly that there is a man in this country who is the arch conspirator in all these assassinations. I cannot now give his name. I sent all the evidence to the Italian government. Who was it that gave to Bresel and his colleagues the money necessary for them to accomplish their deeds of violence?"

"The answer to this question will give the name of the most dangerous man in America today."
