SETH LOW'S PLAIN WORDS

No-Partisanship in Municipal Affairs the
Corner Stone of Platform—Official
Head of Police Commission
surer Threatened.

NEW YORK, Oct. 10.—The Republicans of this city last night held a large meeting in the Grand Central Palace, at which the nomination of Seth Low for mayor of Greater New York and the entire fusion ticket were ratified. The list of speakers included Mr. Low, General B. F. Tracy, Edward M. Grot, Charles V. Forney and Job Hedges. Messrs. Grot and Forney are candidates respectively for controller and president of the board of aldermen. The names of almost all the Republican leaders appeared in the lists of vice-presidents and many of them were present.

Robert C. Morris, chairman of the Republican county committee, in calling the meeting to order said the Republican organization had not asked any pledges from the candidates on the fusion ticket except that they would live up to the principle of non-partisan municipal government.

Seth Low, on being introduced, said non-partisanship in municipal affairs was the corner stone of the platform on which he stood. His referral to his opponent, Mr. Shepard, as being inconsistent in his course concerning city affairs.

When Mr. Low mentioned Deputy Superintendent of Police Devrey's name and remarked that he had been asked if in the event of his election he would remove Devrey, he said:

"If it had been asked seriously I would take it as an affront."

This brought great applause, when Mr. Low said if elected he would see that the official head of Commissioner Murphy and Deputy Devrey would roll on the floor as soon after January as possible. Mr. Low said with reference to the rank and file of the police department that he would give them a head who would treat them fairly.

KOCH'S THEORY IS CORRECT.

Human Tuberculosis Caused by Not Readily Infect Animals.

NEW YORK, Oct. 10.—Interesting experiments of much importance in the public health are being made at the bacteriological laboratory of the board of health. They are being held to test Prof. Koch's theory that human tuberculosis cannot be readily transmitted by infected cows or calves.

So far the experiments have shown that theory to be correct, it is said.

All the calves reacted, however, to a tuberculin test, but the reaction was very slight and it may have been due to it is said, to inflammation or other causes considered by the investigators at the laboratory to be of minor importance.
