WASHINGTON, Oct. 12.—The Schley court held but one session today. Lieutenant Commander Staunton, who served on the New York as assistant to Chadwick, as chief of staff for Schley, and Lieutenant Twining, formerly of the Iowa, were introduced as new witnesses.

Staunton's testimony dealt mostly with dispatches forwarded by Sampson to Schley, and while he was under examination Raynor outlined a contention in behalf of Schley to the effect that the dispatch written May 21 was the first positive notice that the commander-in-chief had given Schley of the presence of the Spanish fleet in the harbor at Santiago.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic, S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

BULLER'S BAD BREAK.

His Unusually Exhibition Has Alienated Sympathy of the Country.

NEW YORK, Oct. 12.—Commenting upon the recent utterances of General Buller, the London correspondent of the Tribune says:

Sir Buller's outbreak has arrayed the entire press against him and probably alienated the sympathy of the country, already seriously impaired. The king is a stern disciplinarian and has an intense horror of bad form and General Buller, by his unbecomingly exhibition, has visited all the amenities of military etiquette. His downfall cannot long be deferred, strong as have been the Aldershot and social influence behind him.

The new line, unlike the lower Congo railway, will remain the permanent property of the Congo Free State.

PLEADS FOR THE BOERS

OPEN LETTER ADDRESSED TO PRESIDENT ROOSEVELT.

Hollander Relates British Crimes and Casualties—British Press Arrayed Against Buller.

NEW YORK, Oct. 12.—An open letter addressed to President Roosevelt appears in the American Handbill, says the Tribune correspondent of the Times. It is written by Charles Hollander, who is well known in England as an ardent Boer sympathizer and who addressed a similar letter to the Duke of Devonshire a year ago.

The new letter includes a historical synopsis of British crimes and cruelties and says Great Britain is now filling the role she has invariably played in the past. He declares that Great Britain has neither the moral courage to offer reasonable terms to the Boers nor the address to overwhelm them. He concludes:

"May the splendid ultimate triumph of the Dutch race in South Africa be followed by the sympathy of that American nation whose triumph had the ardent wishes of Holland. The ultimate triumph of the Dutch republic will be a victory for law and order and righteousness."

CAPE TOWN AGITATED.

Opposed to the Unrestricted Immigration of Indians.

NEW YORK, Oct. 12.—The correspondent of the Times at Cape Town reports agitation in that city against the unrestricted influx of Indians. There is in Cape Colony no provision like that in Natal for the regulation of immigration.

The Cape Argus reminds the colonists that they must revise their notions on such matters, owing to the war, one of the causes of which was the British championship of Indian grievances. The Indians, says the Argus, have helped the whole colonies with all their power. Many serve in the British army in humble capacities and many others are respectable inhabitants of Cape Town.

SPRINGFIELD, Oct. 12.—Dr. Leyds, in an interview with a correspondent of the Times at Springfield, says the British have not yet provided the Boers with the ammunition, horses and food. He believes that thousands of Afrikaners have been driven to take the field by British informers and adds that a series of decisive successes on the part of the Boers in Cape Colony is expected.

Dr. Leyds says the Boers have buried nearly all their own rifles, and will not dig them up again until the British supply falls short.

GOOD STORIES.

An amusing story is told of Mr. Gladstone who loved to linger around the second-hand bookshop windows and finger the volumes which were there displayed. It is picked up a book that interested him frequently became quite oblivious to his surroundings. On one of these occasions a loafer who must have carefully studied Mr. Gladstone's habits whispered quietly, "Half-crown, please, sir." Without raising his eye from the book Mr. Gladstone's hand in his pocket and handed over the half-crown. A few minutes later he was going off with the prize when the bookseller, who knew him well, he sight, stopped him with a demand for one shilling, the price of the book. "But I have already

LIFE INSURANCE AS A BUSINESS PROPOSITION

Business Men to Take Up Policies to Protect Their Estates.

NEW YORK, Oct. 12.—The industry of business men to protect their estates by means of life insurance is becoming as general as to protect their buildings by policy of fire insurance. George W. Vandenberg, of New York, and Frank H. Deaver, of Minneapolis, each took policies for \$1,000,000 a few years ago in the Mutual Life Insurance Company of New York. There have been no equally large sums written on one individual, these remain the record figures for the world. But policies of \$500,000 and \$1,000,000 and even \$2,000,000 are so frequent as to cause little comment, and even when \$100,000 a year is written, it is not considered a large sum.
