## WILL WITNESS THE BIG FIGHT

### Many People Are flocking to San Francisco for the Jeffries-Ruhlin Event.

## A CARLOAD FROM PORTLAND

### New York, Chicago, Pittsburg, Cincinnati and Other Eastern Cities Will Be Well Represented.

SAN FRANCISCO, Nov. 14.—Many eastern people anxious to witness the Jeffries-Ruhlin fight are coming to this city. New York and Chicago have already large delegations on the scene and more are arriving by each train. A telegraph order for fifty seats has been received from a party now on the way from Pittsburg. Another large delegation is en route from Cincinnati. Two special cars filled with sporting men from Puget Sound cities have left Seattle and will be joined in Portland by another carload.

The Los Angeles delegation, over 100 strong will arrive here this afternoon and delegations will be here from nearly every city and town in this state. At the pavilion everything will be in readiness for the event by noon today. During the afternoon the kinestoscope machines and the lights will be tested. It is asserted that Jeffries now tips the scales at 203½ pounds. He believes he can fight to better advantage when he weighs about 207 pounds. His trainer, Billy Delaney, is of a different opinion. He would rather have his protégé enter the ring weighing about 215 or 217 pounds as he knows that in the course of a heated battle Jim will take off weight.

"When I fought Fitzsimmons," said Jeffries yesterday, "I weighed 207 pounds. I was as fast as chain lightning and felt as if I could fight all night. Now that I have reached within a few pounds of that weight I know and feel satisfied that I am in the best possible condition."

With a blow of his fist, while training, Jeffries burst a punching bag. It was done with one of the left swines which won for the boiler-maker the glory of the world's championship. Today Jeffries will do light work in the Bellanca Club gymnasium. A

## BARBARITIES OF THE TURKS

### Are Responsible for Pillage, Murder and Brigandage in Macedonia.

## CRYING OUT FOR VENGEANCE

### The Voice of the People Who Freed Cuba Should Awaken the Cabinets of European Countries.

NEW YORK, Nov. 14.—Petko Karaveloff, the Prime Minister of Bulgaria, has just been interviewed by the Sofia correspondent of the Journal and Advertiser. Said the Prime Minister: "For humanitarian reasons the minister of the interior has undertaken to tolerate fresh intercourse between the brigands and an American agent. It is a bad precedent to recognize the brigands, however indirectly, but we wish to stretch a point for America and the cause of humanity."

"The brigands wherever they are can now treat unopposed with the American republic and safe conduct will be given to any man or men recommended by Mr. Dickenson."

"There is no brigandage in Bulgaria, Turkey is the cause of the brigandage, pillage, murder and massacre in Macedonia. Conditions there are intolerable. Europe has been in a vicious circle regarding Macedonia since the Berlin treaty, all the powers agree that Macedonia should have autonomy but none is willing to move in the matter. Count Andrássy of Austria was more to blame than Lord Bessonsfeld at the Berlin conference for the present condition of Macedonia which is crying to heaven for vengeance."

"France patches up her quarrel with Turkey, oblivious of liberty, equality and fraternity for Macedonia; Germany is satisfied with all matters out with Turkey; Europeans themselves may break the vicious circle and break Turkey's cruel yoke. We look you by the sword; by the sword we shall hold you. All we ask for Macedonia is autonomy. We do not seek annexation."

"If the American people knew the kind of heinous barbarities perpetrated by Turkey in Macedonia the voice of the nation which freed Cuba and fought the most chivalrous and unselfish war of modern times would awaken the cabinets of Europe to a sense of their duty regarding Macedonia."

In conclusion the premier said that he wished the United States would establish consulates at Sofia, Varna and Philippopolis, particularly as Bulgaria is entirely agricultural and needs American agricultural implements.
