A housekeeper should be a good judge for she too must have experience and learning or she may think that the soaps made to look like Ivory Soap are just as good. With experience she will know that they lack the remarkable qualities of the genuine. Ivory Soap—99 1/4 per cent. pure.

ENGLAND MADE A GREAT MISTAKE

To Enter Into Stipulations Respecting Central America Territory.

SO SAYS HON. DAVID MILLS
United States Had No Territorial Interests There and No Basis of Public Law Limiting British Claims.

NEW YORK, Nov. 27.—David Mills, Minister of Justice in Canada, contributes in the December number of the Empire Review an historical examination of the British territorial claims in Central America prior to the Clayton-Bulwer convention and unusual course of the United States in questioning the validity of the rights of British settlers, cables the London correspondent of the Tribune. He contends that it was a great mistake for the British government to enter into any stipulations respecting its own territories in Central America and that the United States had no territorial interests there and no basis of public law for disavowing and limiting the British claims to Brazil, where industrial operations had been conducted for two centuries. The minister's argument is luminous and the facts are stated in excellent perspective, but the hearing of his is against the Clayton-Bulwer convention rather than the revocation of the treaty for the practical purpose of facilitating the construction of the canal. The trend of public opinion remains strongly in the direction of the settlement of the canal question on any terms which would enable the American government to construct the waterway and promote the welfare of the world.

The two men were struggling to get past each other at the crowded entrance to the football park. "I ought to get in first," exclaimed the one with the leather case under his arm. "I'm a surgeon." "That doesn't cut any sort of plaster with me," replied the other. "I'm an undertaker!"—Chicago Tribune.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Bloch, 720 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face which resisted all treatment. She was taken to two different health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S. and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now a healthy girl and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexion. It purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Pimples, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.
