PRINCE OF WALES WARMLY GREETED

Upon His Recent Visit to the Capital of the British Empire.

LOYALTY OF THE COLONIES

Created and Fostered in a Large Degree by the Life and Example of the Late Queen Victoria.

NEW YORK, Dec. 6.—The recent visit of the Prince and Princess of Wales to the city evoked demonstrations of loyalty worthy of the best traditions of the capital of the British empire, says the London correspondent of the Tribune. It was the first royal visit to the city since the accession of the king, and citizens rose to the height of such an unique occasion. Happily the day was not foggy and the royal couple made the progress in comfort through the gaily decorated streets amid cheering crowds to the Guild Hall, where the lord mayor, aldermen and county council were waiting to welcome them home from their memorable tour. The scene in the library of the Guild Hall was one of the utmost brilliancy, the bright colors of velvet or diplomatic dress which was worn by the guests contrasting with the mazarin gowns of the councillors. Here the city's address of welcome was read by the recorder and after a short reply from the prince a move was made to the Guild Hall, where luncheon was served. Eagerness and flowers, corporation silver and vases in the richest profusion covered the board and behind the chief seats at the longer table was ranged the famous gold plate of the city.

The great features of the occasion was the speech of the prince in response to the toast of his health. He said that if he were asked to specify any particular impression derived from the tour he would undoubtedly place before all other that of loyalty to the crown and attachment to the old country and were he to seek for the causes which had created and fostered that spirit he would attribute them in a large degree to the life and example of Queen Victoria.

After an appreciation of the military services rendered to the empire by the colonies, the prince pointed out that if England wished to hold her own against the foreigner in the commercial world she must take advantage of the mineral wealth and vast expanse of the virgin soil of the colonies and send the surplus population of her cities to live there under healthy conditions, liberal laws and free institutions.

ITO'S VISIT.

To St. Petersburg Regarded With Indifference at Tokyo.

NEW YORK, Dec. 6.—A message from Tokyo to the London Times and New York Times says the visit of Marquis Ito to St. Petersburg is regarded with absolute indifference in the Japanese capital. The press and public opinion attach no political importance to the visit and do not believe in the efficiency of any Russo-Japanese agreement from which Great Britain should be excluded, even assuming that Japanese reluctance and distrust could be overcome. The futile convention of 1894 suggests the unlikelihood of any practical basis of agreement with Russia.

Nevertheless, says the dispatch, Russian agents are earnestly endeavoring to influence Japan by emphasizing the influence of commerce which must rise in the completion of the trans-Siberian railway and by insisting that the condition of Russian finance peremptorily forbids a permanent occupation of Manchuria.

This, it is represented, would involve the employment of a large capital for the development of Manchuria's resources as well as heavy military expenditures.

CHEERS FOR CZOLGOSZ

PRESIDENT'S ASSASSIN PUBLICLY LAUDED

Abraham Isaak, Anarchist Leader, Declared He Could Not Condemn Murderer.

CHICAGO, Dec. 6.—President McKinley's assassin was cheered publicly in Chicago last night. A challenge from the platform that anarchists dared not condemn the crime at Buffalo was met with a vigorous "You're a liar," Abraham Isaak, the recognized leader of the "reds" in this city and editor of Free Society, declared openly he could not condemn the assassin's act. He said that as to personal merit he took a second place to Czolgosz.

The confession of Isaak was accompanied by a scene of intense excitement. It was the climax of the debate on "Socialism or Anarchy," and came when the crowd of over 1500 had been aroused thoroughly by wild oratorical denunciations.

"Hurrah for Czolgosz," shouted a man in the gallery, swinging his hat above his head.

Hisses, jeers, yells of approval and cat calls came from all parts of the house. The crowd rose to its feet and riot was only averted by the prompt action of the chairman.

WHEAT MARKET.

SAN FRANCISCO, Dec. 6.—Wheat, cash, 102 1/2.

CHICAGO, Dec. 6.—Wheat, May, opening, 80 1/2; closing, 79 3/4.

TACOMA, Dec. 6.—Wheat, bluestem, 6 1/2; club, 6 1/4.

PORTLAND, Dec. 6.—Wheat, Walla Walla, 60 1/2; bluestem, 61.

It is hardly to be supposed that a little place like Charleston will be able to match exposition deficits with Chicago and Buffalo.—Denver Republican.

SHEEP MEN LEASE GRAZING LAND

Four Hundred and Eighty Thousand Acres at One Cent Per Acre.

CONTROL GOVERNMENT LAND

By Leasing Every Alternate Section of Railroad Land Hope to Also Control Public Range in Red District Country.

RAWLINS, WYO., Dec. 6.—The sheep men of this section are in a fair way to realize their hopes in the matter of leasing a tract of railroad land in the Red District country. Additional details relative to the proposed combination have been given out by those interested.

It is proposed to lease 480,000 acres at an annual rental of one cent per acre, and it is understood that the railroad company will accept this proposition. Each sheep man will be assessed at the rate of \$50 per year for every 2000 head of sheep ranged on the tract. While nothing has been said about the government land, still it is understood that by leasing every alternate section of railroad land the sheep men will also control the government land, thereby giving them a million acres of fine range. It is expected that the deal will be closed up in a few days. The land will be divided then among the several members of the combination.

SUFFERED INDIGNITIES.

American Vice-Consul Arrested by German Authorities.

BERLIN, Dec. 6.—Paul H. Schilling, the American vice-consul at Seiffen, Germany, who was arrested last month by the German authorities in mistake for another man and detained for one day has addressed a letter to the press in which he sets forth the indignities he suffered at the hands of the Seiffen authorities. He says his nurse was taken from him by force, that he was confined in a cold cell and that when he was released, the authorities in no way expressed regret or apologized for their action.

It is announced here that the divorce of the Grand Duke and Grand Duchess of Hesse will be decreed by a special tribunal of the Darmstadt law courts. The Polish anti-German agitation is beginning to attract serious attention in the German press. The reactionary papers are calling for representative measures. The local Anzeiger reports that both the Australian and the Russian governments have promised to adopt measures to suppress the agitation.

UP-TO-DATE STORIES.

Senator Mark Hanna, when it came his turn for a story not long ago, in the Waldorf-Astoria, says the New York Times told the following:

"When Robert G. Ingersoll came to Washington from the West, his head filled with legal lore and indignity, or it would be better to call it agnosticism, he encountered in one of the corridors of the Capitol an old negro woman vigorously scrubbing the floor, when she heard any one coming and when the footstep died away, loudly reading her Bible.

"He slipped up on her very quietly one morning, and taking her by surprise with her previous book, said: 'Mary, do you believe all you read there?'

"'I sure do,' she replied, 'every word, 'Colonel Ingersoll.'

"'Do you believe that God made man out of dust?'

"'In course I does.'

"'Say it happened to rain hard about that time and the dust was gone and there was nothing but mud?'

"'Den do good Lord knowed enough to know dat it was time to make dem lawyers and judges, Colonel Ingersoll.'

"'Bob walked away crestfallen and quoting Tennyson's 'In Memoriam': 'Leave thou thy sister when she prays.'

A New York young man just back from a trip in Canada was telling his friends of the times he had had.

"We took a horse and buckboard," said he, "from Xavier station out into the woods for a day's shooting. When we got there, of course, we unhitched the horse and took off the harness. Then we went hunting.

At night when we came to hitch up, banged if we knew how to do it. In about an hour we got nearly all the harness on, but the old horse wouldn't let us put the bit in his mouth. We couldn't drive him without that!

"Charlie said: 'Say, have you lots of cigars?'

"'Yes,' said I, 'but what has that to do with it?'

"'Well,' said he, 'we shall just sit down and smoke till that brute yawns! And we did it.'

President Roosevelt still retains his sense of humor. Representative Boerling of Kentucky, accompanied by Senator Mason of Illinois, visited the president recently. It was Mr. Boerling's

fourth visit in four days, and the president had been overrun with other Republican leaders from Kentucky for more than a week.

"Do you know what I am thinking about doing?" asked the president of Senator Mason, with a twinkle in his eye.

"That would be hard to tell, Mr. President," said Senator Mason.

"I am thinking about dividing the affairs of the government into two parts—one relating to the affairs of Kentucky and the other to the affairs of the rest of the government."

Mr. Boerling joined in the laugh, but he cut his visit short. New York Herald.

LIFE IS GROWING LONGER.

From statistics and results of certain changes in the methods of living, it has been proven that the span of life is being lengthened. We are justified in believing this when we consider the great advances made in medicine during the past fifty years. The most noteworthy of them being Hostetter's Stomach Bitters, the old reliable remedy for all ailments of the stomach, liver and bowels. It cures dyspepsia, indigestion, constipation, headache, sour stomach, belching, heartburn and biliousness. It is the best medicine in the world for run down systems, and has a record of fifty years of cures. Women should also try it, as it will certainly do them good. Our Private Die Stamp is over the neck of the bottle.

CHEAP COAL MINING.

The industrial supremacy of the United States is being increased in many of the products of mines, forest and workshops, and in none more earnestly than in the matter of coal. This will no doubt be handled in many of the foreign ports by English houses, already established for so many years, and having all the facilities for doing business in the continental and other ports, and this will give the opportunity for the conservation of British coal, which is produced at greater cost than American because of the depths to which it is now necessary to extend the workings and the greater cost of labor per ton, there being little other than manual labor employed in the extraction of the coal at British pits.

On the contrary, a large tonnage in the United States is mined by machinery, the great increase in machine-mined product in the United States—1.6 per cent in the last five years—is the best evidence obtainable of economic advantages thereby secured.

In raising coal, and there is no doubt that British collieries would derive great benefit by following the American example in the more general adoption of collecting by electric or compressed-air-driven machines. The number of mechanical coal-cutters employed in the United Kingdom during 1900 was only 311, of which 240 were driven by compressed air and 71 by electricity. The quantity of coal so obtained amounting only to 5,312,000 tons, while in the numerous coal districts of the United States there were over 100,000 mechanical cutters used, collected and driven about 100,000 persons which yielded an output of about 47,000,000 gross tons. It is this cutting by machinery that enables the American producer to put his coal on cars in Pennsylvania at 15 cents a ton, and in West Virginia at 40 cents a ton.—P. E. Seward, in the Engineering Magazine for December.

Rheumatism

Rheumatism is the cry of protest and distress from tortured muscles, aching joints and sensitive nerves. The blood has been poisoned by the accumulation of waste matter, and can no longer cleanse itself. The blood is no longer a pure and healthful fluid, but is a mass of impurities. The whole system feels the effect of this poison, and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Dr. J. C. Williams' Pink Pills for Pale People is the best remedy for Rheumatism. It purifies the blood, and restores the system to its normal state. The blood is the life of the body, and if it is impure, the body will suffer. The Pink Pills are the only remedy that can purify the blood, and restore the system to its normal state.

There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians full and freely about your case. We make no charge for medical advice.

POLITICAL ANNOUNCEMENTS.

What They Think of It

THEO. ROOSEVELT
ABRAHAM H. WITT
JOHN WANNAMAKER

President Theodore Roosevelt. "It is the duty of every good citizen to support the Citizens Union ticket. Tammany should serve as a horrible example to those who advocate partisanship in the administration of municipal affairs."

A. H. Haight, Democrat as the foremost champion of New York City, fall to see by what process of reasoning they can read me out of the party. My opposition to Tammany is based upon the axiom that whenever Tammany returns to power, its leaders consider the city revenues as spoils which they will divide among themselves. The right belongs to its leaders. City government is a business proposition, and he who appeals to the partisan spirit of the people in a city election is not a good citizen."

John Wannamaker. "Have the people of Philadelphia lost all civic pride? Do they not see what politics has done for our city? If there be an up-right citizen in this community who cannot see what party politics in local affairs leads to, then indeed do I fear for the future. Only those who seek to profit by it advocate this pernicious system."
