SAN FRANCISCO, Jan. 4.—As far as can be determined by diligent inquiry and careful checking and the comparison of lists, the dead and missing from the wreck of the steamer Walla Walla now number fifty-two people. The known dead number eight; the passengers missing, twenty; the crew missing, twenty-four.

Ed. Reiss, waiter.

The list of saved includes fifty-one passengers and fifty-five of the crew.

Two of the missing life boats arrived last night north of Trinidad and seventeen people were landed from them.

This leaves one life boat and two life rafts yet to be accounted for. The rafts are in charge of the first and second officers of the Walla Walla.

The steamer Some City arrived here tonight with six survivors of the lost Walla Walla. They were picked up from a life raft. Their names are:

P. Nelson, first officer; F. Lipp, second officer; C. Brown, fourth officer; J. Shiel, pantryman; S. Murello, cook; Henry Erickson, passenger.

Erickson, who was picked up by the Some City, was accompanied by his wife and three children, who are yet unaccounted for. They were found by Whatcom, Wash.

The presence of so many officers on the life raft is accounted for as follows:

The first, second and fourth officers were on the rear of the Walla Walla, doing all in their power to rescue the passengers, when they noticed the vessel sinking. Just previous from this they had thrown the raft from the steamer to the passengers who had jumped into the water. As the boat was going down the officers leaped and were picked up by those who had succeeded in boarding the raft. There were originally eight persons on the raft, those mentioned above, an unknown woman and the 15-year-old son of Rev. Dr. Erickson.

Shortly after the Walla Walla went down these on the raft met one of the lifeboats and the unknown woman was removed from the raft to the boat. Young Erickson died from exposure twelve hours after the Walla Walla went down. The survivors saw the steamer Despatch come and go out of Eureka, but could not hail her.

DEATH OF MRS. TUBMAN.

CHICAGO, Jan. 4.—Mrs. Mary Grant Tubman died at her residence in this

city today. When a girl she was the daughter of a regiment in the English army—the Twenty-sixth Cameron. She was born in Edinburgh 64 years ago, her father, Donald Grant, then being a sergeant and the regiment stationed there. For four years, while her father was engaged in the China war, "the child of the regiment" lived with the British consul in the East Indies. After that she went with the regiment to England, Ireland, Scotland, Wales and Africa and finally to Gibraltar. There, when 15 years old, she was married to Richard M. Tubman, a sergeant. Mr. Tubman bought his discharge from the army and moved to Detroit, Mich., where he was general passenger agent for the Grand Trunk Railway before he moved to Chicago shortly after the war.

STOCK MARKET ACTIVE

Rumors of Combination Projects Has Stimulated Speculation.

NEW YORK, Jan. 4.—There has been a general strong and active stock market this week in spite of the seasonable stringency of the money market and the interruption of the New Year holiday. The execution of the Northern Pacific preferred retirement and the success thus indicated for the organization of the Northern Securities Company, has stimulated speculation and has given rise to rumors of various other combination projects to follow that one, notably one of the anthracite carriers.

The hope that the period of money stringency would soon be over with the return through January disbursements has neutralized the influence of high money rates. Realizing profits on the advance made some inroads upon best prices.

KAISER'S NEW YACHT

WILL BE LARGEST SCHOONER YACHT AFLOAT.

Miss Roosevelt Will Christen New Boat Which Will Be Completed Soon.

NEW YORK, Jan. 4.—The Tribune publishes the following facts concerning the German emperor's yacht which it is expected Miss Alice Roosevelt will christen at the request of the Kaiser: The yacht is being built by the Townsend & Downey Shipbuilders Company, from designs by Carey, Smith and Barbey, is almost completed and it is hoped that she will be launched the early part of February. She will be the largest schooner yacht afloat, the architects say, her dimensions being 161 feet over all, with a beam of 27 feet. With awnings set and curtains at the side there will be ample room on deck to give a ball.

To carry out the emperor's commands her finish throughout will be plain, yet substantial. All her deck work, such as the deck house, skylights and rail will be of selected teak wood and all capstans, winches, etc., of bronze. Aft is a deck house of steel, caulked with teak. There is a bath room on the starboard side, opening directly from the ladies' cabin. Opening from the passage leading from the vestibule to the saloon are three state rooms and a bath room for gentlemen in waiting. The owner's room is on the starboard side, just aft of the saloon. It is a large one, being about 15 feet long. It contains a brass bedstead, several wardrobes, dressing table and writing desk. The room has a large skylight; in fact, it is a feature of the yacht that every room is ventilated not only by daylight through the side in the usual manner, but also by means of skylights.

The state rooms are few in number, but of large size. The main saloon extends the whole width of the boat and is 15 feet long. There is a transom on each side, a piano at the after end, while there is an open fireplace at the forward end. The large extension table in the center will seat 24 persons. Throughout the owner's quarters the woodwork will be mahogany inlaid with ivory, touched up with gold, with only a small amount of the trim showing the natural wood, thus carrying out the emperor's idea of simplicity. Forward of the saloon are a large owner's gallery and an entirely separate gallery for the officers and crew.

The emperor is taking an extreme interest in his yacht, and has given detailed orders as to how she is to be fitted out. All questions relating to the design, rig and outfit have, however, been left entirely to Messrs. Carey, Smith and Barbey.

GAGE'S BANKING PROJECT.

NEW YORK, Jan. 4.—Private dispatches from Chicago, saying that Secretary Gage will now organize an international banking house in this city upon his retirement from the cabinet are denied by Frank A. Vanderlip, whose name had been mentioned in connection with the alleged project, says the Tribune.

ORGANIZING THE OHIO ASSEMBLY

Hanna Men Secure Control of the House and Foraker Men of the Senate.

M'KINNON GETS SPEAKERSHIP

Nominated Over Price on First Ballot in the House—There Will Be No Opposition to Foraker's Re-election.

COLUMBUS, O., Jan. 4.—In the Re-publican caucuses this evening for the organization of the general assembly, the Hanna men secured control of the house and the Foraker men of the senate.

The senate caucus was short and featureless, but the house caucus was animated and lasted several hours. S. McKinnon, of Ashtabula, for speaker, was nominated over Price on the first ballot. While the Hanna men swept the board in the house, the senate nominations included only one pronounced Hanna man—Richard Lynch—for enrolling clerk.

F. B. Archer, Foraker candidate, was nominated for president pro tem of the senate without opposition.

The Democratic senate caucus nominated Senator W. E. Roadbush for president pro tem, and the Democratic house caucus nominated L. C. Brumbaugh for speaker.

A joint Republican caucus will be held next week. As there is no opposition to the nomination of Senator Foraker for re-election, it will be merely a formal affair.

AGREES TO ARBITRATE.

Shoe Manufacturers and Employees of Brooklyn Will Settle Differences.

NEW YORK, Jan. 4.—After a hearing in this city before Bernard Stark, a member of the state board of arbitration in the matter of the labor dispute between Wm. H. W. Gardner, shoe manufacturers of Brooklyn and the employees of the firm, it was announced that a decision would be given on next Monday or Tuesday. The disagreement between employers and employees grew out of an adjustment of wages consequent upon the introduction of a new machinery. Both sides a year ago gave bonds to submit to the results of arbitration in case of a failure to agree and at the hearing it was stated that they had signed a supplementary agreement to abide by Mr. Stark's decision no matter what it might be.

This is said to be the first instance in this section where employees and employers have voluntarily bound themselves to abide by the decision of an arbitrator or forfeit a sum of money.

TO MARK HISTORIC SPOT.

Memorial to Be Erected in Morristown, New York.

NEW YORK, Jan. 4.—At the thirtieth annual meeting of the New Jersey Society of the Sons of the American Revolution, held at Newark, N. J., on the 125th anniversary of the battle of Princeton, President John Whitehead in his annual address suggested that a memorial be erected in Morristown, to mark the place where General Washington stopped with his army and a monument at the grave of General Mercer at Trenton.

General James F. Rusling of Trenton, a member of the Princeton Monument Committee, said Franklin Murphy had promised him that if elected governor of New Jersey he would see that the monument was built. Resolutions were adopted congratulating Mr. Murphy, who is a member of the organization upon his election. A resolution was also adopted requesting the senators and representatives in Washington to "pass some law to prevent the desecration of the flag by its use for advertising and similar purposes."

The articles of incorporation of the Carnegie Institute were filed with the recorder of deeds in this city today.

TO CHECK ADVANCE OF UNITED STATES

London Paper Advises Great Britain to Form Working Alliance.

DISCLAIMS HOSTILITY TO US

Predicts America Will Gobble Up South American States and Formulate Pan-American Tariff.

LONDON, Jan. 4.—The Saturday Review today prints a remarkably free spoken editorial in which it strongly advises Great Britain to form a working alliance with Germany in order to check the "continued and apparently inevitable advance of the United States into South America."

According to the Review, "It is the wisest policy for this country to encourage the advance of Germany in the new world as the most useful counterpoise to the overwhelming predominance of the United States which is the only possible outcome of the existing political conditions."

The Review disclaims all hostility to the United States, but says:

"The solid interests of our own people which is the basis of which the United States always works, is the only sure ground on which to build."

Continuing, the Review says:

"If we would only remember that the Americans are to be believed when they describe themselves as actuated by purely business conditions we would save ourselves from a large number of gratuitous humiliations and unprofitable speculations in stocks having no real market value, viz: the presumed gratitude of political and commercial rivalry. With a strong European power established in the South and a great world power in the North, the too exuberant aspirations of Pan-Americanism would be checked, saving our empire from a grave menace."

In conclusion, the Review points out that the United States will inevitably gobble up the weak turbulent states southward when it is certain to formulate a Pan-American tariff union against the remainder of the world, and then, controlling Cuba, Porto Rico and the Isthmian canal, convert the Caribbean Sea into an American lake."

STUDY OF LATIN SUPPRESSED.

English to Be Taught in Mexico City Preparatory School.

MEXICO CITY, Jan. 4.—The department of public instruction pays a remarkable tribute to the importance of the English language by suppressing the study of Latin in the great preparatory school in this city, where young men are prepared for professional careers and replacing it with English. There has been much opposition to the change among advocates of the old classical course, but the modernists have triumphed.

English is now taught in many important schools here and in other cities and in great schools under clerical care, English has practically displaced French.

ISSUES CONCILIATORY EDICT.

Dowager Empress Displays Desire to Pacify Foreigners.

PEKING, Jan. 4.—The dowager empress has issued another edict displaying a desire to conciliate foreigners. She says friendly relations with ministers should be resumed immediately on the court's return to Peking, where for it is desirable that the emperor grant an audience and orders that an early date be fixed for the reception of the ministers.

Her majesty recalls the pleasure she experienced twice in receiving ladies of the diplomatic corps, and announces that she will soon arrange another reception.
