They were the creatures of remarkable conditions. But it is not believed that such conditions will ever exist again. Men of brains, talent and education, of the purest sentiments, originally right on everything, through political disappointments or disappointed in the anagement of the government lost their temper, and through an irritable manner of looking at things and discussing conditions, became branded as fanatics or agitators. They were even classed as anarchists in the heat of political campaigns.

The passion and Ignorance, the Altgeld class is composed of disappointed intelligence, honesty and ambition. Having had positive proof of dishonesty on the part of a few in high stations in life it came to suspect a majority of those in power. It came to that point by continuous development in magnifying the bad and minimizing the good. At first this theory was confined to politics and then it grew until evil was found everywhere. The good was so small that it was opprased by mountains of evil upon every hand, and in an effort to rescue it the men composing this class become frantic. That their manner should beget opposition, and often ridicule, is not strange. That they should be misjudgfuel to the flame. It strengthened their belief in their theory that everything and everybody is growing worse. Without sympathy, except among the few of their own class, the world became to them a failure. They saw no combined. hope in the future. Like the starving poet in a fit of desperation, they wolld exclaim: "My torch is out, and the world stands before me like a black
