"Newt" Williamson, as he is called at his home in Eastern Oregon, is purely a man of the people. His residence is at Prineville and he has for a number of years been engaged in the sheep business and in stockraising. To see him in his home town or on his ranch one would never take the new congressional nominee for a political aspirant. In the town he mingles with the "boys" being often seen with groups of them on the street corners, and is the most common looking one of them all in dress. He generally wears a pair of overalls and a broad rimmed hat of the sombrero pattern, and has a natural kind word for every one he meets. He is not of the stripe who go in this attire for effect but it is natural. Mr. Williamson has spent his life that way, and he thinks nothing of meeting prominent men who visit Prineville in his overalls. On his ranch it is the same way. He can lasso a broncho or shear or butcher a sheep as quickly as any employe on his ranch, and he is not backward in taking hold when it comes to manual labor of any kind. Still, when one looks into the eyes of

HURRY UP!

Everywhere one hears that expression "hurry up!" It is a genuine American expression of the "rush" in which we live. Nothing is swift enough for us. We race against steam and lightning and find them slow. We struggle the time given to eating, and rush through meals as though life depended upon our haste.

Life does depend on our haste, but not in that sense. Look at the obituary columns of the papers and see how many prominent men are carried away by "stomach trouble," "acute indigestion" and other related diseases. Their lives have in general been sacrificed to the haste and rush of business which overlooked the fact that food can only nourish the body when digested and assimilated.

Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food, properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food "Golden Medical Discovery" increases and enriches the blood supply and sends new strength to every organ of the body.

J. N. Williamson and sees the spark of intellect there, together with a classic, clean-shaven face and a voice naturally eloquent and pleasing, he sees in the man more than a politician. He is an American statesman.

The socialists have put out a full ticket in this state. Mr. D. T. Gerdes, a local barber of this city, has been placed on the congressional ticket. Mr. Gerdes and the men generally who advocate socialism are good citizens, but running for office on such a ticket at this time is a hopeless chase. It is not much of a chase either for the vote will not even approach respectability, numerically speaking. The advocates of socialism nor their candidates do not expect success, but they believe honestly that it is the beginning of a great future. One of them could not be made believe anything else but that the cause is right and that it must eventually win out. They put as much faith in socialism as the coming means of redeeming the country politically as do the Christians in their religion as a soul-believer. For years believers in socialism have been preaching their theories and they have doubtless had grounds for encouragement from the fact that their number is growing. To understand their theory, they think, is to be converted and they look forward to the time when this country will become a veritable paradise through the success of socialism.

The fact that the population is rapidly increasing and that many adherents of this faith are coming to this country from abroad may give a magnified appearance to the growth of the average independent self-supporting American, it has not reached a stage sufficient in American politics to give it serious consideration.

Factories are good. Mills of all kinds are good for the city. Every kind of commercial enterprise is welcome in Astoria, and they are coming. The city has the advantages and offers them. Men looking for such things will find them sooner or later, but the Push Club is aiding them in finding out what we have, and this means the earlier growth of the city. By all means let us have everything that is for the good of the city. Manufacturing, mills, shipyards, industries of all kinds, and a little pleasure mixed in with the business won't hurt the rogata, for instance.

Roosters coal lasts longer, is cleaner and makes less trouble with stoves and chimney flues than any other. George W. Sanborn, agent; telephone 1311.
