TRAVELING MEN'S VISIT.

The activity of the Push Club in preparing a reception and banquet for the traveling men of the United States who will visit this city in June, is thoroughly commendable. This visitation will probably mean more for the Columbia River basin than any visitation by outsiders for a long time. It is true that traveling men are not usually capitalists, but once favorable to a given section they are more valuable to it than the same number of capitalists would be. These men talk. One deaf and dumb traveling man has been reported, but he is a rarity. And traveling men do not only talk but they see and hear and they are good judges of human nature, and while they talk a great deal they do not talk at random. They always make a point and it goes to the right spot. The main purpose of coming to Astoria is to give the traveling men of the interior of the United States and those of the Atlantic Coast an opportunity of seeing a Columbia River salmon cannery. In consideration of their visit President Smith of the association

Cooling Off.

The man who would sit on a cake of ice to cool off would be considered crazy. Yet it is a very common thing for a person heated by exercise to stand in a cool draught just to cool off. This is the beginning of many a cough which ultimately involves the bronchial tract and the lungs.

For coughs in any stage there is no remedy so valuable as Dr. Pierce's Golden Medical Discovery. It cures deep-seated, obstinate coughs, bronchitis, bleeding of the lungs, and like conditions which if neglected or unskillfully treated terminate in consumption.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and other narcotics. Accept no substitute for "Golden Medical Discovery." There is nothing "just as good."

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank Hay, of Nortonville, Jefferson Co., Wash. "After trying medicines labelled 'Sick Cures,' almost without success, I took a bottle of Dr. Pierce's Golden Medical Discovery. I took two bottles and was cured, and have stayed cured."

"When I think of the great pain I had to stand in the cold draughts to cool off my lungs almost a miracle that I was so soon relieved."

"That God may spare you many years and abundantly bless you is the prayer of your grateful friend."

Dr. Pierce's Common Sense Medical Adviser, containing 1008 large pages, is sent free on receipt of stamps to pay expense of mailing only. Send 21-cent postage stamps for it in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

asks that the citizens of Astoria give the men a square meal and let him limit the menu to fish, oysters and clams. He expects about 500 to come. They will represent every section of the United States and when they return, if they are properly impressed with this section, they will tell all about it a thousand times in a thousand places. It will be better than any prospectus that could be sent out. Prospects are often cast aside but drummer is never. He will say what he thinks and get an audience. The resources of this section are not to be ashamed of. They are so numerous and glaring that the keen-eyed traveling men will see them in all of their greatness. Then they will picture them accordingly.

Let Astorians prepare a royal reception for these visitors. The committee which has the matter in charge should not have any trouble in procuring the means for this entertainment. It will be money well spent.

The defeat in the senate of the Chinese exclusion bill, can be attributed solely to the sympathetic tendencies of the Eastern people who are totally unaware of the situation as it really exists. Only the West is aware of the great evil of Chinese immigration.

The surrender of the insurgent chief, Malvar, together with all his men and munitions of war, in the disturbed Province of Samar, will in all probability hasten the closing of the war to an early date.

Senator Mitchell's amendment to the civil sundry bill gives \$20,000 more for the purpose of improving and enlarging the Astoria quarantine station. As the bill, together with the amendment, has been favorably reported there is no reasonable doubt of its passing.

David Bennett Hilt's recent speech in New York is interpreted by leading Democrats as a bid for the presidential nomination. David Bennett can always be safely relied upon for a desire to gather in any choice political plum that comes his way.

General Palma, the new president of the Cuban Republic, announces that he will endeavor to maintain friendly relations with the United States. In view of what this country has done for Cuba, it would seem that such a remark is entirely superfluous.

It is very gratifying to the American public that stories of inhuman treatment of Filipinos by soldiers have, after a careful investigation, found to be untrue. The idea that an American soldier should so demean himself as to offer barbaric cruelties to a fallen foe is incompatible with the reputation of our boys in blue.

Another great strike is on in the coal mining regions. This time it is in the Allegheny Valley, involving many thousand miners. The strikers demand a scale of 55 cents and recognition of the union. The present scale is 31½ cents. The mines in the meantime are idle, pending negotiations for a settlement.

FINDS WAY TO LIVE LONG.

The startling announcement of a discovery that will surely lengthen life is made by editor O. H. Downey, of Churubusco, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip. It is invaluable to people with weak lungs. Having this wonderful medicine no one need dread Pneumonia or Consumption. Its relief is instant and cure certain." Charles Rogers will guarantee every 50c and \$1.00 bottle, and give trial bottles free.

A package marked "trained fleas" recently reached Geneva, Switzerland. The nearest analogy the collector could find was that of June bugs, which had been ruled as "edibles." The case went from one official to another until it reached headquarters, at Berne, where, after much investigation and deliberation, the conclusion was reached that the fleas came under the head of "wild animals in a menagerie."

DREADFUL ATTACK OF WHOOPING COUGH.

Mrs. Ellen Harlinson, of 390 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes.
