Faking has long since been placed most susceptible are caught. The side and the few Democrats and a few Democratic party has many ambitions, adherents on the other. publican party. While its members are composed of good citzens generally, as a party it adheres to the rule that "everything is fair in war," when it wars with Republicanism. It claims the right to do this in any manner or form, under the black flag, in ambush or under any name. It is unrelenting. Its prejudice is such that it loses its judgment and "buts in" although the act is suicidal.

"I must again send a few lines to you to let you know how I am getting along since taking the wonderful medicine which cured me two year ago," writes Miss Berthe Ebeler, of 1416 Benton Streat.

conomical administration at home-Under the vigilant eyes of a life time political opponent not a single charge has been openly made. In a represen-tative Republican convention a ticket was harmon outly to nicated. The men named are not strangers in the community. Nothing can be expected of them but a clean and honest admin-Istration.

But the Democrats, with an inherited ambition to defeat them, would devise a plan and make the attempt. Sent by mall, per year, in advance, M. They knew they had no power to do it within themselves. In politics they have lost all. Their last foundation-Bryan and free stiver-his become a laughing stock. Before the boy orator led them too far away for hope, the brains of the party gave them warning, but they followed on blindly. As if chasing a phantom ship, a Pied Piper, they went on to oblivion. They are like the fost cause" of the confederacy; they are in reality bankrupted in name. Like the merchant who has falled to meet hi sobligations they must do business if they do business at all, under some other name than their own. To have run under the name of Democrats in Clatsop county would have resulted in being called down in a hundred places for past obligations as a party, or on platforms that have been unfuifilled and protested. There would have been

is hope of success. By a series of round-ups and coninued persuasion they succeeded in setting a sufficient number of their ollowers together, aided by a few misguided persons and Republicans to nominate a ticket under the name of non-partisan citizens." The leaders and promulgators and bulk of the body were known Democrats. It was nothing more nor less than the remnant of the old Bryan following in disguise. They deceived many of their party and men of other political faiths into joining them in a fight under this assumed name. The leaders even boast that it is a Democratic move It is simply Democratic faking.

Since the convention, claimed to be harmonious, adjourned it has dawned upon some of the candidates that they were being used as cat's paws and two have already withdrawn from the ticket. It is not known who will be next to drop out, but the Democrats are becoming alarmed. One leading Democrat in desperation said: "Why, we will make the fight if we have to fill the ticket out with Japs."

This state of affairs would not exist if a political party had named the ticket in its own name. But the people have grown beyond the faking period. The present citiz-ns' ticket has no platform upon which to go before the people. Behind it is the ever-warring Democrat, who is never out for on a seat "way back" in all forms reform or economy except in name, when once detected. You have the most convincing evidence of this fact every day. Otherwise beautiful faces marred with black heads, blotches and pimples, muddy or sallow complexions, and red, rough or oily skins are some of the most common and conspicuous symptoms of bad blood.

You can hide these ugly and humiliating blemishes by glazing them over with face powders and rouge, and the rough and discolored skin is made white and smooth by a lavish use of cosmetics, but these artificial complexions and false skins only last for a day, when the eruptions and spots stand out as bare and brazen as ever. The natural beauty and smoothness of the skin cannot be permanently restored by the use of external applications, for the reason that these skin diseases are due to some poison or humor in the blood that must be antidoted and eliminated before the skin can or will return to a healthy state.

Under the purifying and tonic effects of S. S. S. all impurities are expelled from the blood, the general health is invigorated, and all disfiguring and annoying eruptions promptly and permanently disappear from the skin, and it becomes as

soft and smooth as ever. Bad blood tells in many other ways. Itching and burning eruptions, rashes and sores, boils and carbuncles show the presence of some irritating poison or unhealthy matter in the blood, and these aggravating troubles will continue until the weak and slow circulation has been quickened and the deteriorated blood made rich and strong

again. Some are born with bad blood, and it begins to tell in infancy; scrofulous affections, sore eyes, scalp diseases, nasal catarrh, stunted growth, brittle bones and soft, flabby muscles are some of the early manifestations of bad blood by inheritance. These symptoms, if neglected, may develop into some deep-seated and serious blood trouble later on in life, but the timely use of S. S. S. will check the disease in its incipiency, remove all taint from the circulation, and the little sufferers grow into healthy manhood and womanhood.
