Talking About CLOTHING

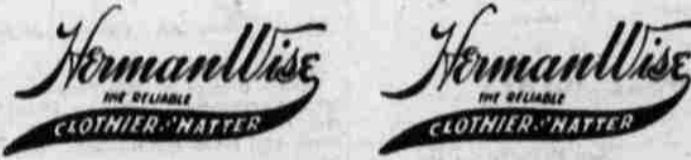

Do you know that there is a vast difference in the make up, lining, sewing and general finish of clothing.

There is the "made to sell" kind, pretty patterns, gaudy linings, but there's no satisfaction in the wear; it is made in a hurry by underpaid labor; just "made to sell."

Then there's the "made to wear" kind, properly shrunk, plain but strong linings, the "vitals," or inside paddings, properly adjusted sewed with silk, made by skilled labor and sold on honor.

The "made to wear" kind costs a little more than the "made to sell" kind, but, dear me, it is ever so much better.

We sell the made to wear kind.

LOST CONTROL OF MACHINE

Young Man Runs an Automobile Amuck in the Streets of London.

DASHED INTO A WINDOW

One Man So Seriously Hurt That He Had to Be Carried to a Hospital for Repairs.

NEW YORK, April 24.—The most disastrous smashup caused by an automobile reported here since these vehicles have been introduced, has just occurred in Regent street, says a dispatch to the Herald from London.

Oswald Lord, a young man residing at Arundel Mansions, Fulham, was driving an automobile along the street about 2 o'clock in the morning when the vehicle got beyond control and dashed right into a jewelry shop, wrecking the front and causing damage which it is reported will amount to some thousands of pounds.

Mr. Lord was immediately arrested and remanded on bail. The constable, describing the occurrence, said that Mr. Lord seemed to quite lose control of his machine, which first came to a stop and then turned round and dashed into the shop window, smashing the shutters, glass and frame work to pieces and scattering the jewelry in all directions. The car recoiled across the pavement and injured a man who was passing so seriously that he had to be taken to a hospital.

Mr. Lord claims the street has just been sprinkled and was so slippery he lost control of the machinery.

MYSTERIOUS DEATH

A New Jersey Girl Said to Have Been Murdered.

NEW YORK, April 24.—An investigation into the mysterious death of Marietta Odell, the silk mill girl, at Wanaque, N. J., has so far thrown little light on the identity of the man with whom the girl drank at a road-house while out bicycle riding. While the girl is said to have insisted the man was a stranger and with no motive for poisoning her, the parents have insisted she was murdered. It is now rumored that Miss Odell made a statement which has been kept secret that she revealed the name of her companion to the woman with whom she boarded, and who was with her when she died.

It is believed that if such a statement was made the fact will be developed at the coroner's inquest which has been set for Saturday.

YANKER ENTERPRISE.

NEW YORK, April 24.—The palace of the Sultan of Linga, a small island in the Malay Archipelago, is to be equipped with complete electric lighting plant of Yankee manufacture. Three other contracts just executed in the Philippines Islands, call for an up to date American electrical plant for railway and lighting. An electric railway system is to be constructed between the islands of Java and Molu. The road will be about 10 miles in length and will open up a rich district.

TO SETTLE A DISPUTE.

DENVER, April 24.—Overand A. Hayes, of Buffalo, high chief ranger of Eastern jurisdiction of the Ancient Order of Foresters, is in Denver to try to settle the dispute between the Eastern and Western districts of that order. The trouble arises over the control of the courts of Foresters in Colorado and the territories of New Mexico and Arizona. The jurisdiction is claimed by the Pacific slope district, although Eastern men declare that there is no ground for the contention.

ACCIDENTALLY KILLED.

DENVER, April 24.—Coroner Horan has been notified that while playing

with a revolver Myrtle, the 5-year-old daughter of J. L. Lloyd Jones, living 10 miles from Denver on the Sand Creek road shot and killed herself. While the mother was temporarily absent the child climbed on a chair and took the revolver from a shelf. While toying with it she shot herself in the chest, dying soon after.

A WIFE'S REVENGE.

ENGLISH, Ind., April 24.—Cruel and inhuman treatment will be the plea of Thomas Foley for divorce. His wife admits that she tied his hands and feet while he was drunk and applied salt to his hands, face and clothing that the cattle in the field where he lay helpless might lick him to death as a revenge for the beating she received during a drunken orgy. Foley's skin was raw in many places and his clothing in shreds.

DISTINGUISHED ARRIVAL.

SAN FRANCISCO, April 24.—Vice-Admiral Sir Harry Holdsworth Rawlins, the newly appointed governor of South Wales, has arrived here en route to Australia. He is accompanied by Lady Rawlins and their children.

HIS TRIUMPHAL TOUR

PRESIDENT ELEC PALMA WELCOMED.

A Pathetic Scene at a Meeting With the Mother of General Garcia.

NEW YORK, April 24.—President-elect Palma's triumphal tour will be continued Thursday morning, says a Holguin, Cuba, dispatch to the Tribune. The next city to be visited is Bayamo, General Palma's native town. Excepting perhaps three hours General Palma was kept continually busy Wednesday receiving the people of this town. He paid a visit to the mother of General Calixto Garcia. Their meeting was extremely pathetic.

In the afternoon General Palma reviewed a procession of 1000 school children, among whom were many Americans. A demonstration in the plaza and a reception followed. Messages of congratulation continue to reach the president-elect. One of these came from General Bartolome Maso, who was his opponent at the presidential election. He said he anxiously awaited General Palma's arrival at Masanillo that he might embrace him. This message disposes of any question that may have existed as to the heartiness of the support which the entire Cuban people will give General Palma's administration.

MINISTER DEFENDS THEATERS.

NEW YORK, April 24.—At the Congressional convention of New Jersey, now in session at Jersey City, Rev. Robert Mourse, of Falls Church, Virginia, defended the theater. He said life is made up of work and play and that play is the dominating factor in life. Information is gained in school and character is formed on the play ground. Amusements should not be confined to the church, he said, and just as soon as a church declares the members shall not go to theaters, the members rise and create a circus, the clown included.

WAIFS FROM WASHINGTON

Several Amendments to the Oleomargarine Bill Voted Down.

DOINGS IN THE SENATE

Committee on Military Affairs Desire Delay—Rawlins Ends Speech on Philippine Bill.

WASHINGTON, April 24.—The house today sent the oleomargarine bill to the conference affair, agreeing to the senate amendments with some modifications suggested by the agricultural committee. Opponents of the measure offered a number of amendments, the principal one of which was designed to place renovated butter on the same footing with oleomargarine, but they were voted down. The latter part of the day was devoted to the agricultural appropriation bill.

IN THE SENATE

WASHINGTON, April 24.—The senate failed to go into executive session to consider the nomination of General Crossler to be the chief of ordinance today.

The committee on military affairs desired delay. It decided to make a detailed investigation before taking the matter up in the senate, as Senator Scott suggested it had been represented that an injustice had been done to Crossler in connection with his interest in the Buffington-Crossler gun carriage.

RAWLINS WINDS UP.

WASHINGTON, April 24.—Just before the senate adjourned today Rawlins concluded his speech in opposition to the Philippine government bill. As on previous days he devoted much of the time to the consideration of the testimony taken before the Philippine committee. He analyzed the testimony in connection with orders issued by the war department and by the general offices in the Philippines. He was particularly severe in his denunciation of General Chaffee for the orders issued in carrying out the policy of the government. He declared that the United States would reap a whirlwind of misfortunes and disaster as a result of its policy in the Philippines. Rawlins denounced Chaffee as a "dastardly villain who had brought dishonor upon the American name and the American people."

CHINESE EXCLUSION.

WASHINGTON, April 24.—Conferees on Chinese exclusion bill decided today to report a disagreement to each house. The point of difference is the date as to when the law shall extend, the house contending for an indefinite period and the senate being equally firm in insisting that the law shall not last beyond the life of the treaty.

BANKRUPTCY LAWS.

WASHINGTON, April 24.—Four of the Democratic members of the house committee on judiciary united today in a minority report on bill amending the bankruptcy laws. The report says: "We do not believe there is any necessity or general public demand for longer retention of the law. It has tended to burden the federal courts with litigation which could be just as well conducted by courts of states." The substitute is proposed repealing the bankruptcy law.

PRESIDENT PALMA.

HAVANA, April 24.—President-Elect Palma arrived at his old home, Bayamo, Santiago Province today. He was enthusiastically received along the route from Holguin.

CONVENTION OF WORKERS.

Amalgamated Association in Session With Scale Question Main Issue.

WHEELING, W. Va., April 24.—In the convention of Amalgamated Asso-

ciation Iron and Tin Workers, interest tonight centers in the report of the wage scale committee and predictions are made that there will be majority and minority reports submitted. Although the personnel of the committee is largely of President Shaffer's friends, it leaked out that strong minority of the wage committee is fighting the endorsement of Shaffer's action in signing scales in advance of the convention.

Opposition has a bearing, too on the presidency if the convention adopts the minority report the election of another than Shaffer can be accounted practically sure.

MANILA, April 24.—Lieutenant Colonel Baldwin, who is operating against Moros on the Island of Mindanao, telegraphs that the capture of the Sultan Paulos' fort has had a most salutary effect. SAN FRANCISCO, April 24.—The board of directors of the United Railroads considered today the demands of the striking street-car employees, and indications are that a settlement of the strike will be reached within a few hours. The matter has been referred to members of the directorate in New York.

Pending word from them no decision can be reached. It is understood local members of the board are in favor of granting most of the demands of the car men. Geary street line officials referred the agreement today with its men and cars on that line will be running tomorrow.

IN REGARD TO PHILIPPINES

General Corbin Receives Letter That May Throw Light on Reported Orders

BOYS FOUND IN ARMS

Question is Whether or not Orders Were Issued to Destroy Natives of a Tender Age.

WASHINGTON, April 24.—Adjutant-General Corbin has received a letter from Henry C. McCook, of Philadelphia, in regard to reported orders of General Smith to destroy all Filipinos found in arms 10 years of age and upward.

"Sergeant Brown, Company G, Second Regiment," says McCook, "visited me this week. I asked him what was the physical standing of a youth of 10 years in the Philippines. The answer was that a 10-year-old lad would about rate with a 15-year-old lad here. He had seen youths about that age and two or three years older among the Insurrectos and Ladrones captured. "It occurred to me that the above facts, if they be as stated, may put a somewhat different color upon the reported order of General Smith."
