FRESH MEAT COMBINE.

The Astorian gives its readers today the full text of the bill filed by the United States attorney general against the combination of meat packers who have succeeded in corralling the beef, public at all times and speaks for the pork and mutton of the country, by a systematic management bave succeeded in controlling the market so that they place the prices as they please and the people are at their merthe full facts in the case and by reading it it will be seen that it is the most damaging conspiracy yet formed in the annals of history.

The number engaged in the conspiracy is so large that the Astorian could not give space to publish the names of the dealers in the combine. but the dealers and their co-conspiraters make up a small army of men who are working together under solown promises and under penalties of

The Engineer

Leaning from the cab window does more with his ears than his eyes. The "rum-ble and grumble and roar" of his engine are to him articulate speech, and a false ote in that jum-

ear as quickly as the leader of an He thinks more of his engine than

himself. That is why he neglects notice symptoms which are full of warning. The foul tongue, ter eating are but symptoms of dyspepsia or some form of disease involving the stom-ach and organs of

digestion and nutrition. In time the heart, liver, lungs, or other organs are involved and the engineer has to lay off.

sound healthy fiesh.

I used ten bottles of Dr. Pierce's Golden Redleal Discovery and several vials of his 'Piensant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to ris pounds, and was not able to work at all. Now I weigh the and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicine." Dr. Pierce's Pleasant Pellets cure con-

ines to rob the people. There may have been greater comines and greater numbers engaged in them, but so much damage has

never been wrought against the public before in times of peace. They strike at alfe fiself. They

It is not one of those combines for the protection of a given community, a local industry or a class of citizenship, but is a conspiracy, formed deliberately for the sole purpose of accumulating millions of surplus into the hands of a few at the sacrifice of the comfort and welfare of the public, and the very lives of thousands of the poor.

The steps taken by the government to throttle this gigantic octopus at once is commendable to the political party in power. Whatever a Republican administration has undertaken ft has done so with a firm hand, and it has never failed.

The public can rest assured that relief is coming. The courts will give a speedy remedy in this case, or if there should be a lame place found in the law, congress will make a law to fit the case.

The charges against the Republican partly that it has been the supporter of monopolies and trusts, are rapidly being disproved and in the present case an example will be made. Possibly slower to begin action than an impetuous public desired, yet it has begun action all along the line against trusts and combines and these enemies to good government may consider their days numbered.

The Republican party is the only power in this country that has ever accomplished anything of importance to the country and now it is in the saddle again in earnest after another evil; in it lies the only hope and there need be no fear of disappointment. The trusts and combines organized for robbery in this country are doomed.

An idea prevails among some people that a newspaper editor vents his own personal spleen through the columns of his paper. The newspaper man does not do this, An amateur or inexperienced may, but the true newspaper man studies the interest of the public. The true newer extoll him the next. Whatever he does lic is reprehensible and subjec to condemnation; whatever he does for the good of the public is always commendable and the paper that falls to see it is derelict in its duty to the public. The editorials of a paper do not speak the editor's individual sentiments—the man's sentiments, speaks the policy of the paper, the proper sentiment of the public.

A LESSON IN HEALTH.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. For sale by Frank

It is yourself that makes the mis-

You have the most convincing evidence of this fact every day. Otherwise beautiful faces marred with black heads, blotches and pimples, muddy or sallow complexions, and red, rough or oily skins are some of the

most common and conspicuous symptoms of bad blood.

You can hide these ugly and humiliating blemishes by glazing them over with face powders and rouge, and the rough and discolored skin is made white and smooth by a lavish use of cosmetics, but these artificial complexions and false skins only last for a day, when the eruptions and spots stand out as bare and brazen as ever. The natural beauty and smoothness of the skin cannot be permanently restored by the use of external applications, for the reason that these skin diseases are due to some poison or humor in the blood that must be antidoted and eliminated before the skin can or will return to a healthy state.

Under the purifying and tonic effects of S. S. S. all impurities are expelled from the blood, the general health is invigorated, and all disfiguring and annoying eruptions promptly and permanently disappear from the skin, and it becomes as soft and smooth as ever.

When my daughter was three months old Ecsema broke out on her head and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now twenty years old, and has a magnificent growth of hair. Mot a sign of the dreadful disease has ever returned.

H. T. SHOBE. Bad blood tells in many other ways. Itching and burning eruptions, rashes and sores, boils and carbuncles show the presence of some irritating poison or unhealthy matter in the blood, and these aggravating troubles will continue until the weak and slow circulation has been quickened and the deteriorated blood made rich and strong

again. Some are born with bad blood, and it begins to tell in infancy; scrofulous affections, sore eyes, scalp diseases, nasal catarrh, stunted growth, brittle bones and soft, flabby muscles are some of the early manifestations of bad blood by inheritance. These symptoms, if neglected, may develop into some deep-seated and serious blood trouble later on in life, but the timely use of S. S. S. will check the disease in its incipiency, remove all taint from the circulation, and the little sufferers grow into healthy manhood and womanhood.

When the blood is healthy and pure it tells a different story, a smooth and flawless skin glowing with health, a sound body and active brain, well nourished system, good appetite and digestion, and restful and refreshing sleep. S. S. S., combining both purifying and tonic properties, contains all that you need in the way of a blood builder and skin beautifier.
