REPUBLICAN PROSPECTS.

A canvass has been made of Clatsop County and the prospects for the Republican party are flattering. From every point the same story comes. The people find no excuse for voting for what they call the mongrel crew; they say that they have no platform, no excuse for running for office; that they only run because of the inordinate desire of Democrats to secure office under any name.

Topsy-turvy.

That's a favorite attitude of the small boy. And in this again "the child is the father of the man." The man does not essay to walk through life on his hands, but he creates for himself a kingdom of topsy-turvydom. He turns right into day. He eats regardless of time and physical necessities. He makes a pleasure of his business and a business of his pleasure. In fact, he effectually reverses the order of natural living. The result is physical disability generally introduced by "weak" stomach. The food he eats does not nourish him because the stomach and its associated organs are not able to extract the nourishment from the food. Hence, the body is undernourished and disease develops in one form or another.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures through the stomach diseases which originate in a diseased condition of the stomach and its allied organs. Hence, it cures "weak" lungs, "weak" heart, "weak" nerves and other forms of so-called weakness.

good government until they seem to regard it as a part of their very being. Defeated, routed, pushed to the wall in a thousand places they do not seem to use judgement or sense.

It is not proper to abuse them, possibly; they do not seem to know any better; they seem to have grown into a state of fanaticism, but their main point is to fight Republicanism. They know there is not a ghost of a show for them. They merely talk and bowl. The days of Andy Jackson are over, but still they sing the same old song. They will come out under the head of the "good of the community" and shed crocodile tears over this thing and that, but it is always the same thing in view—to defeat the Republican party.

They stand to show this election in Oregon or Clatsop County, and they know it, yet they are raising the usual howl. They try to make the ignorant among them believe that they are going to "tear a bone out," and great promises are made, but they are bound by nothing. They have not a platform or a substantial promise that the people can rely upon.

The days of poverty, panics, men begging to work for bread, stares the people in the face who are referred to the history of the Democratic party, and it is a poor record.

The June election will tell the story. Republicanism and good government will win.

VOTING FOR CHAMBERLAIN.

A great deal has been said about voters voting for Chamberlain on personal grounds. A gentleman speaking of the matter yesterday sized it up about right. He said:

"There is a question connected with the present campaign in this state, in which every voter of Clatsop County is interested, the importance of which is not generally understood by some of the voters. It has been intimated, and even claimed by the Democrats, that there are a number of Republicans who intend voting for George E. Chamberlain for governor solely upon personal grounds. If they considered the danger that might result therefrom it is doubtful if they will do so.

"It is generally conceded that if Clatsop County can secure the United States senatorship it will redound to the benefit and advantage of the city and county. While Hon. C. W. Fulton is recognized as one of the leading Republicans of the state, and there is a general disposition to reward him for the valuable services he is rendering in this campaign, yet it must be considered that it requires something more than an appreciation of services and popularity to elect a man, however deserving, to the United States senate. In order to secure the election he must not only be popular and deserving, but he must have the support of influential friends, men in positions of power who are also popular and strong.

"That Mr. Fulton's chances are bright seems to be admitted. He will have the support and influence of Senator Mitchell and the support of a large majority of the people of the state, but he must secure a majority of the legislature. If W. L. Furnish is elected governor, there is no doubt but his influence and position will be used for Mr. Fulton, and in this is the importance of the election of Clatsop County. It is not only necessary that Mr. Fulton carry his county, and that the legislative ticket be elected, but that Mr. Furnish be elected governor and is given a large majority in Clatsop County.

"Were Clatsop County close, and even though Mr. Fulton should carry it, and Mr. Furnish fail to secure a majority, it would militate against Mr. Fulton's chances. It is therefore important that every Republican and every citizen who desires to see Mr. Fulton elected to the United States senate vote for Mr. Furnish for governor. Republicans of Clatsop County who contemplate voting for Mr. Chamberlain should consider this matter. It is possible that they may not consider the danger of voting against Mr. Furnish, for if they did, there is no doubt but that they would not only vote for Mr. Furnish but would use all their power and influence to give him a large majority in Clatsop County.

"On this depends to a great extent the election of Mr. Fulton. No Republican can afford to take any chances on a question of such vital interest to Astoria and Clatsop County. If they desire to see Mr. Fulton elected to the United States senate, they can assist very materially by giving their undivided support to Mr. Furnish. It is a necessary requisite to the success of Mr. Fulton and it is to be hoped will be carefully considered by the voters of the city and county."

ECZEMA

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day.

SALT RHEUM

acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and often attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.
