SAY TO BE CONTAGIOUS

IS THE CHARGE AGAINST TUBERCULOSIS.

Recent Congress on the Subject Makes Some Recommendations.

CUBAN CRIMES.

NEW YORK, June 5.—The American Congress of Tuberculosis, which has been in session here, adopted a resolution declaring tuberculosis "an acute infectious disease," also the following resolutions:

"Whereas, tuberculosis is an infectious disease ordinarily communicated from person to person by means of the dried sputum of a consumptive patient; and,

"Whereas, the spread of tuberculosis could be largely controlled by the proper care of such sputum and the enforcement of comparatively easy methods, therefore, be it

"Resolved by the American congress of Tuberculosis that the health authorities be urged to designate the widest possible extent possible through the press and otherwise, correct information as to the manner in which this disease is produced and the means to be employed for its prevention.

"Resolved, that we believe it to be the duty of the national, state and municipal governments to enact national methods for the prevention of tuberculosis and we recommend the establishment of institutions for the care of indigent consumptives.

"Resolved, that there should be state and municipal supervision of all public conveyances for transportation of passengers and in view of the fact that spitting on the floors of public conveyances favors the spread of tuberculosis and is injurious to the public health, it is recommended that transportation companies be induced to enforce rules against this act.

"Resolved, that appropriations should be requested from state and municipal governments for the publication and distribution of literature as a means of education in the prevention of the spread of tuberculosis.

"Resolved, That all cases of tuberculosis should be reported by the attending physician to the health board for the purpose of disinfection of houses occupied by consumptives."

CHICAGO STRIKE IS NOW OVER

If Was Settled Yesterday Morning After a Long Siege.

LEADERS WILL BE LEFT OUT

Striking Teamsters Will Return to Their Work This Morning as Victors of the Struggle.

CHICAGO STRIKE SETTLED

Teamsters' Strike Settled at 4:15 A. M.

CHICAGO, June 5.—The teamsters' strike was settled at 4:15 this morning. The men gain agreed upon average unique. The scale agreed upon average only two cents less than the men demanded. All pickets will be withdrawn at once and the men will return to work tomorrow morning.

The packing teamsters strike, which has disturbed the peace of the city for nearly two weeks and which yesterday caused the most serious rioting that has occurred since the American Railway Union strike of 1894 came to an end at 4:15 this morning as the result of a secret conference between representatives of the packers and the teamsters at the Grand Pacific Hotel which had been in session since 8 o'clock last night.

The agreement reached at the conference is a partial victory for the teamsters in that the packers have declared that they will not discriminate against members of the union.

Another conference will be held at 10 o'clock this morning at which the ratification of the agreement will be signed.

Quiet reigned in the turbulent stock yards district today as the result of a settlement of the meat teamsters strike, but the happiness of the men was marred somewhat by a report that the packers will refuse to employ the leaders among the striking teamsters.

The report caused much uneasiness. Teamsters are to return to work tomorrow morning. Few were given teams today, but the majority were told to report tomorrow.
