UNDERWOOD HAS BEEN CAPTURED

Murderer of His Child Caught
by Sheriff Cudihoe
Yesterday.

NOW IN SOUTH BEND JAIL

Implicates His Wife and Says
the Child Was Practically
Dead When Thrown
Into the Water.

SOUTH BEND, Wash., June 14.—Paul Underwood, who with his wife is charged with murdering their three weeks' old babe at Seattle two weeks ago, was captured this morning in the woods while he was making his way to Cedar River. He almost walked into the arms of Sheriff Cudihoe, of King County, and was brought to South Bend this afternoon on the steamer and is now in the steel cage in the county jail.

He looks none the worse for his fight and life in the woods.

He seems to take his capture philosophically, and says that he would have given himself up before, but he was afraid he would be shot before he could convince his pursuers of his innocence. He claims that he was practically dead when he threw it into the water. It had been sick and ruptured itself, and when they were going to take the train for Aberdeen he gave it some chloroform to ease its pain, and later baby became limber and its heart ceased to beat. He implicates his wife and claims she was anxious to get rid of the child because of the disgrace of its early birth.

HATCHERY FOR SOCKEYES.

State of Washington Will Establish
One on Fraser River.

WHATCOM, Wash., June 14.—Washington Fish Commissioner T. R. Kershaw, announced today that he had concluded arrangements with the British Columbia government whereby this state would be permitted to establish and maintain at its own expense a sockeye salmon hatchery on Fraser river. Ninety per cent of the Puget Sound salmon pack is of this variety, which breeds extensively in the Fraser river, which flows entirely through Canadian territory. The great number of sockeyes which have been caught in late years made the Sound cannerymen fearful that they would exhaust the supply unless it was artificially propagated.

Commissioner Kershaw announced that the hatchery would be built and in operation next year with an annual capacity of 50,000,000 fish.

SHIPPING COMMITTEE FORMED.

That Feilow Morgan Must Be Looked
After.

NEW YORK, June 14.—In shipping circles of the formation of a committee in the house of commons with the object of looking after urgent shipping questions in parliament is regarded as a movement of a distinctly satisfactory character, says a London dispatch to the Tribune. Sir Charles Cuyper, chairman of the committee, and Col. Ropner, deputy chairman, sit on the government side of the house, but Walter Runciman, honorary secretary, is one of the most promising of the younger men in the Radical ranks. The clear suggestion is, therefore, that political differences are to be as far as possible forgotten in the effort to enlighten parliament on the subject of British shipping industry. In taking this step the shipowners in the commons are by no means to be accused of adopting a strikingly original line of action. The church party and service members have had their own parliamentary committees for a long time past. It is significant, however, that all the members of this new committee look upon the North Atlantic combination in the light of real danger to England's shipping industry.

It is stated that promoters of the British combination in opposition to the Morgan syndicate will not take any further action until the arrival of Sir Wilfred Laurier and Minister Tarte in this country.

CHOLERA IN THE PHILIPPINES.

Heavy Fatality May Become Epidemic
Before Rainy Season.

WASHINGTON, June 14.—An alarming situation with regard to the epidemic of cholera in the Philippines is sent out in a report by Ex-Surgeon-General Forwood from Lieutenant Col. Heinman, at present in charge of the

medical department of the army in the islands. The appearance of the disease in Manila in March is attributed in some quarters to vegetables coming into the islands from the infected Chinese ports, and in others to the drinking of Pasig river water, foul with the sewerage of the city. Heinman says the number of points attacked by the epidemic and the consequent affection of any streams which are universally used for drinking and bathing, and to which all foul matter and garbage find their way makes probable a large number of deaths before the rains which ended two great epidemics in the islands. The army, he says, is much better protected than the native or civil Americans in the islands, because of the care which is exercised in supplying good food and water.

In Manila alone a total of 277 cases occurred up to May 15, the date of the report with 133 cases and 268 deaths outside the city.

MINE OWNERS CONFIDENT.

NEW YORK, June 14.—So confident are the mine operators of winning their struggle with their employees in the anthracite region that a statement has been issued at Wilkesbarre to the effect that when operations shall have been resumed fewer men will be employed. It is planned to reduce the number of miners one-third and increase wages by one-third. In other words, the operators believe their forces can be reduced from an approximate of 147,000 men to 100,000. The operators say they will not attempt to resume the mining of coal at all collieries and that restrictions will be placed on the summary closing of the mines without notice by the men remaining away from work for the purpose of celebrating various holidays, etc., and they will be expected to be on duty every day the mine is open.

BURNS AT ST. LOUIS EXPOSITION.

ST. LOUIS, June 14.—The committee on the grounds and buildings of the Burns Cottage Association had a conference with Director of works Isaac S. Taylor, to determine the site to be occupied by the structures the association proposes to erect on the grounds of the Exposition. The committee carried with them thoroughly elaborated plans showing the purpose of the association to erect two buildings, one a replica of Burns' cottage at Ayrshire, the other of Stirling castle. It is the purpose of the association to exhibit a reproduction of Burns' cottage in the exact condition in which it was while the poet lived in it, obtaining if possible, the original furniture. The replica of Stirling Castle is to be used for the exhibition of the relics, original manuscripts, curios, etc.

ENGLAND FEELS COAL STRIKE.

NEW YORK, June 14.—In the iron markets here the progress of the coal miners' strike in the United States is being carefully noted, says a London dispatch to the Tribune. British ironmasters anticipate that if the strike is not speedily settled it will not only stop the supply of coal, but will as a consequence bring iron and steel work to a standstill. Such a contingency naturally is not overlooked in this country and inquiries on American account are momentarily expected. If they come they will further stimulate the British iron trade, which is already picking up as a result of orders from South Africa.

GAGE SUES CALL FOR LIBEL.

LOS ANGELES, Cal., June 14.—Governor Henry T. Gage today filed complaints alleging criminal libel against John D. Spreckles and W. S. Leake, respectively proprietor and managing editor of the San Francisco Call, in Wilmington township court, Los Angeles county. According to complaints, the alleged criminal libel consists in the publication in the Call of certain articles and pictures, beginning on May 24, and continuing to the present date.

STEEL COMPANY ABSORBED.

NEW YORK, June 14.—Daniel Levy Brosser, president of the Trust Company of the Republic, announced today that his company had completed negotiations for the purchase of the Bethlehem Steel Company, by the newly formed United States Ship Building Company.

PROVIDING FOR ANNEXATION.

WASHINGTON, June 14.—Senator Elkins today introduced a joint resolution in the senate providing for the annexation of Cuba and its admission as a state of the Union.

BUCKET SHOPS WILL CLOSE.

AUSTIN, Tex., June 13.—As a result of a decision rendered by the court of criminal appeals, third district, affirming the judgment of the lower court in the case of Harvey Fullerton, of Greenville, convicted of operating a bucket-shop in the state will have to close, it is said.

REPORTS FROM WASHINGTON

Admiral Dewey Will Command
Fleet in Next Winter's
Maneuvers.

TO BE REAR-ADMIRAL CLARK

Canal Bill—Cuban Reciprocity—
War in the Philippines—
Eruption of Mont
Pelee, Etc.

WASHINGTON, June 14.—Admiral Dewey is to go to sea again flying his flag with four stars in command of the greatest fleet in numbers the United States has gotten together since the days of the civil war, and far more powerful in offense and defense even than any of those war fleets. Secretary Moody has conveyed the idea, and after consulting the pleasure of Admiral Dewey, it has been arranged that he shall be placed in supreme command of the fleet comprising the North Atlantic European and South Atlantic squadrons which is to assemble near Culebra Island in West Indies next December for winter maneuvers. Secretary Moody himself desires to witness these maneuvers and it is even possible that the president may end time to go. Admiral Dewey goes gladly to his work.

TO BE ADMIRAL CLARK.

WASHINGTON, June 14.—Senator Proctor today introduced a bill authorizing the president to appoint Captain Charles F. Clark, late of the battleship Oregon, to be rear-admiral.

IN THE HOUSE.

WASHINGTON, June 14.—The feature of the session in the house today was an attempt of Hay, of Virginia, to secure the adoption of a resolution calling upon the secretary of war for information as to the cost from all sources of the war in the Philippines. The resolution was laid on the table by a party vote of 91 to 66. The latter part of the session was devoted to private pension legislation, 199 bills being passed.

IN THE SENATE.

WASHINGTON, June 14.—Niagara canal bill was before the senate for a short time today. Morgan, of Alabama, continuing his speech in support of the measure and in criticism of the Panama project. District of Columbia appropriation bills were passed and a large number of private pension bills disposed of.

CUBAN RECIPROCITY.

WASHINGTON, June 14.—The present plans of senatorial supporters of Cuban reciprocity are to press the question to an issue next week. This was the result of conferences held today and yesterday. Republican members of the committee on Cuban relations will meet either Monday or Tuesday and finally agree upon the exact terms of the bill to be reported as a substitute for the house bill. Reciprocity advocates still profess the utmost confidence in their ability to pass through the senate any bill that may be recommended by the committee and caucus. They count largely upon the unwillingness of the Republican members to align themselves against a bill that has been made a party measure by the president's message, and there are indications that at least in some instances this prognostication will prove sound.

TERRITORIAL DELEGATES.

WASHINGTON, June 14.—Senator Beveridge today reported from the committee on territories the bill giving Alaska a delegate in congress. He also introduced a bill providing for a delegate from Indian Territory.

PELEE KEEPS IT UP.

ROSEAU, Island of Dominica, June 14.—French revenue cutter Lagulle came here today. She reports that while passing St. Pierre, Martinique, this morning an eruption occurred, and that a quantity of volcanic matter settled on vessel's deck although she was ten miles distant.

FIRST CHINESE GRADUATE.

SAN FRANCISCO, June 14.—Dr. Yung Wing, a Chinese scholar and man of letters, who has played a somewhat conspicuous part in the affairs of his country during the past few decades was among the passengers on the steamer Gaelic, which reached this port yesterday from the Orient. Dr. Yung who is a man of advanced years, was the first of his countrymen to re-

RECEIVE A DEGREE FROM AN AMERICAN IN- STITUTION OF LEARNING, BEING A GRADUATE OF YALE COLLEGE IN THE CLASS OF 1854.

Since that time he has won quite a little prominence, first through his efforts to educate the youth of his country, later as a member of the Chinese diplomatic corps at Washington, and more recently as the victim of an intrigue among titled Chinese that created a several months sensation both in this country and in the Orient. Dr. Yung Wing is now returning to his home in Hartford for the first time since his unfortunate experience in Peking. He was unwilling to talk about his adventures or about Chinese affairs.

BOOTBLACKS' UNION FORMED.

NEW YORK, June 14.—Absolutely the newest thing in organized labor is "Greater New York Shoe Polishers' Union No. 1," which has just been formed with a membership of 800. The new unionists gave their pledge to post conspicuously cards announcing fees of five cents for a "shine" and 10 cents for a "polish." Resolutions were passed calling on the city council to have all stands closed at 2 p. m. on Sunday and recommending the establishment of a training school for rising young bootblacks.

CORONATION SEAT SALES.

LONDON, June 14.—Speculators in street coronation seats who at first were charging exorbitant prices, are now lowering them by leaps and bounds. A general slump is setting in. Best west-end seats are now at a minimum of two guineas instead of three. Two windows at Temple Bar were sold this evening for 75 guineas. Two hundred guineas was the price originally asked. St. Marguerites church, Westminster, will get 54,000 guineas for its ground.

WORKMEN PARADE IN PORTLAND.

PORTLAND, June 14.—The parade of the Ancient Order of United Workmen tonight was participated in by 4500 members. The drill at the exposition building was won by Protection lodge, No. 2, Salem, Oregon. Portland lodge, No. 27, of Portland, won second prize.

A NOBLE GIFT.

CLEVELAND, June 14.—A. A. Pope, of this city, has given Western Reserve University \$100,000. The money will be used to pay for extensive improvements that have just been made in the college buildings.

ACCIDENT ON THE MEADE.

SAN FRANCISCO, June 14.—The main stop valve of the main steam pipe on the United States transport Meade blew out this afternoon, and as a result five men lie badly scalded in the harbor receiving hospital.

BASE BALL.

NORTHWEST LEAGUE.

At Chicago—Boston, 2; Chicago, 1.
At Cleveland—Cleveland, 5; Philadelphia, 3.

NATIONAL LEAGUE.

At Brooklyn—Brooklyn, 4; St. Louis, 3.
At New York—Cincinnati, 4; New York, 1.
At Philadelphia—Philadelphia, 6; Chicago, 1.
At Boston—Boston, 3; Pittsburg, 0.

GREAT DAY FOR RACES

Gold Heels Wins Suburban Handicap by Half a Length.

FIFTY THOUSAND SPECTATORS

Eight Million Dollars Is Said to Have Changed Hands—
Otis Wins St. Louis Derby.

NEW YORK, June 14.—Gold Heels, worthy son of Great Sire, bore to the front and gallantly held there to the end, and won the suburban handicap today over the Coney Island Jockey Club course, stripping two-fifths of a second from the mark set by the speediest of his predecessors. The time was 2:05. It was a day of records. Never on any American course to every part of which an admission fee is charged, has such a tremendous concourse of humanity witnessed a struggle between thoroughbred racers. Fully 50,000 people watched the suburban. Gold Heels beat Pentecost Sport half a length.

Never has there been such betting race, say the book makers. At least \$8,000,000 was handled in the ring on the suburban alone. There had also been a tremendous amount of betting in future books on this event. The final price against Gold Heels was 3 to 1 to win and even money for place.

OTIS WINS ST. LOUIS DERBY.

ST. LOUIS, June 14.—Thirty thousand people saw Barney Schreiber's sturdy colt Otis, son of Sain and Laura Agnes, today gallop across the line winner of the great St. Louis derby, worth \$13,000 to the victor. George C. Lamplighter's colt, Little Scout, was second.

PRESIDENT WILL VISIT WEST.

WASHINGTON, June 14.—The President will start on a somewhat extended trip through the West and Northwest during the latter part of September. He has accepted invitations to go to Detroit, Minneapolis and other cities, returning by way of Springfield, Ill., where he will attend the state fair on October 2. Some time in October the president will make a trip through the Southwest, his objective point being the fair in San Antonio and a bear hunt in the swamps of Mississippi.

RESULTED IN ERYSIPELAS.

CHICAGO, June 14.—Erysipelas contracted by handling money in which the disease germ was lurking has nearly caused the death of P. Noonan, treasurer of the Illinois theater. Dr. Theodore C. Koessel says that the young man's affliction was caused by a bacillus erysipelas which made its way from a piece of money to Noonan's finger and later found lodgment in the victim's nostrils, where a slight abrasion gave it a field for operations. The young man lay at the point of death for several hours, but has passed the crisis and will probably recover.

FIRE AT CUDAHY'S.

OMAHA, June 14.—Fire early this morning destroyed the paper department of the Cudahy packing plant. Other portions of the extensive establishment are threatened.
