

ECZEMA

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, followed by little blisters or pimples, from which a clear or straw colored matter oozes, forming into sores, scales or scabs; this is weeping Eczema, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and often attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

VENEZUELA SUFFERS LOSS.

NEW YORK, June 17.—Owing to the news of an exodus of a large number of President Castro's supporters from Venezuela, coupled with recent defeats suffered by the government, the revolutionists are hopeful of overthrowing Castro in the ensuing month, says a Herald dispatch from Port of Spain, Trinidad. Four hundred government troops who landed at Soro for the purpose of retaking Quiro were completely defeated by General Correa. The government lost 70 killed and many wounded, besides 150 men taken prisoners. General Matos army which is marching on to Caracas, has reached Carinas, en route to Guanaco, where reinforcements are awaiting the revolutionary leader. Guaraico was recently occupied by a large body of revolutionaries, a portion of whom are invading Barabobo under the command of General Pedro Conde. The Barquisimeto district is almost entirely in the possession of the insurgents. General Valentine Perez has sent 400 insurgents via Barracas. General Alexander Ducharme is marching from Maturin with a large force to strengthen Ciudad Bolivar, which is still in the hands of the revolutionists. The insurgents have held the town since June 8. General Ayala with 200 men in Coro has been besieged by General Herrera.

A STRANGE CASE.

CHICAGO, June 17.—Practically dead for eight and one-half hours, the heart of Bridget Dempsey a patient in the county hospital, has finally ceased beating. All action of the respiratory organs of the woman had ceased and the physicians in attendance pronounced her dead. The heart action, which had apparently died away, grew stronger a few minutes afterward and injections of nitroglycerine and other stimulants were used, but ineffectually. Still the pulsations of the heart continued with regularity while the woman to all other indications was lifeless. Dr. J. H. Mustard, of the hospital staff, pronounced the case one of landry's paralysis, one of the rarest diseases known to medical science. The disease is primarily paralysis of the respiratory organs, which does not act immediately upon the heart. The dead woman was 21 years of age and entered the institution two weeks ago to be treated for tubercular meningitis.

ABOLISH ELECTION OF JUDGES.

CHICAGO, June 17.—United States Circuit Judge James Jenkins attracted marked attention last night by an address advocating the abolition of an elective judiciary in the state courts. The address was delivered at the commencement exercises of the John Marshall Law School. Judge Jenkins said: "I believe it to be in the interest of the state, in the interest of good government to secure certainty in the law to obtain the highest ability and the best experience of the profession in the adjudication of law, that judges should be appointed by the governor or until a specified age; that they should have a salary commensurate with the value of private life of similar ability and experience; and if retired at a specified age, should not be thrown aside as a worn out garment but pensioned so that the closing years of the life of a just judge may be passed in dignified ease. The bench should be independent. That can hardly be when the judges whose age and necessity compel him to remain in his position can only do so at the caprice of the public. However severe his honesty of mind, he will insensibly lean with his interest."

DAUGHTERS OF REVOLUTION.

NEW YORK, June 17.—At a special meeting in this city of the General Society of the Daughters of the American Revolution, held for the purpose of making the society's administration more representative of the country at large, the constitution was amended to legalize four instead of the two vice-presidents and six added members of the governing board. These officers were elected to fill vacancies and the newly created positions: Third vice-president, Mrs. Frank Trumbull, of the Colorado Society; fourth vice-president, Mrs. Thomas Hill, of the Maryland Society. Board of managers, class of 1903, Mrs. J. J. Holloway, West Virginia; Mrs. A. W. Bray, New Jersey; Mrs. Robert J. Reed, West Virginia, and Mrs. George J. Raymond, Delaware. Class of 1904, Mrs. Lion Bird, Maryland; Miss Clara B. Adams, Massachusetts, and Mrs. Ora Forest, Pennsylvania.

PLOT TO KILL THE KING.

LONDON, June 17.—A sensational story is current in London tonight of the discovery of a plot to assassinate King Edward. The story has created much discussion in newspaper and other circles, but it is lacking in anything like confirmation. According to a report, King Edward's sudden illness at Aldershot was not due to cold, but was merely an excuse for withdrawing his majesty from public functions owing to the discovery by the Scotland Yard detectives of a plot against his life. The principals in the plot have not yet been arrested.

WIFE'S TESTIMONY VOID.

NEW YORK, June 17.—Judge Skinner, of the common pleas court, of Newark, N. J., has set aside the conviction of John P. McEvedy, a Newark man, who had been committed for 30 days on a charge of having been drunk and disorderly. The testimony upon which his conviction was based was given by his wife. An appeal to Judge Skinner was taken from the conviction on the ground that under the laws of the New Jersey statutes as recently revised a wife's testimony against her husband is not competent in a case in which crime is alleged. The point raised was a novel one and was sustained.

TO VISIT PRINCE HENRY.

NEW YORK, June 17.—Captain Max Schmittburger, of the New York police department, who was in command of the detail at the pier where the German emperor's yacht Hohenzollern lay during Prince Henry's visit to this country, has decided to accept the warm invitations extended to him by the prince and members of his suite to visit Berlin. The captain, who through his activity saved the prince and party from much annoyance through the persistence of sightseers, also has received several valuable presents from the prince and his officers.

SAYS CUBA IS NOT CAPABLE.

SPRINGFIELD, Ill., June 17.—Col. Harry Williams who has just returned from Cuba, where he has been employed for the last two years as government postoffice inspector, says it is a great problem as to whether Cuba can govern herself now that she does have the opportunity. His duties as postoffice inspector gave him the opportunity to visit every section of the island and to study the people and conditions prevailing among its inhabitants. In discussing the conditions he Col. Williams said: "I predict that it will not be many years before Cuba will be annexed to the United States."

REVOLUTION OVERTHROWN.

NEW YORK, June 17.—The overthrow of the Colombian revolution appears to be complete, says a Port of Spain, Trinidad, dispatch to the Herald under date of June 10. Leaders of the revolutionary forces including General Uribe-Uribe, and other chief commanders, have arrived at Caracas, Venezuela, disheartened after escaping from the Colombian troops by the Meta river. They were pursued for eight days. The rebels first went to Ciudad Bolivar and hurried thence to Cascares, where they hoped to obtain further assistance from President Castro.

Dr. Swain made as a condition of his acceptance that Swarthmore raise \$400,000 for the purpose of enlarging the college and increasing its curriculum. He trustees announce that the \$400,000 for the purpose of and the fund will be still probably further increased. Dr. Swain has occupied the president's chair of Indiana University since 1893.

TO KEEP COLLEGE OPEN.

PITTSBURGH, Wash., June 17.—Governor McBride and the regents of the State Agricultural College after a conference here today decided that the college must be kept open, notwithstanding its shortage of funds, and the state law forbidding deficiencies in any state institution. The regents will devise a way to provide funds and the next legislature will be asked to make good the deficiency.

GRAND DAUGHTER OF J. J. ASTOR.

NEW YORK, June 17.—Private dispatchs from Geneva, Switzerland, announce the death of Mrs. Laura Astor Delano, widow of Franklin H. Delano, and sister of the late John Jacob Astor. Mrs. Delano, who was an aunt of Col. John Jacob Astor, had lived abroad for many years. Since the death of her

husband about eight years ago she had not returned to this country. She was a grand daughter of John Jacob Astor, founder of the Astor family in this country.

NEARLY DIED OF STARVATION.

A young man in one of our large cities was recently found in an unconscious condition, and upon examination it was found that he was dying of starvation. Food was given in small quantities and in a few days the patient recovered. There are many other people starving themselves because they are afraid to eat good substantial food. Their stomachs are weak and cannot therefore digest it properly. Consequently the patient loses flesh and the blood and nerves become impoverished. A few doses of Hostetter's Stomach Bitters will restore the stomach to its normal condition and cure headache, indigestion, dyspepsia, flatulency, constipation and biliousness. It is the best stomach strengthener and health builder in existence. Try it and see for yourself.
