First of the season, Crawfish—At the Tote Point Oyster House on Eleventh street may be found the first crawfish of the season, and nobody knows better how to serve them, as well as all other seasonable dainties.

A case which is reported to have been smallpox is but a mild case of varioloid, says Dr. Estes. The patient, Mrs. Robt. Conter, of Thirty-third street, has been isolated and there is no danger of the disease gaining headway as the patient is well taken care of and improving.

An adjourned meeting of the county court will be held today before the departure for White Salmon of County Judge Gray. At today's session bids will be opened for the construction of the new bridge over the Necanicum river. The improvement is one of much importance to people living in that neighborhood.

George W. Hume, the well-known capitalist, who has been up from his Oakland home for some weeks, has purchased the Dean Blanchard plant at Baiter and will put in a big mill there. It is reported that Mr. Hume announced a willingness to invest a large sum of money here, and there is general regret that arrangements were not made with him for the location of a business enterprise in this city.

District Attorney Allen yesterday filed two informations against Samuel Schmidt and Bernadine Lindenberg, who are charged with unlawfully having sturgeon in their possession. Mr. Schmidt is indicted for having 544 fish in his possession, while Mr. Lindenberg is alleged to have had 45 fish in his possession. The cases are supposed to be in the nature of a test of that feature of the fishing laws which governs the taking of sturgeon.

On July 5th the A. & C. R. R. will resume its regular summer schedule, trains leaving Astoria for Seaside via Plavet and Port Stevens, at 5:15 a. m., 11:30 a. m. and 5 p. m., daily, and for Seaside direct at 11:35 a. m., daily. Beginning same date the evening train from Portland will leave Union depot at 7 p. m., daily, except Saturday, and the Portland-Seaside express will leave Portland every Saturday at 2:30 p. m., arriving at Astoria at 5:50 p. m.

At 6:50 yesterday morning, after having been out since 4:40 the previous night, the jury in the case of Louis Kins, charged with the larceny of a net, returned a verdict of not guilty. All night long the jurors considered the case, and it was thought at 1 o'clock that a verdict would not be arrived at. Kins now will be arraigned on the second indictment, which also charges him with the theft of a net. The complaining witness is a man named Dragolich.

Persons who visited the wharf at the Columbia River Packers' Association yesterday afternoon witnessed an unusual sight. An injured rhad, doubtless caught for a time in a net, floundered about in this water, making frantic efforts to get to the bottom. Its injuries were probably fatal, and its physical condition was not helped any when a small boy struck it with a pike pole. The spectacle of a rhad at the surface of the water is a rare one.

The steamer Anna Barron, built by Richard Leathers, had her official trial trip yesterday afternoon. The steamer was contracted for at a speed of nine knots, but she more than filled the bill and developed a speed of 10 knots. The engines were built by the Astoria Iron Works Company and proved most satisfactory. The Barron will leave out on Saturday or Sunday for the Sound, after which she will proceed to Alaska, to act as a cannery tender.

This is the slack season of the year in the iron business, and the Astoria Iron Works is laying off its men. The dull period lasts for about two months. The slack year just closed has been the best in the history of the local works, which now has a plant that is not surpassed on the North Pacific coast. A large amount of new machinery was turned out by the company during the past season, and should it prove the success the management anticipates the volume of business next season will be much greater. The iron works is one of the most substantial concerns in the city, and has a very large payroll. The excellence of its work has won for it an enviable reputation, and the Messrs. Fox are very well pleased with the outlook for the future.

A matinee will be given on Saturday by the Wiedeman's company at 2 o'clock, presenting the laughing farce-comedy, "A Steam Launch." Admission to any part of the house 25 cents; children, 10 cents.

George Washington was a union man, but he had no chance to use the label. See that it is on all your printing and then note the good results it will surely bring you. Bring your printing to the Astorian job office.

Tracy and Merrill were located at Ridgefield, and after a lively skirmish with detectives, they escaped into the woods, leaving behind them two empty "La Imperial" cigar boxes and the compliments of the season.

There is just one suspicious circumstance connected with the confession of John Flax, the Astoria cigar maker, who told the authorities at Sedro-Wooley, Wash., that he was an accomplice in the murder of Nora Fuller at San Francisco. Flax's story to the officers was that he did not actually take part in the crime, but that he knew the girl was to be killed. He is reported to have made the statement that the real murderer, a resident of San Francisco, kept him supplied with funds, in return for which he was to withhold information from the police. It is now said here that Flax actually received money from San Francisco, and since his arrest there has been some speculation as to who sent it to him. Notwithstanding this circumstance, the acquaintances of the man believe his story is "hot air."

Circuit Judge McBride yesterday disclaimed all the jurors for the present term of court, with the exception of Jacob Utzinger. Mr. Utzinger was the only juror of the regular venire who lived in the city, and he is retained for duty as a sort of next-of-kin. Orders were handed down yesterday by Judge McBride as follows: J. T. Ross vs. Victor Hendrickson, defendant allowed 20 days in which to answer; Robert Gibson vs. Mark and P. C. Warren, demurrer to complaint argued and plaintiff allowed 20 days in which to file his brief.

The Astoria baseball team will play at South Bend on July 4th. An interesting game is expected as all concerned are preparing diligently. A boat will leave here on the morning of the game for Ilwaco, this trip to be free. Tickets for the ride from Nacoretta by train and from there to South Bend by boat will be at excursion rates. The Astoria team is made up of the following: Clark, catcher; McDermott and Ross, pitchers; Abernethy, first base; Stockton, second base; Hackett, third base; Painter, shortstop; Ross, right field; Peterson, center field; Knudson, left field.

There has been a material falling off in the supply of fish during the present week, and reports from the various packing houses yesterday were to the effect that the run had been smaller than at any previous time during the season. The traps and seines are doing practically nothing, and the few fish received at the canneries are brought in by the gill-net fishermen. An improvement is looked for next month, when the hatchery run is due. A well-known cannery manager stated yesterday that some of the fishermen who had the foresight to make small mesh nets had reaped a harvest this season. The men with 8½ and 9-inch nets have taken all the way from five to nine tons of small salmon, worth from \$500 to \$600. The number of small salmon taken this season has been greater than that of last year, and the men with the small mesh nets did very well.

The mysterious disappearance of Mrs. Herman Wahatitto, who left an Astoria-bound train a short distance out of St. Louis, was the principal topic of conversation in West Astoria yesterday, and much sympathy is expressed for the husband. There seems little question that the woman recently robbed at the St. Louis depot was not Mrs. Mary Soleski, but Mrs. Wahatitto. The women were well supplied with money, both were bound for Astoria, had two small children, aged 4 and 2 years, and certainly seem to have been one and the same woman. After the Soleski woman was lured from the depot and robbed she was found in a demoted condition and placed in a hospital. It is thought here that the authorities detained her until her reason had apparently been restored and that she was then sent on her way to Astoria. Evidently she had not fully recovered when she left the train. The husband will start at once for Springfield, Mo., to secure the custody of his children.

**EAGLES' EXCURSION.**  
If you want to have a good time next Sunday attend the Eagles' excursion to be given to Cathlamet and Skamokawa. The commodious steamer Hasalo has been engaged for the occasion and will leave the O. R. & N. wharf at 8 a. m., returning leave Cathlamet at 6 p. m. Tickets \$1 children between five and 12 years, half fare. All the members have tickets. Good music by the band. Everybody is going.

**RESULT OF BOWLING CONTEST.**  
The Portland Commercial Club defeated the Astoria Commercial Club at bowling last night at Portland, taking three out of the four games. The visitors started off with 283, but after that fell down badly. The averages were very low, only three men, Biersdorf, Willet and Sovey scoring more than 40 average. The scores by games were: Portland—200, 256, 231, 236; total, 923. Astoria—263, 230, 191, 217; total, 901.

## A GLORIOUS FOURTH.

On the Fourth of July every true patriot will celebrate the signing of the Declaration of Independence by the Colonists, and although the struggle which followed was both costly and disastrous, yet it resulted in the their ultimate freedom from the yoke of English bondage. Another very important day in the life of anyone, especially those suffering from a weak or disordered stomach, will be the one on which they decide to give up old methods of trying to obtain relief and commence the use of that famous twentieth century family medicine, Hostetter's Stomach Bitters. It will cure anyone suffering from dyspepsia, indigestion, belching, constipation, biliousness or insomnia. Try it today and be convinced. Our Private Stamp is over the neck of the bottle.

## SUITS OUR CLIMATE.

The rapidly increasing use of shingles as covering for the walls of buildings, both to keep out the weather and for ornamental purposes, makes a great demand for a shingle stain which preserves the wood, prevents moss, and retains a fresh, handsome appearance. Particularly is such the case in damp climates. The need is well met in a perfect article made right here in Astoria. Cutbush's Cresote Shingle Stains are penetrative, preservative, handsome and durable. They are put up in eight colors and every package guaranteed.
