TRACY CHANGES HIS GARMENTS

Mysterious Buggy Supposed to Be Driven by Convict Disappears.

SEEN YESTERDAY MORNING

Every Place of Strategic Importance Is Guarded and Tracy Cannot Escape Without Conflict.

SEATTLE, July 5.—A special to the Post-Intelligencer from Bothell says that Tracy is in the vicinity of Bothell almost beyond doubt. The track of territory 15 miles in circumference is enclosed by a strong cordon of armed men. Unless the convict stole through the lines last night he can hardly make his escape without a bloody conflict.

EVERY HIGHWAY GUARDED.
Every bridge and crossing, every place of strategic importance in pursuit of this kind is guarded by men lying in ambush. Others are patrolling the country. The mysterious buggy with three lights which appeared on the county road this morning about 12:30 o'clock and suddenly disappeared has added a zest to the situation. Tracy changed his clothes yesterday morning at Maple Leaf, near Pontiac, at the home of Farmer Fisher. He then took the county road for Bothell.

A man answering his description was seen by John Rogers on the county road traveling toward this place yesterday afternoon. While many other reports have come in, Sheriff (Lidbee) is held here principally by the incidents given.

The finding of Tracy's provisions in the cabin where Thursday's battle occurred gave rise to a mild controversy. They stated it contained nothing whatever. Today Deputy Sheriff John McClellan, of Thurston county, and Deputy Sheriff Nelson, of King county, entered the place and found Tracy's outfit in the house. Friends of the Bothell men declared the outfit was left there by Tracy last night.

The mysterious buggy is connected with the finding of the outfit. It was driven rapidly along the county road in the black of night from this direction. It stopped at the cabin for a few moments and then quickly doubled on its course. The buggy was seen by Deputy Sheriff Frank P. Brewer and Deputy Sheriff Woolery.

DOGS TO TAKE TRAIL.

WALLA WALLA, July 5.—Warden Catron tonight received a call from the sheriff's office at Seattle for the bloodhounds at the prison here. Every effort to get a special train proved unavailing and the dogs will leave here tomorrow.

THE BRIGHTON HANDICAP.

Gold Heels Won and Established a New World's Record.

NEW YORK, July 5.—On a track that was lightning fast and before a crowd of 25,000 persons, Gold Heels, favorite in the betting at 13 to 10, galloped home, an easy winner in the Brighton handicap today. He not only beat Jack Points' record of 2:04.3, made in 1900, but established a new world's record for a circular track. The time for mile and a quarter was 2:03 4/5.

SPEAKS REGARDING TRUSTS.

President Will Express His Views on the Subject.

OYSTER BAY, July 5.—It has been ascertained that the president's speech at Pittsburg yesterday in reference to the trust was merely a forerunner of a determined effort to have congress take up the subject and to enact a definite legislation at its next session for the control or supervision of the trusts.

Recently the president and Attorney General Knox held a conference with Representative Littlefield of Maine, whose knowledge of the constitutional law is admitted, at which Littlefield was invited to prepare a bill for the regulation and control of trusts that will go before the congress with an endorsement and influence of the president back of it. The bill will be submitted at the beginning of the next session, but before this is done, the president and attorney general, and Littlefield, will have frequent conferences as to the details.

CHICAGO STOCK YARD BURNED

Swift & Company Suffer Loss Which Is Estimated at \$500,000.

LOSS COVERED BY INSURANCE

Structure Was Four Stories High and 8300 Feet Square—Occupied by General Offices.

CHICAGO, July 5.—By a fire which broke out in their plant at the stockyards tonight Swift & Co. suffered a loss which is estimated at \$500,000. The fire was confined to one building. This structure was four stories high, built of brick, and was 300 feet square. The first floor was occupied by the wholesale meat market of the company, the second floor by the shipping department and the third and fourth by the general offices of the company. The latter are said to have been the largest single offices in the United States, more than 900 employees working in a single room. The loss is covered by insurance.

CITY IS SWEEPED AWAY.
Families Are Left Homeless and Railroad Washed Away.

IDAHO, July 5.—A cloudburst at Ellipton, just east of Hope, today swept away all the houses, about 12 or 15, except Harry Mannings. Two miles of track is washed away and the mill is under water. From Ellipton to the yard limits is under flood of water; the creek is wild and widened 200 yards on each side and all the trestles are gone from Clark Fork to Hope. Residents let loose the dam behind the company store to save the store and dwellings. The families at Ellipton lost everything.

This morning's train is at Sand Point. The track for several miles is covered with rock and sand. Tomorrow morning at daylight passengers will be transferred at Sand Point.

ROBBERS BOARD STEAMER.
MADRID, July 5.—A story is published in the newspapers here to the effect that 80 boat loads of robbers attacked the Spanish line steamer Alfonso XIII, from Havana to Coruna, Spain, while she was aground at Cape Carastford(?) Florida. The robbers according to the newspapers, became so menacing that the captain of the steamer ordered his crew to fire upon them. The Alfonso XIII eventually floated and steamed away.

TURKS KILL 30 BULGARIANS.
CONSTANTINOPLE, July 5.—A detachment of Turkish troops recently surrounded a band of Bulgarian brig-

ands at Patelli, in the Vilayet of Monastir. Thirty Bulgarians were killed. The remainder were made prisoners. Brigandage is spreading alarmingly in Monastir.

Turko-Bulgarian complications are threatened in consequence of the forcible removal of the flag and coat of arms from the Bulgarian agency at Serres, Rumelia. Bulgaria has demanded satisfaction within three days.

Half a million of London's stum dwellers were King Edward's guests this afternoon. They were scattered in about 400 halls, schools and parks.

GRUESOME FIND BY PLEASURE SEEKERS

Head of Middle Aged Man Severed at Collar Bone—No Clue.

NOT THE WORK OF STUDENTS

Physicians Declare Work Done by Person Not Familiar With Surgical Dissection.

BERKELEY, Cal., July 5.—A human head that had been sawed from the body of a man just above the collar bone was found on the bank of a creek that flows through La Loma Park, a pretty spot behind North Berkeley, and one frequented by picnicking parties. The head was that of a middle aged man and had been severed from the body by some one unfamiliar with surgical dissection, according to medical experts who have examined it.

The preservation of the features is remarkable. The face has the appearance of having been placed in some fluid to prevent decomposition. The flesh is not sun bleached so the theory that the head had been used for experimental purposes at some medical institute and subsequently discarded is dissipated.

The discovery was made by W. F. Turner of this city, who was accompanied by a party of pleasure seekers. Very frequently students from the university visit La Loma Park while pursuing their studies. A little creek flows through the park and on each of its banks is a wealth of chapparral, tall oak trees and shady nooks—any one of which afford ample protection from prying persons and inquisitive eyes to a person carrying this ghastly burden.

Turner was accompanied by nine young ladies. They were walking along the path when suddenly one of the girls noticed the head.

"There's a man's head," exclaimed the girl. Turner immediately reported his find to Coroner Streightiff. The coroner found the head lying in the middle of the path and returned to this city with it. After examining the head closely, the coroner found it had been sawed from the body just at the collar bone.

The under jaw had been sawed in two on the right side, but it was not mutilated otherwise.

Dr. G. B. Hoagland voiced the opinion that the head was not removed at a medical institute.

"The very condition of the head, the manner in which it had been sawed off, convinces me that it was the work of some inexperienced person. No medical student would do such a job as this."
