The negotiations which have been on between the manufacturers committee and the men interested in the proposed basket and box factory have come to a successful termination, and the erection of the plant will be commenced in Astoria within a short time. A location for the enterprise has been given at Smith Point.

The professional men of the city have organized a baseball team, and desire to challenge the business men to a match game. The line-up of the professional team is as follows: Neil Stupp, Thomas Ross, George W. McBride, G. C. Fulton, Dr. Cordner, Harrison Allen, Charles Abercrombie, J. C. McCue and R. M. Bradford.

Take Points, which are Eastern oysters developed in Shoalwater bay, are unlike all others—good at any season of the year. They are fat and delicious. Crow-fish are now just in season and are excellent eating, as are crabs and all the other numerous delicacies served so skillfully at the Take Point oyster house on Eleventh street.

County Clerk Clinton has not yet named his third deputy. G. Jegler, first deputy under Mr. Wherity, and S. G. Trullinger, third deputy, will remain, the latter as second deputy under Mr. Clinton. It is understood there are several candidates for the deputyship not yet filed. R. G. Fraed and William B. Young remain in the sheriff's office.

Hon. Victor B. Doolivar and party returned Sunday night from Seaside, where they spent a few days, and departed on the night train for Portland. Mr. Doolivar and his friends stated that they had a most enjoyable visit, the outing being particularly interesting to the gentleman from Iowa. E. Otto Burkhardt, of Portland, joined the party at Seaside and returned home with them.

Trouble is reported to have occurred between the Sanborn-Cutting Company and Everling & Farrell, of Portland. The two concerns are operating adjoining seining grounds up the river, and the Portland firm has lately added much new gear to its outfit, with the result that its work interferes with that of the Sanborn-Cutting Company. It is understood an effort is being made to settle the difficulty.

W. A. Hargus, aged 69 years, was drowned in East Astoria, Sunday, under circumstances that make it appear probable that the man committed suicide. He was under the influence of liquor during the day and, boarding a fishboat, deliberately jumped overboard, according to the statements of bystanders. The body has not yet been recovered. Deceased had been a fisherman for 30 years and was sound mentally, so far as can be learned.

The funeral of the late Mrs. Andrew Young was held Sunday afternoon from the First Lutheran church, of East Astoria, many friends of the family attending. The funeral sermon was delivered by Rev. Oscar Ostrom. Several beautiful floral pieces were placed on the casket, one being from the W. C. T. U. The pallbearers were: Gust Rohnes, John Peterson, John Emberg, Louis Agren, John Nordstrom and Andrew Asp. The interment was at Greenwood cemetery.

The Universal Sash & Door Company yesterday started up its Smith Point plant, and the machinery was found to be running in perfect order. The company is experiencing some difficulty in getting its fuel supply, but as soon as the railroad spur is completed this difficulty will be overcome. The machinery for the sawmill which is to be installed by the company at a site just north of that on which the factory is located is ready for shipment, as is the necessary lumber for the construction of the buildings.

The four-oared barge race, which was postponed from the Fourth of July, took place Sunday morning off the Telephone dock. Two crews, one representing West Astoria and the other East Astoria participated. The West Astorians took the lead at the start and held it until after the turn was made. Then one of the West End crew broke an oar and the East Enders won out by several lengths. But for the accident the West End crew would have won easily. The race was witnessed by a large crowd.

Private advices received yesterday from New York are to the effect that the Alaska salmon market is in a demoralized condition. The regular price for Alaska fish is 95 cents, but Turle & Skidmore, New York commission merchants, are quoting only 82 1/2 cents. In a circular received yesterday, that firm says: "We beg to announce that we have made all arrangements to handle the packing of the North Alaska Salmon Company and the Alaska Fishermen's Packing Company this coming season, and are prepared to take orders subject to approval of price. The quality of either packing we guarantee (as we have in former years) equal to any brand of choice red Alaska salmon packed by either association. The buyers are as follows: North Alaska Salmon Company—Expansion, Pride of Alaska, Climax, Merchants' Choice, Alaska Circle, Caesar and Cosmos. Alaska Fishermen's Packing Company—Sturn and Dinner Bell. On above packs and brands we quote 92 1/2 cents f. o. b. San Francisco and Astoria; cash, less 1 1/2 per cent.

At tomorrow night's meeting of the Push Club acts probably been taken looking to the location of Geo. W. Hume's big sawmill enterprise in this city. It was generally supposed that Mr. Hume had definitely decided to invest at Rainier, but publication in the Astorian of his statement that he would, under favorable conditions, also build a mill here brought members of the club to a realization of the necessity for immediate action. It is believed the site desired by Mr. Hume can be secured for him at an expense to himself of not more than \$10,000.

The newly elected county officials took office yesterday, and little confusion attended the formality, so systematically have the affairs of the county been conducted. The first session of the county court was held, and the bonds of the officials were approved. The bonds and sureties are as follows: Charles Hellborn, treasurer, \$20,000; sureties, Frank Patton, J. Q. A. Bowby and O. I. Peterson; Thomas Linville, sheriff, \$10,000; sureties, A. V. Allen, C. H. Page, Theodore Bracker, Frank Patton and John Fox. J. C. Clinton, clerk, \$10,000; sureties, United States Fidelity & Guaranty Company; R. C. F. Astbury, surveyor, \$5000; sureties, Frank Patton and John Fox. W. C. A. Pohl, coroner, \$3000; surety, United States Fidelity & Guaranty Company. P. J. Goodman, justice of the peace, \$1000; William Beasley, constable, \$1000. The session of the court yesterday was devoted almost entirely to the auditing of claims. Court will reconvene again today at 9 o'clock.

There is practically no change in the supply of salmon. If anything yesterday's receipts were below those of the previous day. The situation is gratifying from the single fact that the fish now being caught are exceptionally large, most of them exceeding the 25-pound limit made by the packers, with the result that the fishermen are receiving 6 cents a pound for practically two-thirds of their catches. All the large fish are sent to the cold-storages, and the canneries are running half time. There is an unusual good run of steelheads in the river, and the supply is so great that only the very finest fish are being frozen. At the Columbia River Packers' Association cold-storage fish that would have delighted the packers a year ago are placed aside this year. The steelhead supply will be of unexcelled quality this year. The chinook salmon now being handled by the cold-storages are likewise of excellent quality, and the output this year will be far superior to that of previous years. One of the cold-storage concerns, which seems to be experiencing much difficulty in getting fish, is offering 8 cents a pound for chinooks. This increase in the price has not had the effect of tempting the fishermen, as the concern is a small one and would be unable to take much salmon if a heavy run were to come into the river. The canneries are in good shape to handle the expected July run, and there is little likelihood of another blockage of packing houses, such as occurred last year.

At last night's meeting of the council Street Superintendent Kearney presented a communication in which he called attention to the fact that the roadway west of the Seaside cannery was in a dilapidated condition and that immediate repairs to the street were necessary. As the repairs would cost more than \$300, they could not be made out of the repair fund, and the superintendent was anxious for instructions. It seems that this roadway is on private property, and was built by private subscription some years ago. Mr. Trullinger said he would oppose the expenditure of any money in patching up the holes, as work of that kind would be of absolutely no benefit. He called attention to the fact that an important enterprise had been located at Smith Point, and said he appreciated that there should be a street leading to it. However, the roadway was beyond repair, and some other route would have to be found. It was finally decided by the council that the street should be closed at once, and that notices be posted disclaiming the responsibility of the city for any accidents that might occur. This action on the part of the council ties up the dumping grounds proposal for an indefinite period. The proposed dumping grounds are located on the road to Smith Point, and Surveyor Tee, in reporting on the matter to the council, recommended that no further action be taken until the question of building a new street were settled. It now looks as though it will be necessary for the property owners to build a street west of the Seaside cannery in order to give the new Smith Point sash and door factory a road to its plant.

SYMPATHY FOR ENGLAND.
In the recent disaster at St. Vincent the United States was among the first to extend sympathy to England and also to offer assistance to the fortunate survivors. Giving sympathy is a very appropriate way of showing our feelings for those in distress, but the person who is unable to eat or sleep on account of a weak or disordered stomach needs more than sympathy. He wants a medicine that will cure him. Then Hostetter's Stomach Bitters is needed, because it positively cures loss of appetite, belching, flatulency, indigestion, dyspepsia, insomnia or nervousness. Every sufferer should therefore try a bottle of it at once. Don't accept a substitute. The genuine has our private stamp over the neck of the bottle.

ADVERTISED LETTERS.
The following letters remain unclaimed at the Astoria postoffice July 7, 1902: Baker, Annie M. Kerby, J. N. Bracker, Miss Cori Linquist, G. C. Cankin, G. E. Laughhead, Lorin Carlson, Fridjof Manton, F. S. Chambers, Joshua Nelson, Aug. Debnar, Harry, Neartouroun, C. S. Deane, C. H. Parco, Mrs. Elsie Frieson, Geo. E. Penttila, V. Frank, Mrs. E. R. Roberts, Mrs. Fred Fry, Mrs. Nellie Smith, John C. Hayden, Andy Tuilla, Abraham Hamilton, Wm. Wilson, Geo. J. Holstrom, Miss MaWalters, Mrs. Ada Jackson, Henry Wilson, Sam Moran, Michael.
