BRYAN SPEAKS ON HARMONY

(Continued from Page One)

ver Republicans by promising international bi-metalism and won all the advocates of the gold standard by revealing to them the secret purpose of the party to adopt a European financial system. But even then we would have won but for the fact that borrowers were coerced and employes intimidated.

"In 1900, the action of the Republican party in turning a war commenced for humanity into a war of conquest compelled the consideration of another question—a question so far-reaching in its consequences that our party rightfully declared it to be the paramount issue. Without abandoning its position on the tariff question or on the money question, it again espoused the people's side of a great issue. That it did not win that year was due to a conjunction of causes any one of which would have been sufficient to accomplish defeat. The administration having carried on a brief and successful war felt her to the enthusiasm which usually attends a victorious conflict; an unexpected increase in the supply of new gold and an unexpected influx of European gold, due to large crops here and a famine abroad, increased prices relieved the stress of hard times and gave to the people the benefits that always flow from a growing volume of money. While the advantages which followed a larger volume of money, indicated the principle contended for by

bi-metalists they were appropriated by the party in power and those who were influenced by conditions without attempting to realize the conditions, gave the Republican party credit for an increasing prosperity.

"The protected manufacturers, of course, stood by the administration, which had given them a Dingley law. Trust promoters and trust magnates, recognizing among their stockholders many of the most influential Republicans, threw all their strength to the Republican party and by their support purchased immunity from punishment. The Republicans were greatly aided by another influence, namely, the influence of the financiers who not yet having completed their schemes were willing to risk trusts, imperialism or anything else rather than forego the advantage which they expected from a gold standard and a bank currency. In spite of all these obstacles the campaign of 1900 only showed a net change of 150,000 votes in favor of the Republicans out of a total vote of over 13,500 millions. And what is the situation today since the election of 1900, imperialism is more openly avowed and imperialistic methods more boldly entered upon because the administration can point to that election as an apparent endorsement, although the party leaders at that time vehemently denied imperialistic intent. Those who expect to make a profit out of a colonial system favor it on the ground that it will pay; those who think it opened up the Philippines to proselytizing insist that it is simply seeking for some reason for supporting their party's policy, fall

back upon the doctrine that circumstances got us into trouble and that we must stay in until circumstances get us out. Since the election of 1900 trusts have grown and flourished under the Republican administration, as might have been expected. Almost two years have elapsed since the last presidential election and no legislative attempt has been made to interfere with them and the executive efforts instead of being directed toward the enforcement of criminal statutes are confined to the equity side of the court and these efforts have not in the least retarded the formation of new combines.

"How can the opponents of aristocracy and plutocracy be united for a successful attack upon entrenched privilege? Not by making peace with the enemy; not by imitating their works, their methods or their phraseology, but by honest straightforward appeal to the American people upon a platform that can be understood and with an organization that can be trusted."

THOUSANDS OF SHEEP ARE SLAUGHTERED.

By One Hundred and Fifty Masked Men—Many Herders Threatened.

LANDER, Wyo., July 24.—It is learned that in addition to killing a Mexican sheep herder and slaughtering several thousand sheep, a band of 150 masked men surrounded all the sheep camps and forced the sheep men to abandon their flocks. After killing one herd numbering 2000, 25 other herds numbering altogether about 6500 sheep were driven into the mountains and left to shift for themselves. The sheep men have been threatened with instant death if they go after the flocks. The sheep are now the prey of wild animals, and if they escape this death the loss will be very heavy, as they are nearly all ewes and lambs. The scene of the lawlessness is 115 miles west of Lander, in Fremont county. The sheriff is powerless and the military may be called out to protect the men.

SULTAN FORCED TO PRODUCE SLAYERS OF AMERICANS.

MANILA July 24.—Captain John J. Pershing, of the Fifteenth cavalry, who is in command of the Lano (Mindanao) expedition, has arrested the sultan of Binadayan, as a hostage for the delivery to him of the Moros, who, on June 22, attacked two Americans. The sultan offered to produce the dead body of one of the Americans, a relative of the leader of the party which attacked them and to surrender 10 slaves. But Captain Pershing refused to entertain the suggestion. The sultan then produced the guilty Moros.

On Tuesday one of the offenders was brought into the camp of the Americans. He was horribly mutilated. Before dying he confessed having participated in the ambush of the Americans. Longal, the leader of the attack, has fortified himself and defies the sultan of Binadayan's followers to capture him.

WILL UNITE WITH WESTERN BEET GROWERS.

SAN FRANCISCO July 24.—Colonel George A. McFarlane, of Honolulu, last night gave information about the plans of the Federal Sugar Company, recently formed with \$50,000,000 capital, and C. A. Spreckles, youngest son of the sugar magnate, as president. Mr. McFarlane says that by a secret process invented by Spreckles, the cost of refining will be greatly reduced. "Spreckles," said Mr. McFarlane, "can refine sugar at less than \$1 a ton. He will establish refineries in all the big cities from Philadelphia to San Francisco and in Honolulu. His plan is to also unite with the sugar beet growers of the West."

SPEAKER HENDERSON'S SCALP IS NOT LOOKED FOR.

SIoux CITY, Ia., July 24.—There is no concerted action on the part of National Millers Association to defeat Speaker Henderson in his race for reelection to congress, was the positive statement made by H. B. Kennedy, Secretary of the National Millers Association today. "Whatever the miller's may feel individually about the matter, there is not a concerted movement on the part of the national federation to get the speaker's scalp. The national federation does not go into politics at all."

WILL OPEN HEADQUARTERS.

NEW YORK, July 24.—Representative J. W. Babcock, of Wisconsin, chairman of the Republican congressional campaign committee, has opened headquarters in this city. The party outlook, he says, is excellent, and the Republicans will, he declares, retain a good working majority in the next house.

BODIES OF MISSING TEACHERS FOUND.

MANILA July 24.—The bodies of four school teachers who have been missing since June 16 have been found in the mountains near Cebu Island of

Cebu where their captors had murdered them. The police killed the leader of the band of murderers and captured eight other alleged participants in the crime. One of them escaped. Neither the circumstances surrounding the death of the teachers nor the date of the murders is known. The bodies were taken into Cebu and buried.

CABINET MUST WAIT KING'S CONVENIENCE.

NEW YORK, July 24.—The cabinet meeting has been followed by a rumor that Sir Michael Hicks-Beach has urged to withdraw his resignation, says a London dispatch to the Tribune. The prime minister is embarrassed without doubt by the strong support which three or four second rate men are receiving for the office of chancellor of the exchequer and may find it easier to take the office himself than to disappoint all factions. The reconstruction of the cabinet will await the king's convenience.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains.

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.
