The old building on the corner of Ninth and Exchange streets, that has been standing vacant for the past six or seven years, is being torn down. At the last meeting of the Civic Improvement League, calling the council's attention to this building and stating that it was a menace to the public health. The council decided that the building should be torn down. This is a very good move—one that is in the right direction. Both the Civic Improvement League and the council are to be praised for this work. The more old shacks that are torn down, the better for the city.

Quite a number of Astoria folk were somewhat put out yesterday morning by the seemingly strange actions of the steamer Columbia. This boat was due to leave out yesterday about 4 in the morning, but she did not get away until about 1 in the afternoon. This was caused by two of the firemen receiving injuries which made it necessary that they be removed to the hospital. One of the men, Peter Can, who was drunk, got into a fight with one of his shipmates, and the result was that Can had a shoulder dislocated. Another fireman, Joseph Murray, was hurt by having a bucket of ashes fall on his leg.

Last evening, while walking up the railroad track towards the depot, Jas. Flynn was struck by a locomotive, and perhaps fatally injured. Two ribs were broken, one penetrating the right lung. He was on his way to the depot to take the 6:10 train for Portland. It seems that he did not know that the train was coming until too late to jump. He was knocked into the water, and was saved from drowning by some fishermen who happened to be near at the time the accident took place. Mr. Flynn was taken to the St. Mary's hospital and was reported at 12:30 this morning to be resting easy. He had been over the river to see about a timber claim, and was expecting to return to his home in Portland last evening.

**Ten Specific Reasons Why You Should Purchase a Piano From Eiler's Piano House.**

**FACTS THAT YOU CAN'T AFFORD TO OVERLOOK IF YOU ARE THINKING OF BUYING A PIANO OR AN ORGAN:**

1st.—We save you from \$50 to \$200 on an instrument. A piano that will cost you \$200 or more elsewhere we sell for as little as \$136. And so on. We can do this because of our exceptional and exclusive facilities. We buy for four stores instead of one, and we ship in carload lots. Every detail has been conquered by us, and you get the benefit of it.

2nd.—You can get from us a fine piano for less than you must pay for an inferior instrument elsewhere. We cannot afford to handle any but good pianos.

3rd.—Our terms are the most liberal; \$10 down takes the choice of a beautiful and extensive line. The balance in very easy installments.

4th.—Our stock is the largest in the West. We have from 300 to 250 instruments from which you can make selection.

5th.—We carry more different makes of pianos than any other music concern in the United States. Over 20 of the leading American piano factories are represented side by side on our floor.

6th.—We treat our customers right. 7th.—We will guarantee satisfaction. If your piano does not please you, you have the privilege of an exchange, or 8th.—We will refund your money if we can't suit you.

9th.—You run no risks when you purchase from us. We have four fine busy stores; one in Portland, one in San Francisco, one in Spokane and one in Sacramento. You deal with a reliable firm when you deal with us.

10th, and most important.—We have the finest pianos that money can buy. "Our leaders" are the celebrated Chickering, of Boston; the piano made by the oldest established factory in the United States; the beautiful Webber, of New York; famous the world over for its pure, rich, sympathetic quality of tone and its great durability; and the now famous and superb Kimball, of Chicago. These pianos represent all that American genius and ingenuity and the accumulated experience of centuries can accomplish. It is not possible to produce better pianos.
