A GOOD ROAD.

Undoubtedly the greatest improvement to Astoria is the Nehalem road, which is now open for the public. A perfect road in every sense of the word. It was a difficult thing some years ago to make some people realize the importance of building this road, but now that it is finished it will very shortly prove of the utmost importance to the city and its merchants. The farmers will now be able to disof their products, where before they had to drive to the steamboat dock and then pay freight and passage will new be able to drive to town and well the articles and, of course patronize our merchants. It will without a doubt be a great benefactor to charge of this work, is deserving of much credit for the splendid work, as nittee of the Push Club, with other members who have labored hard for this road, and the club is certainly to be congratulated upon their success.

STATE FAIR.

No time in the history of the Oregon state fair has there been such a good feeling among the agricultural classes section of the state seems to be taking an interest in the fair and promises to give it their hearty support. There are reasons for this awakening of the people to support the fair. One is, the faithfully to make the fair as broad as the state itself. The transportation companies have come to their assistance and made very liberal rates on hauling exhibits of all kinds. Another is, the people are beginning to realize that it is time to let the outside world know of the wonderful resources of our state, and believe that the state fair is the proper place to meet the better class of home seekers. This will make the fair doubly valu-It will give those looking for homs on the Coast an opportunity to see in a body what our state can produce, and where it is produced, without traveling all over that state at great expense. It will also give the exhibitor the best posible opportunity of showing his products, whether it be grains, grasses, fruits, vegetables livestock, minerals or manufactures

EXCELLENT IDEA.

present administration and have re ceived encouragement for them, and believe they will do what they can to better existing conditions, but the citizens should not leave everything to them, but should do their part as well. and render every assistance to the adment Association in their work, for we are all interested in the beautifying resolve yourself into a committee of one to induce others to join, and when not always succeed, but we will always try. Another thing you can do. hase vegetables, fruits, etc., to insist chase must have his goods at least two feet from the ground, so that they will not be exposed to autmals and hould decline to natronize him, and he vill soon fall into line. The ladies in sfactory. I have seen it tried here.

A business man has said his principal objection to the unions was that they all seemed to want to run the usiness for the proprietor. If this objection was at all valid it would be sweeping one Indeed, and a great annot possibly constitute an objection to any man who cares to be posted. It is a fact not at all promising to nany a man who thinks he is a business man that he does not possess nough consideration for his workto say what or how said workmen should work. This kind of "business nen" are not capable of running their will do aught but assist the capable and considerate business man, but, owing to the fact that there are many of another class, unionism is made a necessity; indeed, it is just this great fact that is responsible for the existence of the union of working men .- Ex.

and it worked the first time,"
