S. C. TURNER, Business Manager.

Oom Paul Kruger refuses to return to South Africa, and it seems quite certain that South Africa will not return to him.

There is no telling, however, just how the king would have got through if he had not been under Christian science treatment all the time.

Mr. Bryan announces that he is with the people in their struggle against wealth, seeming to forget that wealth is the very thing they are all struggling for.

Now a fanatic college professor in his opening address at a banquet says the American army is a disgrace. It certainly would be if they were acquainted with such a specimen as he.

The Oregonian says: "One of the reasons why education as applied to the black race in the United States is a practical failure is because the purpose of education is ridiculously misconceived by many, perhaps most, by those who attend the schools. Nine young negroes out of ten who go in for education do it with the notion that education will enable them to live without work." Why the Oregonian confined its remark to the black race is something we do not know. Surely the vast bulk of the white boys who "go in for education" hope 't will prevent them from working for a living in the same sense.

## SCHOOL FOR BOYS.

Archbishop Christie in his address of last Sunday, said that a school for boys would be erected as soon as the church was completed. This is good news for Astoria. A movement that is worthy of every one's interest and assistance, for the training of the boy is very important. The great work that has been done in such schools speaks the great good that such a school can do for the boys of Astoria.

## CONTROL OF RAILWAYS.

There is justice in the contention of President J. J. Hill, of the Great Northern, against laws that fix minimum rates of carrying grain or other products, says the Journal. As to commissions that are expected to regulate rail affairs for the people, there may be and is no doubt some good in them.

The objection to fixed rates under statutory limitations is that they are not subject to alterations according to altering conditions. There should no doubt be flexibility, and flexibility cannot be had under statutes that are subject to change only during sessions of the legislative assembly.

Railway commissions, granting hon-

esty on the part of their members and intelligence in their decisions, and authority to command instead of merely to suggest, may be the means whereby the question will be settled of retaining sufficient power in the state to offset the enormous leverage acquired by the combination of capital in rail line mergers. But in all legislation on this subject there should be no enactment that does nothing to justice to the companies themselves, and it occurs to the Journal that fixed rate bills are based upon a principle of injustice, as well as upon bad law.

That there may well be means for the exercise of power to meet unusual conditions affecting transportation, most people will concede. But it should never be of a character to subvert the ordinary principles that must govern all industrial or commercial enterprises.

Governor McBride's proposal that the state of Washington take steps to assure prompt action at intervals between sessions of the legislature is timely and wise. He should win out in his contention. The only question is what means should be employed? And so much of positive action as is made in this article certainly is justified by the conditions that obtain in our neighboring commonwealth.

## The Fad

Of the modern woman is health by exercise. It's an excellent fact, provided that it is always remembered that exercise cannot cure womanly diseases.

Indeed, where such diseases exist exercise is apt to aggravate the condition rather than to help it.

The first step toward establishing the general health is to establish the local womanly health. Dr. Pierce's Favorite Prescription cures womanly diseases which undermine the general health. It establishes regularity, dries curbing drains, heals inflammation and ulceration and cures female weakness.

When these are cured, backache, headache and nervousness are things of the past. The universal testimony of weak and sickly women, cured by "Favorite Prescription" is this: "It has made me feel like a new woman."

"My wife has used three bottles of Dr. Pierce's medicine, and I never saw such results," writes A. E. Hayes, Esq., of Aurora, Lawrence Co., Mo. "It was wonderful in its work. We had used lots of medicine, also had one of the best physicians in Aurora, but my wife got no better; we heard one of our friends had a copy of Dr. Pierce's book, the Common Sense Medical Adviser, and after reading the testimonials of Dr. Pierce's successful treatment, and seeing that the cases described were similar to my wife's, I bought for her a bottle of Dr. Pierce's Favorite Prescription. Before she had taken all of the medicine she was up and helping to do the work. She has taken three bottles and is now about well. This better health than she has had for years."

Dr. Pierce's Pleasant Pellets cure constipation.

When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Poley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Polat, Wis., says: "After unsuccessfully doctoring for three years for rheumatism with the best doctors, I tried Poley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." For sale by Frank Hart, druggist.
