## TROOPS WILL USE BAYONETS IF NEEDED

Soldiers Ordered to Shoot Any One Who Resists Authority.

### MAY ENFORCE MARTIAL LAW

Panther Creek Valley in Hands of Mobs—Troops No Longer to Tolerate Stones or Vile Language.

PHILADELPHIA, Aug. 29.—Having exhausted every other means for preserving peace and in protecting non-union men from violence on the way to and from the mines, Brigadier-General Corbin, in command of the troops in the coal fields tonight issued an order that soldiers shall shoot any persons detected in throwing stones or other missiles and that if any mob resist the authority of troops they shall freely use their bayonets.

Panther Creek Valley has been in almost a continual turmoil this week and the troops have had difficulty in protecting the lives of workmen. Tonight the situation in the valley has improved greatly and it is hoped by the military authorities that the lawless and abusive language directed toward soldiers will now cease. Other sections of the coal regions are comparatively quiet.

The general strike situation remains unchanged. Some coal is being shipped but the quantity is so small, compared with the normal shipment that it has little or no effect on the market.

### REFUSES TO WITHDRAW TROOPS

CHARLESTON, W. Va., Aug. 29.—Governor White tonight received a petition from the citizens of Thurmond declaring there had been no necessity for sending the militia there and asking that the troops be withdrawn at once. The Governor declared he would not remove the troops until satisfied that all necessity for their presence was past.

### PRESIDENT ROOSEVELT IN HUNTER'S GARMENTS.

Succeeds in Killing Mr. Bear—Enjoyed It Better Than Speech Making.

NEWPORT, N. H., Aug. 29.—President Roosevelt was today entertained in a manner to his liking. Instead of making numerous addresses meeting committee and indulging in hand-shaking he plunged into the forest of the Crocyden Mountain region, and hunted big game, and just before dark succeeded in shooting a bear. He had disclaimed any intention to go hunting, but Senator Proctor, who like the president, is a good shot, induced him to alter his determination. The president was given an hour's start ahead of the party in order that he might visit the club house and don his hunting costume.

Darkness was coming on when the party returned here and soon after the arrival Secretary Cortelyou telephoned that the president had shot a bear. Upon their return from the woods, the party will spend the night at the club house and it is not improbable that the president will again try for large game early in the morning.

### APPEAL TO PRESIDENT.

They Ask Is Morgan Greater Than the People?—He Refuses to Use His Influence.

WILKESBARRE, Pa., Aug. 29.—The Public Alliance of this city has sent an appeal to President Roosevelt. It says in part: "Since the inception of the barbarous and senseless struggle in the anthracite coal region, the non-combatants have suffered the inevitable fate of such unfortunate. We have endured it patiently. We had hoped for much upon J. P. Morgan's return. Morgan has met with his henchmen and the edict has gone forth; there will be no settlement, no arbitration, no conciliation, no mediation, no concessions. Morgan has placed a ban upon us which means universal ruin, destitution, riot and bloodshed. Is J. P. Morgan greater than the people? Is he mightier than the government? We appeal to you to use your influence to stay this juggernaut which crushes us. We appeal from the King of Trusts to the President of the People."

### SCHWAB STILL THE PRESIDENT.

Works Hard While in Europe, but Says He is Tiring for His Health.

DAILY EXPRESS declares on the evidence of fellow passengers of Charles M. Schwab, president of the United States Steel Corporation, who sailed from New York August 21 on the La Lorraine, that Mr. Schwab, worked extremely hard during the trip over, and never gave himself five minutes leisure.

"In an interview," proceeds the correspondent, "Mr. Schwab maintained that he had come abroad for a rest and holiday, his physician having advised him to do so but he emphatically denied any intention to resign the presidency of the steel corporation or to negotiate a new combine in Europe. He insisted that the utmost harmony prevailed in the management of the steel trust. Mr. Schwab said he had no plans beyond indefinite stays at the various continental health resorts and an intention to leave business strictly alone. He is going first to Aix-les-Bains for a month."

### DAN PATCH GOES MILE IN 1:39 1/4.

Only a Quarter of a Second Behind World's Record, Made by Star Pointer.

PROVIDENCE, R. I., Aug. 29.—The grand circuit meeting was brought to a close this afternoon. Dan Patch, the unbeaten son of Joe Patchen, paced an exhibition mile in 1:39 1/4, reducing his record from 2:00. The mile was within a quarter of a second of the world's record, made by Star Pointer. This is the fastest mile in harness in half a decade and Dan Patch is second horse to beat 2 minutes. No other horse except Star Pointer even went so fast and he did it only twice.

Myron McHenry drove the famous brown stallion. An immense throng saw the exhibition. The track was lightning fast. The fastest quarter was the second, in 29 seconds flat. The first half was in 59 1/2 seconds, and the last in one minute. The middle half was in 59 1/2 seconds. Dan Patch was paced by a runner.

## ENGLAND MAY HAVE HARD TASK

Will Not Be Able to Handle South Africa as Easily as She Planned.

### NEGRO PROBLEM A MENACE

Secretary Chamberlain Anxious to Have Country Pay Cost of War, but It Is Impoverished.

LONDON, Aug. 29.—A dispatch from Pretoria to the Times, in which the correspondent voices the popular protest against the attempt to increase the tax on mines with a view of making the new colonies contribute to the cost of the war, says well founded reports credit Joseph Chamberlain, British colonial secretary, with the idea of getting from \$25,000,000 to \$500,000,000 from the colonies for this purpose.

"It is well to face the facts," says the Times correspondent, "and the facts are that for many years to come there will be no prospect of the Transvaal having any surplus above what is necessary for the proper development of the country. It is obvious that any attempt to exact even \$250,000,000 would permanently hamper the resources for what at best will for years remain a poor country, dependent upon a single industry."

### ANOTHER MENACE

Negro Problem Not an Easy One to Solve.

LONDON, Aug. 29.—Apparently inspired by the native problem which is looming up in South Africa, the Daily Telegraph this morning publishes a significant editorial on the negro question, which it insists is for the Anglo-Saxon race a more serious and urgent problem than the yellow danger. The paper confesses that the ideals underlying the emancipation movement have been proved of realization; that it has been proved throughout the world that the negro is quite incapable of working out his own salvation, and that the theory of electoral equality is a delusion mischievous to both negroes and whites.

Negro franchise in the Southern States of America, says the paper, is already a farce, and its suppression in all but exceptional cases cannot in all probability be permanently deferred. In conclusion the article asks: "What is to be the ultimate destiny of this vast and multiplying black population in South Africa, that is the problem which looks behind every other."

### TRACY DISCIPLES AT WORK.

Washington Has an Increase of Robberies and Murders.

SPOKANE, Aug. 29.—A special from Pasco to the Spokesman Review says: An increase of holdups, burglaries and murders in the inland empire is traced directly to the pernicious example set by the late Bandit Harry Tracy. The condition of affairs at Pasco, Wallula and Umatilla, where people change cars at railroad junctions are said by the officers to be deplorable. It is not safe for the passengers to leave the Pasco depot at night, as thugs lie in wait outside to relieve them of their loose change. No organized band exists but hobo operating singly or in pairs. Men seeking or returning from work in the harvest fields are usually the victims, as they get into the box cars and are easily intimidated. Outrages of this sort are of almost nightly occurrence.

### FOREST FIRE NOT QUENCHED.

Men Can Gain No Victory Over the Fearful Fires.

BUTTE, Aug. 29.—Reports from Sheridan, Wyo., says that the great forest fires in Fremont county are still raging. A special land agent, Campbell, who took a force of 15 men out to fight the first, has returned. He declares the flames are of gigantic proportions and his men could do little toward checking their progress. The fire has already burned over a territory covering 40 miles.

### PALMA HAS NO NEWSPAPER SUPPORT.

Owing to Granting Castaneda Concession of Establishing Light Plant.

HAVANA, Aug. 29.—President Palma finds himself today without the support of a single newspaper controlled by Cubans. The editorials published in the Cuban press are considered collectively, remarkable for their bitterness and outspoken opposition of the chief executive. The only paper which supports the president is the Diario de la Marina, formerly the organ of the Spanish government and at present representing the Spanish colony in Cuba.

One of the principal causes for the opposition to President Palma seems to arise from the fact that he granted the Castaneda concession for the establishment of an electric light plant at Havana. This concession has been a subject of bitter discussion in the house of representatives and some members are demanding Senor Palma's impeachment unless the concession is rescinded. The impeachment matter has been upon the table for the past week. Both houses of congress have become badly disorganized over this question and the result has been a strong anti-Palma feeling.

## WILL DEMAND AN EXPLANATION

Colombia Believes Nicaragua Is Giving Assistance to Colombian Rebels.

### IS READY TO BACK THREAT

Must Explain or War Is Imminent—May Prove to Be the Most Serious Trouble Yet.

WASHINGTON, Aug. 29.—Colombia will formally demand of Nicaragua an explanation in regard to the latter country's alleged participation in the revolution against the Colombian government and back up her demand with the most formidable land and naval force she can muster, as soon as the present rebel activity on the isthmus has been crushed. Information to this effect was received from an authoritative source in Washington today.

WASHINGTON, Aug. 29.—The above intelligence caused considerable surprise in diplomatic circles, for but a few weeks ago it was announced that Mr. Concha, the Colombian minister, and Mr. Corea, the Nicaraguan minister, had established an entente cordiale between their respective governments.

Shortly after Minister Corea's arrival in Nicaragua, where he went some weeks ago on a leave of absence, the Colombian minister here, it is stated, received information to the effect that arms and ammunition for the Colombian rebels on the isthmus were being shipped from Corinto. The Colombian legation here had been receiving reports of this character continually, and in view of the arrangement effected with the Nicaraguan minister before he left Washington, Senor Concha lost no time in calling Mr. Corea's attention to the matter. The latter official replied that President Zelaya would immediately institute an investigation to ascertain if the reports were well founded.

A short time ago, however, more reports were received in Washington to the effect that Nicaragua still continued her material support of the revolutionists on the isthmus, and Colombia now, it is stated, finds her patience exhausted, and decided to present a formal demand for an explanation. Meanwhile, it is understood the entente cordiale has only a nominal existence. It is not anticipated that the affair will lead to an actual war with Nicaragua, but nevertheless, Colombia is making preparations to back up her representations with a reinforced army and navy. It develops that the purchase of the well-armed war vessel at Seattle, as well as several prospective purchases of warships for the Colombian navy, have Nicaragua rather than the present troubles on the isthmus in view.

NEW YORK, Aug. 29.—Dun's Review says: failures for the week were 175 against 202 last year.

## FIEND AUTO KILLS CHAUFFEUR

Falls Into Rapid Transit Subway—Drops Thirty Feet.

### NEW YORK, Aug. 29.—A heavy public automobile fell into the rapid transit subway in Broadway between 43rd and 44th streets, falling 30 feet and flinging the chauffeur, Edward Morris, into the trench. Morris was internally injured and will die.

In the presence of nearly 3000 people the chauffeur was lifted out of the subway on a hoisting machine and then taken in an ambulance to a hospital. Some witnesses said that a Broadway car crashed into the automobile and jammed it into the subway.

Morris was driving along Broadway when he saw the car bound northward. He tried to swing out of the way but as the machine crossed the track the rear wheels slid on the rails. Morris was now alongside the subway, and the machine careened, then tilted and went over with a crash into the darkness below. Hundreds of people from the theaters and diners in several restaurants gathered about the trench. Workmen in the tunnel at 42nd street ran up the subway and found the wrecked automobile first and then saw Morris in agony 20 feet away. Four workmen carried him to 42nd street and he was hoisted to the street level. By this time nearly 3000 people, men and women, had gathered about the trench. They leaned against the railing with such force that the timbers cracked. The women screamed with fear and with their escorts fled for safety, but nothing serious occurred.

### KANSAS MINERS REFUSE TO STRIKE.

Accept Terms Offered to Committee by Operators.

PITTSBURG, Kas., Aug. 29.—There will be no strike among the miners of Kansas this fall. There is a disposition on the part of all miners to accept the terms made by their committees with the operators.
