HUNGARIAN GRATITUDE.

Taken of It Presented to Their American Societies.

NEW YORK, Sept. 2.—No disturbance occurred over the presentation at the Grand Central Palace of the flag to the Hungarian societies, brought to this country by the Hungarian delegation headed by General Joseph Zseni.

In the ranks of the paraders were many prominent Hungarians. The one who attracted the most attention was General Figiennessy, a venerable warrior, in whose arms, it is said, Louis Kossuth died.

General Zseni, who made the presentation, gave a history of the struggles of the Hungarians and of their ancient greatness, which he contrasted with their present condition.

"The Hungarian national federation sends to you this flag," he continued, "as a token of its gratitude and in commemoration of the sympathy and the chivalry manifested by the American people to our country on two occasions."

"First, when after the Hungarian revolution, Louis Kossuth, the immortal patriot, was liberated by the Austrians and brought to this country in an American ship, commanded by an American."

"Secondly, we cannot forget that during the civil war the Hungarian generals who fought in our revolution fought bravely under the Stars and Stripes. In presenting this flag to you Americans born in Hungary, we want to emphasize that the Hungarian flag and the American flag stand for similar principles and similar aims, namely liberty, equality and fraternity."

The flag or banner is a gorgeous affair of silk and is said to have cost \$2000, which was raised by public subscription. It is surrounded by a shining orb of polished steel, on which is perched a white eagle, the martial emblem of the Magyars, holding in its beak the sword of Attila.

RUSSIAN LOAN OF \$300,000,000.

At Three and One-Half Per Cent to Be Issued Shortly.

LONDON, Sept. 2.—In a dispatch from Brussels, the correspondent of

"IT FELT LIKE A HAND CLUTCHING MY HEART."

Many men and women will recognize in that description a sensation which they have experienced, and will recall the terrifying feeling of suffocation which accompanied it.

The heart is the hardest worked organ of the human body. It beats on an average of seventy times a minute—from the minute of birth to the minute of death.

The question then is, how can we keep the blood pure and the heart strong? That question answers itself when we know what is the common cause of the blood's impurity, and whence arises the tendency to heart "trouble."

It is this dependence of the heart upon the stomach which explains the cures of "heart trouble" effected by the use of Dr. Pierce's Golden Medical Discovery. This medicine cures diseases of the stomach and other organs of digestion and nutrition.

Mr. John L. Coughenour, of Glessavage, Somerset Co., Pa., writes: "I had been doctoring for about a year and a half, being unable to work most of the time. The doctor said I had heart disease and indigestion."

Not alone the heart, but any organ of the body, may become diseased by reason of disease of the stomach and digestive and nutritive system. By enabling the perfect nutrition of every organ of the body, Dr. Pierce's Golden Medical Discovery strengthens and cures lungs, liver, kidneys, heart, and other organs which have become diseased through disease of the stomach and its associated organs of digestion and nutrition.

DR. PIERCE'S Common Sense Medical Adviser, containing over a thousand large pages, is sent FREE on receipt of stamps to pay expense of mailing ONLY.

The Daily Telegraph says a Russian loan of \$300,000,000 at three and one-half per cent will shortly be issued in France, Belgium and Holland.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm.
