Papens It is the right of every child to be well born, and to the parents it must look for health and

RESPONSIBILITY happiness. How inconceivably great is the parents free responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most

pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier. There is no remedy that so surely reaches deep-seated, stubborn blood

troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. a purely vegetable medicine, harmless, in its effects, and can be taken

both old and young without fear of any bad results. Write us about your case, and let our physicians advise and help you. This will cost you nothing, and we will also send our book on blood and THE SWIFT SPECIFIC CO., Atlanta, Go.

CAPITAL \$1,000,000. Divided into 1,000,000 shares of \$1.00 each, fully paid and non-assessable,

THE MINES INVESTMENT CO. owns one of the best mines in California. This property is not a prospect; It is an alread equipped mine with a Risdon 10-stamp mill, a 10x10 in. air compresseor, power drills, etc., operated by water power. The development consists of 3350 feet of tunnel, of which 2955 feet are on the various veins, and 640 feet of upraises and shafts, blocking out 88,000 tons of ore, milling \$12 per ton. This alone will net \$800,000 after all expense is deducted. Our object in selling 100,000 shares of the treasury stock is to acquire sufficient funds to buy and erect two concentrators, to finish a \$30 foot crosscut tunnel, and for road repairing, so that a more economic system of mining may prevail.

The best security ever offered the public.
